**MINISTRY OF ANGELS PT.1
(YOUTH MEETING)
TRINIDAD
MONDAY, 23RD DECEMBER, 2013.
BRO. VINWORTH DAYAL**

Oh, We Are Standing On Holy Ground. Let's just sing it as you worship Him this evening. Enter into His presence. Let every heart and mind be centred upon Him. Let us make this close contact, this contact that we desire to have and to feel His presence just overshadow us and cover us this evening that we could leave with something divine. We believe the time is right and the season is here. That's why we felt moved to have these little services for you. You all need it. We all realise that the presence of the Lord is coming down close and let's just pull the cover over as it were. Pull this Holy Spirit right over us.

Oh we are standing (hallelujah) on holy ground. Confess it this evening.

And I know that there are angels...

How we are persuaded with that this evening. His word declares that.

Let us praise Jesus now,

For we are standing in His presence on holy ground.

Oh every hand lifted up to Him breaking the law of gravity this evening. Let us sing it again (Amen) in worship with confession of faith. The Angels of God, that brought us in, are here to minister to us. Hallelujah! How we know it. It's a fact. It's a reality. Showed Himself alive so many times in this hour.

All around...

Oh thank You, Lord. Let's just praise Him. Oh from the depths of your heart, praise Him.

...Jesus now.

Let your faith rise within your soul this evening.

For we are standing in His presence on holy...

Oh surely the presence of the Lord. Let's sing it. Amen.

Surely, the presence of the Lord is in this place.

I can feel His mighty power. Power to heal, power to deliver, power to strengthen this evening; power to break the powers of darkness and liberate.

I can hear the rush of Angels' wings.

I see glory; the glory of God on each face.

Surely, the presence of the Lord is in this place.

Oh we are convinced. One more time -*surely the presence...* Oh Father we thank You this evening. Your great mighty presence, the Angel of God, is in the camp this evening; the great Pillar of Fire spreading Your great wings over Your children here and all throughout the Region wheresoever they are gathered, oh God, in attendance this evening. You said, "*Blessed are they that hunger and thirst after righteousness. They shall be filled*". Oh we come this evening Father drawing near unto You and You will draw near unto us. May You grant it Lord in the name of Jesus Christ.

Surely, the presence of the Lord is in this place.

Lift your hands and thank Him, confess before Him, express your appreciation to Him, express your expectations that you desire of Him to do for you this evening. "*Ask that your joys would be full*". He said, "*We don't receive because we don't ask,*" and we don't ask many times because we don't believe that. Ask! "*If you ask for bread, you will not get a stone. If you ask for a fish, you wouldn't get a serpent*". You can be specific. Lord, I have come here for a closer walk with You. I have come for a touch in my body. I've come here Lord for deeper revelation. Lord, I've come here for more of Your Holy Spirit. Just express to Him. Amen. Oh God I've come here to see the power of deliverance in my life, to set me free that I could be what You want me to be. I've come here to inquire of You, dear God, to walk closer to You, looking for a deeper experience Lord; something more than my yesterday. Ask! Ask of Him. He is your friend. He is your Father. He is your mother. He is your very Creator. He says, "*Remember Him in the days of your youth.*" *He's a giver of every good and perfect gift. In Him is no variableness or shadow of turning.* Find out this evening great is His faithfulness.

Thank You, Jesus. We love You and we appreciate You, dear God. We commit ourselves and this service into Your hands. We pray You'd order our steps in Your Word. May it be the most

edifying time; a blessed time, a time of great encouragement, a time of strength for us dear God, a time where we feel the Spirit of God coming in and filling us oh God. A time dear God when we could see we'll rise up and walk in a more conscious revelation, oh God of whom You are and what You are to us, and what You promised to us that we could be yielded and surrendered, You can lead us into all that You have planned for our lives in this hour. Bless each one Father, every brother, every sister, their friends, their love ones, their associates, those who they desire, those they invite to come Lord. Bless us all this evening. May it be a wonderful time.

We give You thanks in advance. You said, "*When we stand praying believing what we ask for we shall have it.*" We believe. We receive it this evening. We receive it dear God in the almighty name of Jesus Christ, and we express our gratitude. We say thank You, Lord. Thank You, Jesus. Glory be to Your mighty name. Thank You, Lord. Amen.

Well, God bless you this evening. Thank you for being here. I know some of you really had to be... some obstacle in your way to delay you but the very fact you are here, like you climbed over that obstacle. But I trust you feel good tonight to be in His presence. Amen. Everybody is happy to be here? Amen. This is a time... when you get times like these we appreciate, we embrace it. And it's not so much young people's service. Neither is it a time we come here to –you know just kind of give you the tonic and the booster.

But I just feel that this is a time God wants to do something for all of us, and it's like giving you preference. Instead of having everybody, He is giving you preference. It's being streamed so others who want to partake of it, they also have access in another way. But for you who are here this evening we can sit in His presence. And I want to get your thoughts into certain places and when you get your thoughts into places in the Word of God, and you can begin to get convinced that that's God's words and every word that God has spoken, He brings it to pass. God doesn't speak things just for speaking and it's places I would like to get your attention focused so you can come to know this One. This One that has been revealed to us in this day. This One who changed my life

many years ago as a young boy; twenty-one years going on twenty-two I never looked back. And I have seen Him do great and mighty things down through these years: raised the dead, healed the sick, opened the Word, deliver the captives, sent me around the world. Did so many things... Raised up all these churches in the Caribbean and all these things right here. Coming off the street.

I believe what I am telling you it's real, is still real. If in my heart at that age, and three years before that searching all over this Island, until I felt I wanted to go to Tibet. Maybe He is somewhere out there. And I believe that many of you close to that age, and maybe passed that age, could have the same thoughts and the same desire.

I didn't think that I was too young to have that desire. I was a teenager. When I read the men took the trip to the moon looking back at the earth, I was eighteen years old. That changed my life. And I realised who put man here in this planet in space? And at twenty-one going on twenty-two when God met me at Santa Cruz and began to walk me back through my life four years, five years, six years, seven years, and began to bring back so fresh in my mind things that He was dealing with me I began to remember how I was seeing. All the scenes that had drifted away from that part of my life and came back: who was this man I used to talk to? Who is this one; this Influence on my life? Who is this One who came and gave me that revelation? Who is this One that came and met me there in Santa Cruz?

You watch across this place, it is known across the world today on every continent. This place. This place didn't exist. This place came out of this Man who met me in Santa Cruz. That is real, because no man boosted me up. No man pumped me up. No man pushed me. A Man came down. He has shown Himself visible around the world in different countries in Czech Republic, in Trinidad, in Costa Rica, in Honduras. He has shown Himself in New Zealand, here, different places. Many, many people believe it today. And how could we have a history and a past like this and cannot tell it to you. Why did God bring you around here? Why did you born and grow up in this? Before this world passes away, you get a witness. There would be no witness when God has never had a witness. And a witness is one who sees, one who experiences. I

am not telling you something I read in a book. I read many things in books about many people who have many experiences, but I had an experience too and that same God is present. That God who was in the service yesterday right there in that service yesterday, and that God is here this evening.

And the mere fact He showed Himself in these countries around the world, it shows He goes with you wherever you go, and that's His promise. I am sure God dwelt with you in church, and I am sure God dwelt with you at home, and I'm sure God dealt with you in different places showing that He just doesn't deal with you in one place. Many of you have these kinds of experiences I am sure too, but you can't identify it. You don't know the Word sufficiently. Your senses are not raised to a level of awareness. And then you start to realise, oh my God. I bump into this all of the time. This was close to me. That's why God's way of helping you is letting one who became conscious, who He made conscious, one who He revealed His word to come back now and tell you and to show you the symptoms of these things in your life, and then you begin to believe and it begins to bring a faith in your heart.

I believe He will do that for every one of you. All you have to do is just believe Him. You believe your father. You believe your mother. You have friends that you believe. Your teacher teaches you all kind of geography in school. You don't question anything. Your science teacher teaches you science. Your chemistry teacher teaches you chemistry. You don't question them anything. Don't question me. I am teaching you the truth. I love you more than your science teacher, more than your maths teacher, and I am promising you much more that they could promise you. The government employed them and they're allocated to a school, but God sent me to you.

God has me to dedicate some of you or you dedicate right in the church here under this administration. You were baptised right here, many of you. You didn't baptise in the school, you were baptised here. There is something that God has for you all and He wants to give it to you. I know you to believe that. I see many of you feel that already. The Spirit speaks that and expresses it and you feel it with passion in your heart. You know why? Because

God made you up to witness truth. Something in your heart –as we would sing this song,

“I don’t know why.

I don’t know how.

I cannot explain it. But something in your heart, before your mind could think, it says, ‘Amen’.” You know why? You are identifying with an experience. You are identifying with thoughts that are in your mind, with an Influence that is around you at times. I am here to explain this Influence and to help you to grow more and more in this channel. That’s what I wanted to have this little time with you for –because I believe... We had a lot of things to come out of our minds. We were taught a lot of junk because our parents... some of us never were around the message, and they tried to teach us the ways of religion. But you who were born and grew up here you are around the Word. You hear about a prophet. You hear about a Pillar of Fire. You hear about one God. You hear about heaven and dimensions. You hear about the Age and the rapture and these things. You are so close and it’s expected. And you are facing far more battles at your age than what we faced at your age because the world has become more evil. That’s why God has come down closer and God has put you under a ministry and put you in the Word to help you in a very, very intimate and deep way that you would experience supernatural things beyond what we have experienced, because God doesn’t subtract. God adds. And my confidence and my faith on these things are why I want to tell you these things. When the prophet began to understand these things, he was in his forties and fifties. Then we began to understand these things in our twenties and thirties. What you think you are going to be doing? What you think you are going to be doing now? So just open your heart this evening.

I would like to read out of St. Luke chapter 1. My little subject with you is to speak with you on *“The Ministry Of Angels”*, and this is like a fellowship. I’ll try hard not to get preaching. I didn’t really... didn’t even want a song service and these things. I guess maybe it was necessary because of how we came in, but I don’t want to go that line. I want to talk to you. I want you sit. I want you to think. I want to look at you and you don’t feel intimidated down there. I want to reach you and lift your faith up. I want to tell

you, you know, that God has this for you. And I want to find a way to help to get you to really believe it. And I believe He has put this in my heart as a shepherd for you, because God is the one who made you sheep. And God is the one who gave you shepherds to feed you. And if God thought of you in this way, then I am praying He would give me that to help you and draw you into a place, where this influence of God could be in your life.

I don't want to know that God is so real to me and God is so close to me and where my faith is... I am not a person who live in fear and doubt. I don't walk there. God has made Himself real and God has let me influence so many people around the world. How could I have people right close to me here, away from that influence? That is what is making me want to come down to pour some of that influence into you. To say, "Take this. Come up a little higher. Walk a little closer with God. Let Him show you that these things are real". Get yourself where He could visit you, where He could come to you, where He could talk to you. He could give you spiritual dreams. He could reveal Himself to you. You could understand the gift He puts in your life. You could have His leadership that you don't get yourself messed up and misdirected in life, but you walk victorious and you enjoy His blessings. This is what I desire for you.

Luke chapter 1 verse 5. I am going to read a couple of verses and let you have your seat to get you where you are relaxed.

There was in the days of Herod, the king of Judaea, a certain priest named Zacharias, of the course of Abia: and his wife was of the daughters of Aaron,

That's Aaron the high priest. So that means this man to be a priest he comes from a priestly family and his wife also came from a priestly family. See?

... and her name was Elisabeth.

These are two people. I want you to remember their names, Zacharias and Elisabeth. Here when we are reading about them here, they are old people but they were young like you. They fell in love and they got married; Zacharias and Elisabeth. They prayed for a child for years and years and years, and when they got real old God decided to give them a child. [Blank spot on tape.]

Something that opened the New Testament... The opening of the New Testament, we see these two people being visited by God. He tells us, this woman she was a daughter of Aaron. This was about fourteen hundred years before when Aaron lived, because Aaron was Moses' bigger brother and Miriam was Moses' sister. And when Moses was born a baby, Aaron was there and Miriam, you know, kept an eye on Moses in the little ark in the river, and then told Pharaoh's daughter I know a lady that can nurse this child, and so the mother Jochebed herself came and began to be a nurse to Moses. That's the story.

Well, when the Bible is telling us here in the New Testament fourteen hundred years after, God is careful to tell us this woman is Aaron's daughter. She was in Aaron when Aaron was there with Moses. She was inside of him. You were in your great, great, great, great, great, great, great, great, as far as you could go back, grandfather. And you are here. And the same way God knows you are here now, God knows exactly what you were quite back there. If your great, great, great, great, grandfather died before he had children, you wouldn't have been here today. You wouldn't be here today. But the mere fact that God wanted you to be here, He preserved that life so that great, great, great grandfather had a son and he had a son, and he had a son, and he had a son, until it came right down to your father, and you are here. You understand that? The Bible teaches us that how Levi paid tithes in Abraham way, way back there. So you don't just exist.

There was in the days of Herod, the king of Judaea, a certain priest named Zacharias, of the course of Abia: and his wife was of the daughters of Aaron, and her name was Elisabeth.

And they were both righteous before God, walking in all the commandments and ordinances of the Lord blameless.

And they had no child, because that Elisabeth was barren, and they both were now well stricken in years.

May the Lord bless the reading of His Word, you may have your seats. Keep your Bibles open. Let's continue on, verse 8. So we have a little background of these two people here. In these –

four, five, six, and seven –these three verses, it gives us the background and it tells us the time. It was in the days of Herod, the king, and we know that this man is a priest after the course of Abia and we know that this, his wife, is a daughter of Aaron. Now you know in Israel to be a priest, you have to come from the house of Aaron. All the priests were from the house of Aaron. So what that would do? That would make this man and this woman blood relation. Now that’s a great thing. It’s a mystery here in the Word. It is showing us something.

You have been in service and you hear me talking about reading the Word, how you read the Word, and how to read the Word. And yesterday I was making a statement where Brother Branham said, “One of the greatest things is to read the Word”, and I explained to you when you begin to read the Word, and you can pause and you let the Spirit who wrote that Word meet you in the Word, come upon you and begin to teach you that Word, you find your inner being starts to go into the Word. Well that is real. That is what you call locked in.

Sometimes you pass and you watch somebody watching maybe a service, a movie, or something or the other, and they are like this, and they are unconscious that somebody is around because they get so glued, so focused into what they are looking at. It has their attention. It has their attention, not just the eyes here, the spirit inside. So that spirit inside is even unaware to things happening around them. Now that is not a bad way to get. That is a very good way to get. Most times people –the reason they don’t get anything from God, they don’t go deep enough. And when you are dealing with God, because God is unseen, you don’t want anything visible to become distractive to you, because you don’t see the unseen with the physical eye. So the inner person has to be in contact with the person in the unseen, because I guess we all believe that God is a person, and if God is a person, He is an invisible person. He could materialise Himself and make Himself visible. But He is invisible. The Bible said, “*Now unto the King eternal, immortal, the invisible, the only wise God.*” It said, “*Moses endured because he saw Him who is invisible*”. See? It’s like, where is this God? Where is this God of Abraham? Where is the God of Isaac? Then he said, “*I see a bush on fire*”. It’s a fire and a bush. But when he

goes close to the bush, a voice started to talk from the fire, and then he started to realise there is a person in there.

One time he said, "*Lord, show me Your glory*". God put him in the rock and as the fire passed by, he saw the back of a man. He started to realise now this man is not fire. If you ever read the Life Story of the prophet, which I encourage you to read, read how the Angel came and commissioned him. He saw a light in the cave. Then he heard footsteps walking and he knew nobody knows where this cave is. This is a secret cave. And then he heard the sounds where the steps coming and then out of this light comes a man, and the man said, "*Fear not.*" He said, "*That voice is the voice that spoke to me the first time I heard it seven years ago.*"

I talked to you a few days ago about a voice recognition system we are all built up to have. Well then here he is thirty-nine years old, heard the voice the first time- seven years old. And in thirty-two years when the man came now and talked and said, "*Fear not*". He knows that voice is the voice I heard thirty-two years ago. Something inside of him, it became part of him. It stayed with him. Next time he heard that voice was on the river 1933 saying, when he was twenty-four years old, thirteen years before this angel manifested in this form, "*As John was sent to forerun the first coming so shall you forerun the second coming*". That voice stayed with him.

You do remember your friend's voice. You remember voices of singers, but I go through that all the time. I marvel at how this memory and these things, the human spirit works. When you look at yourself and see how this has happened, you know, you hear a song on a CD or something or sometime the radio or something or somebody's voice. It happens to me all the time like I am reading the papers. I am at the airport. I am travelling in a plane. I see a man there. I know the man. I know the man's name. I never met the man before. I know him from seeing the picture and watching this picture or reading an article of this man in the newspaper and I could say, "*That's him right there. There he is.*" You see? And then you realise now that is normal for all of us you know. But the thing is, it operates this way, but we do not stop to think of how we are made. That's why the Word says, "*You are fearfully and wonderfully made*".

Now you take a phone and do this, and make a call. You don't know how that operates. If I were to ask you where that call does pass? When you dial the number, what happens before it reaches that person's number? Unless you remember you hear me say that or read it through some science book or something that goes to a satellite. Then from that satellite that goes to an Exchange. Then from that Exchange it goes over to a company that you have service with. Then that moves from that company there to a number that you call there and it goes straight to that phone. But when you make that call, before you can count one to five that thing rings already. Well that did all of that so fast.

When they are transmitting something from a TV station in one part of the world to a next part of the world like they have World Cup and all these things, and you are ten thousand miles from where the game is actually being played and that is going on, that is coming at the speed of light, a hundred and eighty-six thousand miles per second. And that is breaking time zones and is coming straight into this device, a television, a monitor, or something or an iPod or something that you are watching something on.

Like when we have service here you are somewhere out driving your car and you have an iPhone, you can put that there and hear the service right on your phone, because they stream mobile from here.

So when you look at this now you realise –now you don't think of how it happens, but it happens. It is real. You could even come out next day and somebody asked you, "Girl, you missed a service!" "You say, "Miss a service? I was in service. "You say, "I streamed it on my phone. And then you can say more of what was in the service than the person that was in the service, because they might be in a realm where they are distracted and you might be hearing something that really got your attention, and you get so focused into that, that it answered questions in your life and you come out with all of this, and you were in a distance.

Well if these things do happen and we are conscious of this, I want you to look at what you are reading here because we are about to see that these two old people are going to have a visitation. Now if you do not know where your transmission is coming from and you are not interested, you are only glad that you

are receiving the transmission. Then you will never really have any fellowship and contact and relationship to the source. You understand?

When we went to New Zealand here recently, it had a bunch of ministers from Solomon Islands, a place called New Caledonia, and Vanuatu. All these are Islands in the South Pacific. These men had been reading my books that some of the ministers in New Zealand gave them on the Seven Trumpets. We sent the books for them and they gave these ministers the books because they are the ones who kind of brought these ministers in the message. But when I went there, I haven't been there for ten years, and when I went there now these ministers see me. They already know me. They were looking forward to knowing me and talking with me just by coming in contact with the words in the book, with the teaching in the book and there is a spirit in the teaching. And then in their reading this, it brings an edification, an illumination. It brings an understanding that anchored them and gave them a clear direction of where they want to go. And then now they are seeing me, now to meet me, and talk to me, and know you taught me some things here, if you know what this does to me.

Like we read Isaiah... I am reading Luke. Luke wrote this. Maybe I must be seeing more than Luke saw in what he wrote there. You know why? Because the Age we are living in. If Luke lived in a bicycle age and let me say we live in an astronaut age, he is talking about transport and we are talking about transport. We are talking about two different kinds of transport. We are seeing transport at a higher level. If he is giving a record like a journalist goes by the oval and they were playing a football game or something and he wrote the story of the size of the crowd, how much people was there, what happened, and he put all of this down in the newspaper, it's not necessarily he knows the game. He wrote about the event. But a footballer who knows the game when he speaks about the same game he speaks about with the understanding of the technique, of the game plan, of how they controlled the game and how it could have had a better result and different things. To the journalist who said how the weather was, the size of crowd, the scores the game ended in, the changes they made. That's it.

So in different things you can draw things. And that's why I am saying here at your Age, God wants to reveal things to you. Maybe you do not know this, but I am telling you this. God wants to reveal things to you. God wants to come to you. Samuel... God was trying to get Samuel's attention and he wasn't getting it. He didn't even know God wanted to talk to him. So finally the priest realised God wants to talk to this boy, and this boy is not understanding. So he said, "Son, next time you hear this voice say speak Lord, thy servant heareth". That is what he needed. From the time he said that, the whole file started to download. You understand what I am saying? He didn't know how.

Like your phone is ringing and you don't know how to access the call –you don't know what to do to access the call, you know in this kind of 'Swipe Age', you know and passcode and thing. And the phone is ringing and you stand up there and you don't know what to do. You can't see something. It has no buttons to press because everything is kind of virtual. It is a little confusing to you if you are accustomed to, you know, maybe dialling; you know touching a lot of buttons. You understand what I am saying? So then somebody says, "No! No! It has something to swipe here, and press ANSWER." And then you can access what is being said.

Now that doesn't teach you how to use the phone. Right? But that helps you to get the message that is coming urgently. It's something beneficial to you. God wants to speak to you all. I want you to understand that. I want you to believe that. You see I am a source that can be trusted. Hear why. God will not tell your neighbour to tell you that. If God is trying to contact you and isn't getting through, God wouldn't tell your school teacher that. God would tell me that because I have to give God account for you, and God put you under me so it would have to come to me to tell you; God wants to talk to you. God would have to give me a Word to show you you could walk closer with God, get a greater hold on God, come into deeper fellowship with God. And in normal life this is so.

People make introduction to two people many times. Say, "This is my sister. This is my friend here. You know we go to the same classes and everything else. I like you to meet her you know". The person says, you know ... Say, "We have the same name. And

when were you born?" You say, "Well we are two days apart. You know something, when I saw you I just like I take to you. I didn't know why, but now I get these details and I realise there is some familiarity between you and me."

Now then after some years pass you realise that person becomes one of your greatest friends, your closest friend but you remember the introduction that was made. Brother Branham made an introduction with me to Jesus. That's why I come to know this Jesus. If you could imagine the Catholic Papa Francisco, if he had made an introduction with me, I will be thinking Jesus in a manger, a baby, Mary's son. If it's a Pentecostal, I would be thinking the second person of the Trinity. You understand what I am saying? And I wouldn't know how to come into these things. But because he, the right person, made this introduction to me I came into it in way where I have seen progress since that day to this present day. So God plans the people to bring you into this type of association.

Let's read. So we have Zacharias and Elisabeth before us. We have them well stricken in age. We have Elisabeth barren and we have Zacharias is of the course of Abia. He is a priest. They used to minister in course. When you say course, it had so many priests, so seasonally they would minister. So maybe this course minister for these three months of the year, next course ministers, next three months of the year and so the time had come for his course. And verse 8 says:

And it came to pass, that while he executed the priest's office before God in the order of his course, According to the custom of the priest's office, his lot was to burn incense when he went into the temple of the Lord.

Because it had some priests, you know, they are killing the animal. Some priests are washing the animal in the laver before others kill it. One priest is burning incense. That was like what he was doing. And other priests have their different duties. And they all were delegated certain responsibilities. So it is telling us here,

...that while he executed the priest's office before God in the order of his course, According to the custom of the priest's office, his lot...

His delegated responsibility, his duty...

...was to burn incense when he went into the temple of the Lord.

And the whole multitude of the people was praying without at the time of incense.

Now incense in the Bible; offering incense was a type of prayer. Anybody knows where the Incense Altar used to be in the Tabernacle? I am sure you all know, but you don't want to say. You know? In the outer court. You had the Brass Altar where they used to kill the sacrifice and you had the Brass Laver where the priest and they used to wash. Then you go in the second court and you had the Table of Shewbread, the Altar of Incense and the Candlestick in the second court. So there now they used to burn the incense when the sacrificial blood was shed. And the same fire that consumed the sacrifice, the same fire they have to light the candlestick and that same fire they have to burn the incense. The reason for that is incense represents prayer. But prayer must have a fire with it. Prayer must have a spirit with it. When you burn it, it ascends. It goes up. And when you are praying... *and the effectual fervent prayer of a righteous man...* that prayer ascends before God because the fire in that prayer is the Holy Spirit from a heart praying with faith. That prayer goes up before God.

So this was in the natural temple and they used to do all this under the Aaronic order.

And the whole multitude of the people was praying without at the time of incense.

And there [verse 11] and there appeared unto him an angel of the Lord standing on the right side of the altar of incense.

Now my little fellowship with you is on The Ministry of Angels. First I want to show you every one of you has an angel and then there is the Angel of God. Every one of us here has an angel as the elect of God, as God's children. This is one of...when you have something and you don't know you have it, you are unconscious of it because you don't know you have it. And if you know you have something, like I have a pen in my pocket here. If while I am talking and something strikes me I say, "Hold a minute," and I take out the pen and start to write because I am

conscious I have a pen. I walked with the pen in my pocket because just in the event I want to write, though I have my iPad here. You see? So it's the same way I have my glasses. If I am squinting and trying to figure what the words are because I can't make out the words so I am asking somebody come and read it for me. No. My glasses are in my pocket. And somebody says, "Your glasses are in your pocket. Your glasses are in your pocket." I say, "Oh yeah, I forgot, thanks." See? That observation helped me right.

So when I look at this I know that I can do this. This helps me because I am conscious of what I have. If you have an angel and you don't know you have an angel, you could be a little scared. You could be confused. You can get nervous. You have an angel who guides you, but you do not know you have a guide to guide you. You have an angel who watches over you and protects you, but you do not know. Sometimes you come out from a situation you say, "I don't know how that worked out, but that worked out yeah, whoo!" And you can't express gratitude to God. You can't show your thankfulness to God. You can't become more conscious of the influence that is with you and goes with you.

Now it takes the inner man getting tuned in. You see how I'm about to say something just now and that volume raised, because it has people on the other side and it has brothers interpreting as well, so something there –now that comes out. Now that comes out like that's not supposed to come out, but maybe is something with the adjustment (volume control) what they are doing. Well the same way on the inside when you could get fine-tuned. You know sometimes you are hearing something, it has static and you say, "I am not hearing you. The signal is dropping out. I am not hearing you." And then you turn and then you get better signal. "Okay. I am hearing you now." Right? Well, when that inner man inside of you gets tuned in you will be surprised that you can sense things. You can feel things. Not with the flesh, but the inside person sensing something.

You ever see a dog walking in the yard like this, and all of a sudden the dog's two ears do this, and the dog moves that head. Now that is like a whole radar because the dog is built with certain sense of hearing very high and sense of smell, and the eyes haven't

contact –maybe a cat is in the place, but that dog already got the cat’s scent. That cat’s scent turned on something here. It triggers off: This yard has no cat??? He is the watchman of this yard. Foreign beings are on this territory. He gets alert and he starts to run around. It came from this area. He starts to smell. Now you watch that, but you don’t know what is going on. And you say, “But look at that,” and you observe that. But you have the same to detect the presence of God.

Hear. The prophet says, “He is here.” Why? He lives so close to that presence. He consecrated his life so much. He walked so close. He becomes a prisoner to that influence. He became so dependent and reliable on that person, that he was no longer trusting in his own ability and these things. He got back in God’s provided way, because when God made man in the beginning, God was to lead man. When man got away from God, then man started to go by his own reasoning and by his own imagination. That is what has the world in this condition. It is man got away from God. So that’s why the Bible says, “*There is a way that seems right unto man, but the end is death.*” But Jesus says, “*I am the way. I am the truth. I am the life. As many as are led by the spirit of God, they are the sons of God.*” So there is something inside of us that God wants to bring us into this kind of atmosphere.

So it says,

And there appeared unto him an angel of the Lord standing on the right side of the altar of incense.

And when Zacharias saw him,...

He has the incense and he is waving the incense you know, because that is his duty to burn the incense. He is smoking up the place with the incense. At that time when the people were praying outside, he is doing this on the inside. The Bible tells us all that details. And just at that time when prayer is being made –I want you to see this how the angel is connected with prayer and the angel is coming to him concerning prayer in his life. How many people here don’t pray? How many people don’t believe in prayer? Well that is good. So now are we on the same wavelength. I am talking about prayer so automatically you know what I am talking about. Prayer is a communication between you and God. God leads

you to prayer. God brings the spirit of prayer upon you. The same way God made you up to feel hungry. Sometimes your body tells you I need to eat, and you start to look around and dig up for something to eat then sometimes you know you want to drink and you are feeling for something that you want to drink. You understand? You know just what you want to drink. You don't want juice. You don't want sweet drink (soda). You say, "I feel like some ice water or something," and you go and get the water. You are made up to know this. Your body craves for this.

Well it's the same way with this. There is something in your made up, (You understand?) in your spirit realm, in your inner part of you to pray. So if something says eat now or drink –or drink now you are thirsty, it says, "Pray now." That now many times when we think of prayer I have to go and kneel down and lock the door. Not always. Not always. He means now is a time, give some attention to this. And if He tells you pray, and it is somebody in your heart; maybe your father and your mother, and you don't even know, He isn't telling you anything much, and they are on your heart, all you say, "Lord, you know this Word that you put on my heart for my mom, and say pray, I don't know if something is wrong..." but you pray a prayer in a way, you know. What that is telling you? Now if God didn't tell you, He knows there is something in you you can know. Sometimes He wants you to exercise that. Sometimes He comes and says pray about this now. Sometimes He doesn't tell you anything. He says, "Pray." Like He told the prophet; "Pray." He kneels against the rock and starts to pray. When he is finished God says, "What is that written over your heart?" He watched. Eagle is on the rock. You see? Before that he said, "I felt led to go this way." So I am trying to show you how this works in your life.

Peter was waiting there for the food. In those days it didn't have pressure cooker and all these things. Maybe it is a piece of old cow or something they are cooking it down and getting it soft and he goes upstairs. He said, "Let me in the meantime." He is going upstairs to pray waiting while they're get the dinner ready. As he started to pray, he started to see heaven open. He didn't go to pray to get a vision. The Bible specifically tells you he was waiting to eat and he wouldn't have eaten. So the Bible shows you the state of

mind that he is in. He is thinking about food. He is thinking now is the time to eat. So when he goes and does this now, God came down right there and starts to show him things to give him direction for service.

Now when you are not trained and sensitised you will miss that all the time. "Pray now?" "I will pray later." And "It has no place to pray." It's right inside of you. You are a tabernacle and inside of you has an altar. It says Nehemiah stands up in front of the king and they are talking and the king says, "Nehemiah how much time you want off and this and... And you know am... I have some delegates coming in and I don't know if I could release you." And he is praying in his heart. The Bible says, "*He is praying in his heart.*" What if he goes down the road and says, "Give me a little space here king. "Lord God, Jehovah..." You know you can't do that in the court. He prayed in himself, the Bible says and then the king says, "Okay Nehemiah. Go ahead. Take what you want. But come back here on such and such a time." This is God. This is God!

Now when you don't know the Word for that, if you only know one word: Jesus prayed in Gethsemane sweats like drops of blood. Well then you say, "Well I don't even sweat when I go to pray much more to sweat drops of blood. I have nothing to agonise about." But you ever see little children when they are born and the child starts to creep, but the child like a toddler not walker, toddler? Toddler does so and then falls back down. He toddles two kinds of half steps and falls. But immediately the mother sees that she doesn't say, "Boy you want to kill yourself and break your leg! Stay creeping!" No. From the time she sees that she holds the two hands and says, "Come on. Come on. Come on." And then she lets him go. "Come on. Come on. Come." He makes two more steps. What she is doing? That's a parent trying to get the child to have confidence in an ability that he has and giving him the opportunity to exercise that ability so he could operate in that ability. Because by birth and nature he is a specie who is supposed to be walking. You understand what I am saying? That the legs were given to him to walk and not to creep with, but he (because) doesn't have the knowledge to know how to use the gifts he has. Are you getting

something? You see that is how wisdom is. See? That is how wisdom is. The Holy Spirit of wisdom is present right now.

Look at that simple thing that He gives me there, not even thinking, talking to you and waiting –talking to you and waiting to describe something to you in such detail and make what I am trying to tell you visible. And that baby starts to learn to walk before he could even talk. You know why? She is teaching him to walk. Then she said, “I need to teach him to talk too, you know. Say mama. Say mama. Say papa.” And then she is pointing to a face and then giving a name for that face, “Papa.” The child says, “Mama.” Says, “No Papa, Mama.” She is teaching the child. What is she doing? She is developing his awareness and teaching him how to identify things, because he is a specie that can learn this. He has all the potentials to do it, but he needs the teaching to get it operative. Now that is how supernatural things are.

The prophet says, “When you start off in these things, you are trying to swim and you are splashing water.” After a while you learn how to swim more gracefully. Like my wife turned and told me, we were in Ecuador, so the sisters and they went out a day by the seaside and they had this place, they carried them and they had a nice pool and so on. So Meda was swimming. She said, “Oh God, Meda can swim. She is like a fish. She was teaching the other sisters and them how to swim and so on.” Well everybody has the ability to learn how to swim but they never got teaching. So she had gotten some teaching and she knows how to operate and use because she was just using hands and legs and everybody has hands and legs. Now for some people first the water is a fear, but if you have the right teacher who will teach, you don’t bring the water in the equation yet. Don’t concentrate on this. Concentrate on using your hands and feet. Before you know it, they are no longer studying how deep the water is. They learn just by using their hands and feet, they are staying above the water, and they are moving. So they realise now this is why when they tell you you better be careful when you are going to swim and they start to put things in your head to give you fear. Now this is how Armenianism and Calvinism messed up people. When you don’t have the right teaching or the right teachers, instead you get faith they preach a lot of questions in your mind so those questions come up there.

Now you have to try to get this out of your mind to be able to have faith. Well, I am trying to say when this Angel comes here in the temple and he does so, and he spots the Angel, it's like oh my God! As a young boy I read Angel came to Moses in the burning bush. I read Angel came to Gideon. I read Angel came to Daniel. For four hundred years we haven't seen any Angel. Where this man came from? And he watched the man. He is standing at the right hand side. Who could say he was at the right hand side to write that for Luke? Luke wasn't there. He himself said, "When the man came, he stood up at the right hand side of the altar." That was his testimony. Where you see Him Zacharias?" I see him right there. I was waving the incense. As I turned so and I saw a man standing there about two hundred pounds with an olive skin complexion in a white robe and He folded His arms, barefooted. And when He spoke to me it's like I almost fainted."

Well, he had a visitation. Now I want you to think. Okay. Because I am going to ask you some things just now. I want you to tell me just now where that Angel came from and how that Angel knew to bring that kind of message to this man that this man was going to have a child, which he did have. And the Angel quoted a scripture to him and told him this child you are going to get will fulfil this scripture! I want you to think. Nobody on the earth could have told that man he is going to have a child, and the child's name was going to be this, and the child is going to fulfil this scripture. Nobody on earth could tell him that! Not his father; well his father already died. Mother? No priest, nobody could tell him that. If anybody had to tell him that same thing, it would have to be from the same source the Angel got it from, because the scripture the angel quoted was one that was over four hundred years ago, was spoken by Malachi. And the Angel quoted that scripture and said, "This child..." The point I am making is: there is a next world here where we in this life are known in that world and there is a knowledge in that world that knows what we are in this world for, and though we do not know what our life is about, That One when he comes can tell us and reveal to us in many ways what we are here for. Let me give you a present day example of that.

When that Angel came to the prophet, he said, "You were born to pray for the sick." Who can tell him that? He said, "And you

will pray for kings.” Who can tell him that? The people closest to him who know he used to see little visions and things, who know he used to pray and people used to get well, they said, “You are doing it by the devil, and all these things. You are getting kind of worked Up. You are really nervous and we don’t think –because you are uneducated; you can hardly read and write... we don’t think that this coming from God.” He was so shaken up because he wanted to know. “Now God is this really coming from you?” And that is what he went to pray about. “If this is not from you, take it away from me.” When that Angel came, he started to tell him what he was born for.

Does that knowledge about you in this life you have to first believe that world exist? And you first have to believe that your life being here is not by chance, because Zacharias... she is... Elisabeth is a daughter of Aaron. He was of the course of Abia. He was also of Aaron because he was a priest ministering in the temple. So that means they were born into the earth. They had parents and they grew up from small. And then they got married and had a marriage. And they wanted children and couldn’t get any children. But when this Angel appeared he knows they are going to have a child. He knows what is going to happen. He knows why God kept them barren and now is a day of their visitation.

Just like the prophet, he couldn’t understand what was going on in his life. He is nervous and everything else, but when that Angel came and talked to him He began to tell him past, present and future of his life. That knowledge was coming from another world and that Angel wasn’t a man from this world. All of us, there is one who knows us. We have found out in this day we have had a representation in that world too. We have found out all of us have an angel though we live in this world. When you come to know this, this means more to you. If I say you have the motor car, yes that is good but that comes from this world. That goes back to the dust of the earth. That can’t last. That is temporal. You have a nice suit of clothes. You have certain nice possessions. You have maybe a nice watch. You have a nice pair of shoes you like. It fits you nice. And you have maybe some money in an account somewhere and you are kind of happy for it. You have it. It gives

you a little financial power if you are going to buy something you know, and you have access to it.

Well all of this is good, but we have something else in another world that is far greater, and that is not future. That is present influence.

When that Angel came to Zacharias, it had to do something present in this life that was going to happen in the next few days of his life. Because the Bible says from the time you leave there he went and she conceived. If you could come in contact with that that you have in a next world that could help you in this world while you need it now. Like when the angel came He says, "You are called to pray for the sick, and the campaign is about to start and here are the scriptures, and here is what is going to happen, and this meeting I have come to explain your strange life, and I have come now to commission you, and I tell you I will give you this first sign and this second sign, and I will be with you. "He came to him with things present tense in his life.

Does it not make you feel frustrated sometimes? Because I want to show you this frustration isn't bad either. He was frustrated. He said, "Honey I can't take this anymore." He told the wife he says, "I can't take this anymore." He said, "If I don't come back, you raise those children." He said, "I have to get this answered." He got desperate. When you get frustrated all that means you are uncomfortable and God has you uncomfortable. And sometimes you go by a doctor, he said, "Here. Take these tranquilizers. Take it two times a day. It would help you sleep, and try not to think. Go by the seaside and spend some time. You know water is good therapy for the mind and so on." You don't need that. You need to get a contact from that Word to come to explain to you something about your life here. Put you in sync, put you in sync with God. Would you like that? You want to be in sync with God.

Now if you know... if I had an iPhone to give you and an iPad... I am sure everybody would like an iPhone and an iPad here. I would because of what I do, I could see a lot of uses to help me, and first to begin with it is mobile. So I am not tied to one location and no matter where I go, I could keep doing what I have to do and have the access to do what I have to do. So I know the value of it and I know what I want to use it for.

Well, while I was there sitting thinking about you, God gave me a thought; while Ricardo was singing, and hear the thought the Lord gave me. I am coming to preach to you or fellowship around this, but the thought I got there God knows my heart and what caused these meetings is not I feel to have meetings you know, because you know I am preaching all the time. I came back from New Zealand, went to Ecuador, had more meetings, come back. Well, I am preaching one service, two services and my eyes were falling on some of you, and I am saying, “God, they are having a hard time. Some are having a hard time. Some need something closer. The plug is too loose in the socket. It isn’t getting the current. They need to be energised a little bit.” So I started to express that. So I said, you know something? I am going to call some meetings for them, to get that fellowship because you see the last few months going across the world the Spirit is coming so powerfully with ministers helping, and I have little ones right here, who need me to pick them up and nurse them the sincere milk of the word, and then to change some of your diet and lead you to bring a deeper stage, to hold your hand and say, “Come on; come on. You can do it. You can do it.” You see? And help, you know to get to operate in what you have. So that’s why I am doing this.

So I am in the back there, I am saying, “Lord, I don’t want this to be preaching. I don’t want this to be service.” And boom something came to me. I saw something. I had my pen. See? I walked with my pen. I walk with my pen. I don’t want to be going from one thing to the next here because, you know how things could be if you use your iPad. So I wrote down something with my pen. Now I am standing up here telling you this I saw how when I was leaving something said, “Pick up the pen.” I picked it up and put it in my pocket. When I do so, I have no shirt pocket for it. I say I put it in my pocket. So I have the pen there and the thought started to come to me of things that I bought already online. I do a little online shopping sometimes. You know you see something, I want something to read a little electronic book or something I have to download it, you know I could and different things. When I wanted an iPad and so on I looked and there I found it has one with a hundred and twenty-eight gigs. I said, “Hey, that is the one I want.” Because I want enough space for what I am doing. So to do

that it means to say I had to go on a website, I see the product, I see the price, I have to research the thing and see. They said, “It is coming. Available at such and such a time.” And I have to look and see I must have need for it. It is supposed to benefit me if I am going to have it. Otherwise I am just, you know, walking around with technology. And the thing is not the technology. It supposed to empower me in some way and help advance me into what I am doing.

Then I am not going to get it free so if I have to pay a price for it, it must be a good product. So when I researched it I saw the benefit for it. Now I am on my subject okay. Don't think I leave my subject. I am on my subject. I am under an Angel there. It's just to try to find a way to make these things real to you like I told you about the little boy just now and showed you the reality of these things. They are not complicated. And as your faith rise and that inner man gets a little more sensitive, you get fine-tuned, and the thinking comes in a certain channel, you are going to find out how easy these things, because you are having the experiences, but you need it to be identified. Sometimes you want to believe and say, “Ha!” Satan laughs at you and says, “You have angel talking to you? Who are you? A prophetess or something? Get next to yourself girl.” You don't have to be prophetess. You don't have to be business man. You don't have to be anything. You just have to be a child of God. All God's children have angels. Those who are not God's own have no angel. But the redeemed has angels. You see?

And the hour is coming when they will be very visible to you. You can't see Grace, right? Grace is gone. She has gone to the next world. Do you remember the funeral? Preached the funeral up in Lengua –preached the funeral. Well she is gathered with a group over there. Your dad, right? He is there too. They are all there. Where you think he and Grace are? What you think they are doing? They are looking at service too. They don't need anything to stream you know like register (log in) and anything. From there they could look back right in this service and stream normal. The body they have they could stream. And the two of them know they have service here, because they remember what was being preached when they were here and they know what is being

preached now, and they are seeing new people in the congregation. They are seeing new people in the congregation and they know when we go back we wouldn't end up in Australia. We are coming right by here. They know we are coming right back here among you all.

Now don't let the enemy distract you. Keep here. You came here for something. Keep here. Keep right here. Now watch. So they could look in here. Well the same way I am seeing this product on the internet. It is telling me this is in the States. It tells me I have to buy it on Amazon. Amazon is like a big system, just like they call it the Amazon River; it has plenty tributaries, a huge; well that is a whole conglomerate of all kinds of stores under a heading they call Amazon. So next thing when you start to get the information on your product. They say well this product is going to come from this place California or San Francisco or it will be coming from Connecticut or somewhere and it will ship to you in so many days on land: surface, and they want a skybox address and you put it there. Then you have to buy it by credit card. You have to have credit card information.

Now remember you are seeing the product virtual. Right? Catch the thought. You are seeing the product virtual, but you believe it is there. You are seeing the price and you have a piece of plastic. Now you know this piece of plastic... you might go by the doubles man and hand him that plastic. He wants normal cash because he has nothing there to process credit card. But once you go to a place that has credit card they take it right away because that is normal. It has certain shops and so you can go on and get that now. When you do that and you put in that information after you search the product. You desire it. You know it is going to benefit you. Then it has a process to go through to get it. You have a price to pay and everything.

Then finally the product lands on your door and your skybox people in Trinidad tells you okay they are delivering the package this morning to your door. They come you see the van pulls up. They blow. You go outside. You take your package and you receive your package. You paid for it. Then you start to use it and you say, "Wow." It takes you from here to here. It empowers you

in what you can do with it. You feel motivated when you receive it because you start to see the results it is bringing to you.

Well if we do that by a transaction and the Lord shows we have access by faith. When you are coming through water baptism, you are coming through God's transaction you know. To start to enjoy the blessings, to put you in Christ where all the blessings are, to access healing, to access deliverance, to access joy and peace, to access leadership to access different things, you could only really legitimately access this if you are in Christ. *By one spirit you were baptised into Christ.* But then there is a provided way to complete this. You have to go down in the correct formula of water baptism. You have to go down there knowing you are identifying with Christ, because once you are identified with Christ and Christ's spirit comes, you are going to start to be under Christ's responsibility. You have access to everything He promised and then your life would be empowered and any need you see in your life: whether it is a physical need, a material need, you are in a financial need, a spiritual need, you could ask for it and you are going to receive it, because this is what is promised, because now you are considered a legitimate member of His economy, of His body and you came in His provided way. If when you fill out that credit card information that information is wrong, it will tell you now. "You need to fill out this field. You need to fill out this and you need to fill out this. This transaction can't go through until these things are filled out." And then you do it. What are you doing? You are lining up. You are getting into harmony with the giver, with the one who is going to release that product, and you got to pay a price to get it.

Well, the price you are going to pay with the Lord is self-denial. You have to come now and reckon yourself dead and go down in the water and bury the old man and say, "I separate from the world and the things of the world, and I am going to walk with Christ." That kicks in immediately. Sometimes we buy... How we call these cards? You know card you want to buy something? Say it out loudly. It's like you buy it in the iTunes store, or the Apps store and you buy, gift card right? Okay? You buy the card on the Internet. Now they give you a number. Once you put that number in, boom, you see it comes up you have credited twenty dollars to

buy a twenty dollars card, immediately. So you are going through now. You want to shop. You want to buy something. It is there.

Well the same way from the time you come through God's provided way boom, you see that Spirit comes in and like you are online. I am online. I have access. Online... that is access. The person knows you came the provided way and the person knows now you are legitimate. You could ask in the name and you shall receive. Because why? You are bona fide. You come in the provided way.

Well to come in contact with this Theophany, your angel, you have to know I have a Theophany. I have a Theophany. I believe I have a Theophany, but you can't come in contact with it and he can't get to you because you are still under the old husband. You are still under the curse. And the thing is now when you come in God's provided way then the Angel of God starts to come like He came to Peter, He came to Paul, He came to Philip, and all God's children through the book of Acts. And when this starts to work in your life you get sensitive to it. When you start to pray for people and they are getting heal, you get sensitive this thing works. Your cheque is not bouncing.

Well today we live in a virtual world and in this virtual world all of this becomes more real, because you are doing transactions without physical money just with information and when you do this you are putting a credit card number that immediately debits your account you know. And when they debit your account immediately in the system it shows up here that that is paid for. It shows up here now delivery is in motion and you are going to have that thing and you are going to receive it, and when you receive it you are empowered by it.

Well Jesus Christ died and shed His blood to make a way for the Holy Ghost to come. *You shall have power after the Holy Ghost comes upon you!* But if you are looking for the Holy Ghost to operate and you aren't coming the provided way, you haven't completed the transaction, you haven't taken...the name is not correct because even there you have to have the correct name with these things. If you are putting the wrong name and that is not the name on that credit card, they say, "Wrong name. "Transaction can't go through. Well we understand that in today's world.

So this Angel of God that is here that wants to move in your life, the same way you aren't seeing the product, the product is in a next world from where you are living. You are living in Trinidad. To bring that product to you, you are going through a communication. You are going through a transaction and then that product is leaving there and coming straight to your house and shows up on your door. And you say, "I have nothing to bring this here," but you went a provided way. Angel isn't coming to you if he isn't sent to you, you know. Angel isn't coming to you if you are not a candidate to be an associate with the unseen world. You know? Now when you know this and you start to read in the word of God Angel guides people, Angel leads them, Angel teaches them the Word, Angel protects them, Angel empowers them, and you know you have one of that and you aren't using it? Now think! Think!

The point I am showing you, you could go online and buy something and bring it, that would empower you. How you got to know about iPad? You get on a site and you realise iPad is real. Well, when you open the Bible how you know about angel? You find it in the Bible! And you find out how they work with people and how they work with the redeemed. And then you see it's a price required, it's a consecration needed, it's certain things to align with for it to start to happen. And then you start to align yourself with it. Next thing you are walking in a realm where you are receiving revelation. You are receiving leadership. You see some other people struggling. They can't get a revelation like their mind is blank. They can't get a thought from God like you, and you have access. Your access is flowing. When you do so; how you do? You say, "It has Internet here? And I am not seeing any signal on my iPad?" I go in settings. It says, "Not connected." I want to be connected. So the password, password! Boom! I see the signal comes up. I say, "Praise God. I am connected."

Now...that now... what that does? That gives me power. I could send vital information to people in different parts of the world immediately. I could receive communication of things that I need to know to make decisions right now immediately. Are you understanding me? Some of you saw when I spoke to the young people in Brazil on "*Plugged in and Booted up*". You see I,

myself, learnt a lot in the last maybe ten years or so just from the New Age that came on the world. I understand many things in a refined way because Satan has broken into those things and brought it out and is using it for the wrong purpose but what he is working by? Laws. He discovers how God operates and communicates with His people.

You have something in the Next World. Think of if that Angel didn't come you know what would have happened? They would have been like two old people. Their life is gone. They aren't looking for any children. That is the end of it. Say, "Elisabeth girl I wish I could have been a father. I am not blaming you because you are barren." And she says, "Oh Zachariah, I know how you feel. To know that you desire a son. When we were married we had such a great plan. We got the booties. We got everything. We were reading about Abraham how Abraham was confessing he was going to have the son, and all these years passed and we never had anything." From the time that Angel came there and faith started to rise. First he had unbelief, but in that unbelief where he got struck dumb his faith went up you know. The speech is taken away, but the thing is that dumbness didn't stop her from getting conceived right away. Do you understand? And the mere fact he gets dumb, he realised here was the Word. He should have believed the Word and he couldn't come up to accept the Word because his life got so natural he isn't living expecting any supernatural anything. He is a priest in the temple. He is just going along doing natural duty, wave the incense, go home, come back next day, wave the incense, you know, the church routine, temple routine. No expectation, no revelation.

That is what we do. Most of us. We come around the church. We get the church routine: Service is tonight, service today; that is a brother, that is a sister, that is... You know the joy in the Assembly when you see it has a couple people who caught something and you see the smile on their faces, and you see their faith, and when you hear them talk and their tone, and they get in a channel, and you could feel their vibration, and you know that is something. It's a charge. It's a reality. It brings it down there. And you who are cold and slump down there all of a sudden you start to get like somebody –like you get electrocuted with some volts. You

start to shake under the power of God. “Whooh!” Next thing you are clapping your hands. You want to dance. You know? You get charged. And you realise where that comes from! No. It has some people they are plugged in and booted up and you are walking around with no signal, no signal? You know? That is the thing.

So now God is raising us up into a place here and this is where I believe, as I say, “These things you read the word.” I see the product. I see the benefit it is designed to give to me. I see the requirement. I see the transaction and then I start to look for delivery. Because when I go through the required transaction and when delivery comes, I get empowered and I see I start to walk in a next realm. Because why? The thing is delivered to me. When that Holy Ghost comes and is delivered, the Bible says, “*And the Spirit while Peter yet spake, the Holy Ghost fell on them that heard it!*” Them that heard it... It had many people there, but it fell on them that heard it. And that doesn’t mean with the natural ear, those that were understanding what he was saying, because they had that heart and mind (were) going into a channel. That’s why He said, “*He that heareth my words and believeth on Him that sent me will not come into condemnation, but pass from death unto life.*” That is not hearing with ear. That is he that understandeth.

So like He says, “*Except a man be born of water he can’t see the kingdom of God.*” That doesn’t mean see. That means understand. It is coming into you by revelation. You are seeing it. You are breaking into it. You are conceiving it. You are conceptualising it! And that’s why I am giving you these illustrations so you could see when that Angel appeared there immediately (Poof!). That tells him it’s a next world right here. Where did He come from? How He travelled to get here? Where He passed? He didn’t come through there. This was an encounter with the supernatural. And with that coming of that supernatural what was going to happen? What he struggled for in the human energy of the flesh trying to have a baby, take this medicine, do this exercise, eat this food, do this here, take a walk, try to go by the sea, try to go up in the mountain, try to relax, nothing can produce any child. With this coming, supernatural kicks in. It’s not about struggling. It’s not even about trying. You know we used to sing a song:

It's not in trying, but in trusting.

It's not in running, but in resting. Yes. That's what it is.

It's not by might or by power, but by My Spirit. It's not him that willeth or him that runneth, but it's God who showeth mercy.

You are born for the supernatural. You all are born for the supernatural. If you are looking to go in the rapture and you are coming to church trying to serve God, and you are looking to go in the rapture, and you don't believe in the supernatural, you waste your whole life, because how you are going to get in the rapture without the supernatural. You understand what I am saying? But you know what makes you believe on all these things? Something supernatural inside of you, because to believe that is not even normal.

Somebody tells you you are going to Australia next week. You say, "I don't have any money. I don't have any ticket. How am I going to get there? I don't have visa. How am I going to get..." You know? And if you go by the Australian place to get a visa and they turn you down. They say, "No. We feel you might stay in the country." You say, "Am..." You get discouraged and your faith can't rise. Yet if God says you are going to Australia you should. "Yeah, I am going." They turned down the visa, but I am going to Australia." That's where the faith is.

Because the Angel took Phillip and put him in a next place. So if you can't have faith to go from one place to the next here in this world, you want to leave this world to go a Next World. No. That's why there is something in a believer that is in my... When I was your age, something inside of me was craving. I got so hungry. I can't. I don't have the words to explain how hungry I got.

Faith's daddy, Brother Bishop, Brother Sammy, Brother Joe, all of us used to be on the corner. Every time I tell them we are going when the day came their father and mother aren't letting them go anywhere. Their aunt... and they aren't letting them go anywhere. Finally say, "You see me? I am going. It's me God talking to not them." But I like a leader so they are following me. So I stepped out to go. I say, "I talk too much. Every time I talk this it can't happen." I say, "I am keeping this to myself. I am going." Because I believe I want this. I am hungry for this that no father, no mother,

nobody could stop me! I must have this! I come like a man obsessed. That is what drove me there.

Now if I at that age could have that. That is like an influence coming from a Next World. As I said it's a man come there and when that man came I looked at my cousin and said, "God came to me, you know. I have to get baptised." He said, "Well get somebody anointed to baptise you." I say, "Anointed? Baptise me?" I said, "What is anointed?" I come from the street. It doesn't have anointed. People don't use that word out there. The group I came from in the street nobody used anointed. What anointed means?" He said, "Well somebody God is using." I said, "I don't be around church people. How would I know who God is using?" See?

So then, he said, "We are having a little meeting." So we went down a little by the meeting. I stood up there. I watched the meeting. I said, "God, this is the kind of thing again. But I know I had to get baptised and I am not baptising to join anything. Nobody influenced me to get baptised. I said I needed to get baptised. I talk to a brother. They carried me and they baptised me that night. Very next day God spoke to me in such a way. After about a week or ten days I said, "This is what I came here for the five months I spent here. I was going to Tibet." I said, "God talked to me. God showed me I need to go back home."

I came back home the same evening and Brother Sammy and Faith's dad; Brother Neville, took them with me. Within the week seventeen people got baptised. The church had about six people in it. They gather for maybe a year and half or more. That was something. Within two months after –about three months I sat down there. I said, "That man preaching there, that spirit and this Spirit in this book are two different spirits." Now I can't call that discernment of spirit because I don't use those words yet. I don't know those words. But whatever is in me is seeing this Spirit in this book. You hear I talked about reading. You hear how I explained reading just now? You get into the Word and that Spirit moved there. I started to contact this man they called Brother Branham through these words. That I was not sitting and reading with a historical man in my mind –this man and the words of this man are alive. You know when Jesus said, "*My words are Spirit*

and life.” You could read Paul’s words today and figure out well that is the word of a dead man somewhere. That word is more alive than most people who live on planet earth. That word is more alive.

I preached yesterday about the bones, the DNA in the bones. That life in that word that’s the Spirit quickened word, the energised word. Where that falls is a germertized seed. It must come up. All that wants is a heart to believe it. That word is so alive. That’s why these things I am saying to you it’s true as true. I don’t speak with pretence. I don’t speak with exaggeration. I try to speak exact. I try to speak sincere. I try to speak clear. I try to let you know you are very close. You are bumping into things. And if you could only detect the true Spirit, your senses will get aware. You will start to overcome very easy the false influences. The reason you find you are struggling with a lot of false things and false feelings and thing is because that true Spirit, you aren’t really sensitive to that yet. So it is with you today. Five minutes after it is gone from you. You can’t retain it. You can’t keep it. Once that Spirit is in you and close to you, there is a repellent. When the evil tries to come, there is like a force around you pushing that off because your mind and your thoughts would be taken up into this, which is life to you because the true Spirit brings a joy, a peace, a confidence. It gives you an assurance. You see? It is called quickening power. It has you quickened. It has you alert. You see a man with the Holy Ghost slump down always sleeping on himself? You know he is here. He does this and ends up...No.

You listen to me when I stand up to speak I go back from when the church started. See? Like how the church started when God met me in Santa Cruz and I will walk you down right through all Fran Street, Cocoyea, Barataria, Abel Country and don’t miss a beat and don’t forget an experience, because this is something. And the more...Here’s one of the keys I am giving you before we close. Keep it in your heart; try not to lose.

You are a book. You ever were reading a book and while you were reading the book your mind drifted, and then you reach five pages and then you realised you were just reading but you lost the sense of what you are reading? Right? We all go through that. I too. And the thing with me I don’t keep on reading. I stop and go

back because I am conscious this time (I am putting all into reading this) I want to draw the substance from it, that when I put down the book, I have it.

Now that is how people live their lives and that is why there is not a quickening, there is not a power in their life. When you lose track of your life, when you were small you tried to remember the furthest thing you could remember maybe three years; maybe some of you are more heightened than us. You could remember two years. You could remember maybe three years. If you find the last time you remember you were seven or eight, you aren't doing too good. That isn't too good. You have to go back a little further than that because that is beginning. That is the opening of your book and your story is coming. So you will never know exactly where you are and what you are doing. You might be captivated in your mind by present things, influences around you, and you want to do this today and you want to do that tomorrow, but if really and truly you –If you have foreign things in your life and you are facing something at present, you will either be able to see I was coming up to this because I was understanding what I was going through and when I reach here I should know how to handle this. And if I don't know how to handle this, it means I missed things before; because this is a key. God does not bring you into things you cannot face. Everything that you are coming into, you prepared for it before you meet it. The reason you don't know what to do is because you are not understanding what you are coming up through. Your life gets into routine. I eat. I sleep. I bathe. I go to school. I don't like school. I am doing good there. You know. And you are coming along.

Then you come and you have your other different things you are getting involved in and there is no order. There is no continuity. There is no direction. You can't link up the daily events in your life and see a pattern. Once you can't see a pattern you are like the dog in the yard or the cat in the yard or the fowl in the yard; throw corn for it to eat, it eats. The dog runs around, barks, chases a few cars, and comes back in the yard. You think when he meets twenty years he says, I chased four thousand two hundred and thirty-four cars. Out of those two hundred were Mercedes Benz, you know. Four hundred were, you know... You think a dog does that? He

doesn't keep track of anything. That's animal life. It has no soul there. It has no intelligence. It has no purpose. Life has purpose! So once you lose track of your experience, you lose sight of your purpose. You are not understanding; what your life is about? And once you don't know what your life is about you are vulnerable to be influenced by any kind of influence that looks attractive to you.

See these things you don't have to be a rocket scientist to figure that out you know. When something comes to you, know this is of the devil because God already is showing me this and look what Satan wants to bring to me to, divert me, because this doesn't fit into where God is taking you. When you don't have that now, this comes in. Well you let it come into your life. You let that come into your life. You have to give time to things. Each time you start to give time to something like you are feeding something. You are exercising it. It starts to grow. It starts to get big. You can't control it anymore. It is controlling you now.

Now these places in your life make you miss things God has for you, because Satan can look at you and know you have something special. Satan knows that. Satan knows his. He sees that spirit. He sees that make up. He sees that quality in you. He knows... knows this is stone. This is diamond. You see it's a piece a glass and a next man says man, "Whohooo, look a piece of diamond!" A man says, "That is glass boy." You see you can't tell the difference. Then a man sees a piece of diamond he says, "That's a stone." He says, "A stone!" He says, "Watch this. He cuts that diamond; you see they ... that diamond."

Well if he could know that now it's so Satan knows people; so he knows you. And when he knows you now, he starts now very early to either get you under his influence. If you are gifted, he says, "Ah! Ha! they are gifted. If I get a hold of them, I will use these gifts to empower my kingdom and influence people, because they have power to attract." Then the next thing what he does he knows if God gets a hold of them before me, a lot of people in my kingdom are in trouble. So he tries to take your life, tries to afflict you with sickness, tries to get your life messed up into wrong relationships and different things. Now he is thinking on this level. Here you are going through; you are frustrated because you are not watching your life closely. Life is about purpose. And if you are

reading the book on your life and you are just going along and you can't remember where you started, what you came through, it means you have not made any close self-observation about yourself. If there is no self-observation, there cannot be self-judgment; there can't be self-inventory. It takes self-observation to make self-inventory and make self-judgment, and then lay aside the things that you start to see is unnecessary, unprofitable, distracting in your life and make you vulnerable to be manipulated by the enemy. You get rid of those things.

And this is a place; that is why sometimes in a Christian life you are coming outside, "Well God isn't blessing me. I don't get." No, no. It's all around you, but you are not getting in the atmosphere. There is an atmosphere. That atmosphere is close to many of you tonight. You sit down here and these things I know it got your attention. I see the look in your eyes there. It got your attention because this is something for you now. You are children of God. When that Angel came to Zachariah and Elizabeth there, He said, "I am Gabriel. I am come." He said, "You going to have a son name John." I am closing up with this. Let the musician come for me. I am finished. I am closing up. He said, "You are going to have a son. He is going to go forth in the spirit and power of Elias. He will turn many hearts to the Lord." Say, What? We are going to have a child? All of this, a forerunner for God?" They were about to bring forth the greatest man to be born of a woman outside of the Lord Jesus Christ. That visitation... Sometimes you wait long for something. They waited like; they waited long. They got frustrated. They give up all hope about it and it was coming sure as sure can be, because God doesn't forget prayers.

You know what the first thing the angel says, "*Thy prayer is heard. Thy prayer is heard.*" He knows the exact prayer. He said, "*Thy prayer is heard. You are going to have this.*" Say, "I gave up on that!" You know why? He is watching his natural ability in his body and said, "I can't do this. Oh we tried that so many times. Nothing was wrong with their bodies because they went and have it. God has time and season. His excuse he started to look at... old age. He started to look at old age.

Now tomorrow; the next step I want to show you that same angel came to a little girl too. She is no priest's daughter. She is

just a normal little girl. That same angel... And what the angel told her was even more paradoxical than what the angel told this man, and that girl said, *“How can this thing be? How can this thing be?”* Said, *“The Holy Ghost will overshadow you and that thing that shall be formed in you shall be called the Son of God.”* She said, *“Be it unto me according to thy word.”*

With the man Sarah, old woman had child. Hannah old woman had child. He had plenty Bible examples where he could see that that would have happened. God bless the saints in Ecuador. See. But you know right there what happened? What the angel was telling her never happened to any human being. What kind of calibre was she? She maybe doesn't even know how to light that candlestick. She maybe doesn't know how to walk there, offer that incense, but the faith in her heart is of a quality beyond what was in that priest's heart. She didn't have all that years of experience being around the temple of God and all these different things. But with the position she was called unto that she didn't even know. And hear this too. When the angel came to her that angel too quoted a scripture too for her. She didn't even know what she was born for until that angel came.

You feel it would benefit you to know what your purpose is in life? You feel it would benefit you to know what you were born for? Wouldn't that make you live your life more conscious? And especially when you see the great lofty place as part of the bride of Jesus Christ what you are called unto, what that can do for you? Who in that next world knows them? It had to be somebody who designed them and put them there; had to be somebody, because The Angel told them things that were already written in the word. Both times! Their life is connected to prophecy in the word. They were candidates for association with the supernatural on the unseen world. One is a priest from the tribe of Levi, from the house of Aaron, next one from the house of David. Next one from the house of David; in a time like this, economic depression in the land, Roman government was over everything.

You know now it's like everybody is celebrating Christmas time. We come to what it is supposed to be. You see how far those things are from this? Dave, you believe these things? You were born to believe these things. Kyle? You all were born for this. You

Sarah, you? You were born for these things. Rebekah, you? This influence is upon you all. *“Unto this end were you all born. For this cause you all came into the world”*.

Next time I want to talk to you a little about the atmosphere too. It takes the atmosphere, supernatural atmosphere. What kind of atmosphere we live in, what we create around ourselves is very, very important. You are bumping into it, but you need the password to really access it. You are locked out. One key... It’s all around here. Internet is all around here. No password you can’t get in. That Holy Spirit you feel it. You get happy sometimes. When the church service is finished, it is finished. We don’t want it so. When you sense it; when you feel it; when you get blessed by it. That is God telling you it is there. It is around you. It comes on you tonight. It makes you feel a certain way. God is telling you it is real. It exists. But God is saying now. You ever see preview on things, Sample? Sometimes you want to buy a song and you get to sample it first. You sample, listen it. Okay it sounds good. I like it. Yea; I want it.

Well the same way that is like a sample. You taste it. It is nice, but is not yours yet; but God wants to make it yours, because it is really meant for you, but God wants to tell you and encourage you and say, “I have something for you, the unspeakable gifts.” This is a time of the year everybody is giving people gifts. You know a kind of a giving time. God wants to give you a gift beyond all gifts. In the Bible it is called the unspeakable gift. That gift only God alone could give it. No man, no woman, no institution, nobody could give that gift. It’s He Himself giving of Himself to you; giving you a part of Himself.

*The Light has come to show where we are going; just relax,
worship Him a little bit.*

In bridal step; and think about these things and yield.

... along the way we are treading.

The revealed Word has shown us our placing,

A super-race we are in the perfect rest of God.

Oh, that Angel with the swept-back wings,

He’s the One that means the most.

*He took us in, a secret place, the Inner Veil, on the inside of the inside
To reveal Himself more privately.
Here we are tonight in perfect step,
In the promises of God.
Oh that Angel with the swept back wings,
He's the One that means the most.*

Let's lift our hands and sing, "All honour and glory."

*All honour and glory and praise to His Name,
For He was found worthy to take the Book,
And show us our names.
Flesh of His flesh and bone of His bone,
In harmony we stand,
In God's provided place,
In the Seventh Seal of God.*

Why don't the daughters of God sing, "Oh that angel."

Oh, that Angel with the swept-back wings; that Angel came to Mary a daughter of God. Angel came to Salome and them at the tomb. That Angel of God came on that pianist. She rose and began to worship God and that Angel continued to play the piano in Fort Wayne Indiana.

*Here we are tonight in perfect step,
In the promises of God.
Oh that Angel with the swept back wings,
He's the One that means the most.*

As the musicians play it softly just think, meditate, and reflect on the Lord. Where did Gabriel come from? He didn't come from Galilee. The temple was in Jerusalem. He didn't come from Jerusalem. He didn't come from Nazareth. He didn't come from Egypt. He came from another world, another dimension. Out of all the millions and millions of people on the earth, how did He this old man and that old woman, barren woman for all those years had to do with the bringing forth of the forerunner, because that's what

He talked to them about? That means that in that next world these people on this earth and their purpose in life are ordained from that world; that for them to know what they are called for and what they are doing that knowledge comes from the one who foreordained that in that world.

Was that the same way the prophet found out who he was? That his name, his life, was in the Bible all the time? Though he had gifts, though he saw visions, though he heard a voice audible, it really didn't give him the faith he supposed to have. But when he came in contact; in the way that that Angel came and began to speak to him from the word; everything changed. He couldn't be the same person again. It does that to you. It does that to you. It's happening, but an unconscious way to you that's why you don't see the effect of it. But if you can begin to yield, if you begin to know what you are yielding to, if you can begin to define what those feelings, what those experiences are, where they come from, you will be better able to relate on a more conscious level.

He knew where Mary was. He knew where she was in the Bible and He knew where she was geographically. He came right to her house. And then He showed her that in the Bible. He came right to where Zacharias was burning that incense and then He showed him in the Bible. The things that we want to know are not from this world. The answers lie in the other world. But prayer gives us access. Seeking these things we can seek it out just like that iPad on Amazon I was telling you about when it was delivered at the door it began to empower me. I saw it. I researched it. I knew there is an Amazon. It's a real place. I understood the transaction, how it had to be carried out. I had to meet the requirements and the terms and then it was no longer a picture of something on a website. It was no longer just some information about a product. I had the product real in my hands.

You are reading about the angel. You are reading about they followed children of God in the Bible and you are reading all these things. But this can be delivered to you in reality into your soul. The Holy Spirit, the Angel of God who desires to come into your life in a great way, in a deeper way... On a message Resurrection Of Lazarus he said, *"God always sends His warnings just before the coming of Jesus. He sent an angel down out of heaven by the*

name of Gabriel. Now minor angels come. My; yes. You see angels. Everyone has a guardian angel according to the scripture. Jesus said, "Their angels always behold my Father's face which is in heaven." So God always sent angelic beings to warn the world. I believe there is angelic beings in the earth today are warning the world of judgment to come. I could go up a little bit on your flying saucer here just for a few minutes, but I won't take that much time he says. But anyhow did you notice before the destruction of Sodom and Gomorrah, which is a perfect type of today, God sent angels down there to call Lot out? Is that true? Look just before the coming of the righteous one, the great Son of God, God sent an angel down and that angel came to a home that was a respected home.

If you want angels to visit your home be like Zacharias' home. If you want angels to visit your home be like Zacharias' home. Him and Elisabeth was living upright before the Lord keeping all the statues, all the commandments of the Lord, living in perfect obedience to the word in the light that they had; and Zacharias his office was to wave incense, burning incense at the altar while the people were praying. And while he was waving the incense standing on the right hand side of the altar stood Gabriel, the great archangel... now angel can come. But when you hear Gabriel coming, be ready; something major is on the road. Gabriel announced the first coming of Jesus and Gabriel will announce the second coming of Jesus. That's right. Think of it friends.

At the opening of the New Testament, see? At the first coming, we read it here today, the angel of the Lord, Gabriel, appeared before the birth of John, the forerunner, Elijah, and appeared before the birth of Jesus, the Son of Man. The New Testament opens and closes with angels and in these lasts days before the ministry of Elijah and the Son of Man, the Angel of God appeared again. Seven angels come down also and Seventh Seal book also being opened to reveal our names. *He took the book and showed us our names. And here we are in perfect step being led by this very angel of God in the promises of God.* What a place. What a time.

With your heads bow I want to call one of the ministers to pray, Brother Mervyn if he would come. Believe children, believe. It's a time for you. This is nice time that God is telling you He wants to

draw close. He wants to get you sensitised. He wants to hold your hearts and mind into a place where He can reveal that word and cause your eyes to be so anointed with eye salve and become opened that you can see we are in a day like Sodom. The angels have come down. We are in a time like the coming of the Lord just like in the first coming when the angels began to appear. We are in a time when the elect of God in whom Christ is to be reproduced. The angel of God has come revealing the names and these things. Young and old God is appearing to them. When God puts examples and these things in the Bible and we see the time that we are living in, it's fitting in the time of the exodus angel came down; exodus people was following that Pillar of Fire, the Angel of God; God taking care of them in a supernatural way, their healing; providing for them, leading them to the promises. You have the heart to receive it. Receive it. Believe it. Ask the Lord. Dear Jesus, make it real. Write it in my heart. Teach me more on these things. I'm interested Lord. I want to know. Just in your heart in your own way. Be sensitive tonight. He is close; and as God's servant would pray, let us all have our hearts centred on the Lord Jesus. Amen.

Brother Mervyn Weston prays.

Glory be to God. Thank You, Jesus. Are you girls ready? Come on. Told me they were going to have something tonight. Always blessed when they are around. Praise the Lord. Praise His wonderful name. Amen. Glory be to God. *[Young people give God a hand of praise.]* We appreciate them. Amen.

And let me say this. Some of you others you have something on your heart to sing just feel at home, just feel relaxed because we certainly want you to share what God has given you. Hallelujah! And by the way don't take off too fast. I think we have some natural around right? We have some little something that we can munch and share afterwards. You know just feel good. Tomorrow let's try to be out a little more on time; Right? No, if 5 o'clock is too early, tell me. We could move it to 6 o'clock. I see you came in for 6, but you know we want to keep it like ... Praise the Lord.

The James' sisters sing, "*What will you present?*"

*I want to present the life of Christ,
It's my aim today,*

*For in His image I want to stand
So blameless on that day;
And though this world may criticise,
It will never understand,
That I can't rest until I be
A perfect man.*

CHORUS

*What are you going to present to the Lord
At the end of your journey?
He's not going to be touched by anything
Save His testimony.
What are you going to present to the Lord?
I hope it makes you sigh and cry,
Don't be found in that position
Where you would be wondering why.*

*Though the world may offer its pleasure and peace,
And its luxurious life of ease,
But it simply cannot continue on
For man's just like a breeze;
A moment here and a moment gone,
Like a flower he fades away,
But I just want to stay right on
To that perfect day.*

*Take rest my soul, in no other arms
Save Jesus own today
For He has opened my eyes to see
That judgement is on its way;
And though ten thousand fall at my side
I will never be tossed aside;
For in the shadow of that mighty rock is where I'll abide.*

*Lord take Thy Word, Thy precious Word,
And anoint it to my soul;
Perfect what is lacking in my faith*

And make thy servant whole.

*For I just want to hear You say,
“Receive thy crown my beloved son
You have overcome, well done!”*

[Young people give God a hand of praise.] Hallelujah! Hallelujah! Amen. Hallelujah. I am always blessed when I hear them sing. I always look forward to hear them sing when I see them. I really appreciate even the selection tonight that God put upon their heart to sing by God’s grace. That just shows, you know, there is something in the hearts of God’s children. They know how to get to the place where God can just give to them. Sometimes it may look simple. You have a song book with over a thousand songs, plus how many you know personally. The spirit could just drop the right one. It comes ordinary like you just turn the light on. Press the switch. It goes on. You know you turn the channel and you expect to see what you are looking for on that channel, and it becomes so normal. But you know it works by a law. You receive something. It is transmitted to you. You are just born to live and walk in it with that place inside.

I think we can have one more. Don’t you think? You have a song? You girls? Yeah? Come on. Praise the Lord. Hallelujah! Praise the Lord, amen.

God bless you all.

Sisters sing, “Align me with my Theophany.”

Align me with my theophany x 3

I’m rapturing away, from faith unto faith

Build the pyramid in my earth

[From the terrestrial to the celestial

I’m going home I’m going home] x 2

CHORUS

I want to fly with eagles’ wings in perfection

I want to soar where eagles dare in perfect love

I unite with the spoken word of God in my heart

*And I grow from virtue unto virtue
I'm being perfected*

*Amnesia is leaving me, by the preaching of the word
Divine pictures of me, Lord I've come to know
[From the terrestrial to the celestial
I'm going home I'm going home] x 2*

*My theophany, beholds the fathers face
Through my earthly journey, to my eternal destination
[From the terrestrial to the celestial
I'm going home, I'm going home]x 2*

BRIDGE

*[Take eagles wings and fly] x 2
Take eagle wings and fly into the supernatural things*

Amen. Glory. Hallelujah. That's what it is amen. We want strong signal. We want to be aligned by the grace of God. We want clear reception. Hallelujah! Glory be to God in the highest. I want somebody to tell me the order. If we have a little natural, we must have a little order how we are going to partake of this. What is the order? Okay. So we all can't go outside at the same time so we are going to have a little more singing. Right? Do we have some more spon...? Tonight looks like spontaneous night. We have more spontaneous people here? Faith, what about you? You have nothing or you have something? Come on. She got something. I give you a little space to get it together. Praise the Lord.

So you could. The ushers can handle that from the back and some rows there. Ricardo, you can come and supervise this little session. You don't want to be too long in the sense, but just keep it nice. This is you all night. Just go ahead. Don't call anybody else. Go ahead.

Gross darkness stands intimidating
It comes to hide away - (then tries) brush off - (even) denying
the process of creation
But who can stand in the way - of the great SON
When He begins to shine - on a new dawn
The very spoken word by the Mighty Angel
Will put on flesh and becomes material
Here I am standing - Against the Odds
Here I am the word made flesh - Against the Odds
Here I am the Masterpiece- Against the Odds
Can't you see God in flesh again - Against the odds
Here I am a Living epistle -Against the odds
To prove that God's word can never fail
To prove that God's word will come to pass*

*Who could ever believe that Abraham this old man - Would see
