

Third Exodus Assembly

Joseph's Hidden Power

Pastor Vinworth A. Dayal
24th October 2004

Joseph's Hidden Power

24th October 2004

Have the pre-eminence that you desire in my life (2x)

Work with my hands

Speak through my lips and

Walk with my feet

Have the pre-eminence that you desire in my life

How many truly desire that today? We sing that as a prayer expressing the deep desire in our hearts, we see the need for it and we know that's his desire also. That's what he's working to achieve, that's the place he had in the very beginning when man made that choice and put him out of his life. When man fell to his ruin but God rich in mercy desire to make a way that he would come back and he would live in man again.

He would walk in our feet, work with our hands, speak through our lips, think with our minds, and believe with our hearts that man could be a reflection of him. That he and man could be in union again in this great hour at evening time, God is restoring that today. I'm so glad for that, Amen.

We have a message that has opened up the way for us to come back to this blessed fellowship. Jesus prayed Father that they maybe one as I and you are one. That prayer could never fail friends, that was God himself praying according to his own plan, with all power to achieve and bring to past what he had purpose. Blessed be his wonderful name. We are thankful to be in his presence today. We want to greet you in the lovely name of our Lord Jesus Christ. We have a little dedication here; we would like to take time to have this dedication.

Then were they brought onto him little children that he should put his hand and prayer and the disciples rebuke them but Jesus said suffer little children and forbid them not to come unto me for is such is the kingdom of heaven and he laid his hands on them and departed thence

How thankful, that even the ones that we don't see, the things that may seem insignificant and unimportant, yet we see written in the scriptures the very expression of God himself. When you see

upon the face of the earth, something the disciples thought maybe was not to important, something that can be brushed aside and put for another time, maybe they thought the people shouldn't be given this consideration, the Lord had a busy schedule but sometimes even in those little things.... Just like him when he was being born on the earth had no room for him in the inn. He was born in a stable, maybe the innkeeper couldn't see who that man and woman was and what that woman was carrying inside of her, so maybe he just brushed them aside.

When Mary was taken into the temple maybe the rest of people knowing of her reputation, the ill fame that was attached to her name being pregnant before the marriage took place, not realizing it was the Holy Spirit, had they kept their distance from her not realizing what she was carrying but Simeon knew, Anna knew led by the Holy Spirit they brought them to it and I believe little Hannah that day even when she held that little child in her hand, to many it was another little woman, it would take them some years to see the value of that little child she was carrying.

When Amram and Jochebed refused to put that baby in the Nile, it was some years after, Israel was going to realize the great faith that that woman had. Some may think that she was being foolish and risking her own life and being fanatic. Why? She didn't do like all the other women but sometimes we don't see those things but God knows every life that comes in the earth, their time and season, and their purpose. Even when Jephthah was born like an illegitimate child they didn't realize that one day all of Israel would have to gather under him, standing there with an ill-famed and all them elders of the tribe who had scorned him, had prejudice in their heart trying to discriminate against him would have to come under his divine leadership.

So it is many times but God knows, so he says, "Suffer little ones to come unto me." And he gave time because he knew who each one was and for the purpose he had sent them into the earth.

Lets just bow our hearts. We have a precious little sister here and her husband, they have a precious little boy they want to dedicate. Coming into the knowledge of the faith they desire to put everything in place and line up everything that the Lord could be pleased. Not just to say they believe, but to do the things that

need to be done, as they recognize the things that are undone in their lives and in their homes.

Gracious Father we stand in your presence today, we thank you Lord for this young couple that you have drawn by your Holy Spirit knowing that they have been ministered to and they have shown such a respect and a willingness to walk in the light that have shone in their path. Lord as they would see and examine their own lives and circumstance in the light that have flashed across their path, they see things that need to be put into place having had this little boy and Lord knowing that you had made provision for them who have not yet come to the age of accountability that they can be brought and offered up in dedication for a life of service because this is acceptable in your sight.

This is the very example that you have left for us and this is the provision, the hope that you have given to parents, dear God, who would come in and recognized not only for them have you made provision but even for their offspring, Father we thank you for that respect, Father we know that you would respect them that respect you, those that would recognize your word and judge themselves by the word rather than sit under the judgment of your word and come in submission when they would see what is required of them. I prayer that you would bless this young man and young woman Father, may the grace of our Lord Jesus Christ shine so clearly into their hearts that it would unveil to them their life's purpose, who they are and what you have made them that they can come into this great discovery that they can recognize your will and purpose.

And in coming here and sitting in your presence under the influence of your word, the very spirit of the living God who foreknew them and has predestinated them and has called them will continue to unfold and make clear to them how they should go Father. May it bring such a faith into their hearts that they will not be uncertain, the hour is late such a dark time how they need to have a stabilizer, something dear God that could anchor their soul and bring an end of strife in their mind, even in the face of opposition and ridicule even the reproach that goes with your word that they would not stagger through unbelief and these things but you would give them a rock confession, clear revelation, an absolute that they can tie their soul to because they would need this

as a young couple with a young son that they would want to raise in the fear and admonition of God.

Bless this young man Father, that he would know what it is to be a Father, a husband, to be the head of a home, to provide for his family, to have the wisdom of God in his life, to lead them, to submit to you for Christ is the head of every man and the man is the head of the woman and this is your divine order and this is what you laid out for the family. May dear God that you bring that so clear and so real to his heart, I prayer and his dear wife Father, may you reveal to her how to take her place and to fulfill that responsibility and together as a family circle that you would supply their every need, that they would be lacking in nothing.

Now the little boy Josiah Tyler that they have brought to you today to be offered up for a life of service in the name of Jesus Christ, by faith, we place him in your presence dedicating him unto you for a life of service and by faith we place him beneath your precious blood. The place of safety, safe and secure under your divine watchful care and attention, where he is safe and secure from all harm and all evil and we pray that you would give him a sensitive heart to the things of the spirit of the living God that he would grow in deep affection to the name of our Lord Jesus Christ and to come under the influence of this Holy Spirit and you would open his little heart to divine instruction of your truth and you would make clear to his parents what you have deposited in his life, so that they would know how to raise him to fulfill his purpose.

Grant it Father, bless them altogether and receive little Josiah Tyler as we dedicate him today for a life of service in the almighty and precious name of Lord Jesus Christ our Lord Amen. God bless you.

Praise his wonderful name. God bless you, you may have your seats for a moment or two. I would like to acknowledge our precious brother Ken Ardiel who is here with us, he came to do some work in Grenada that they are doing, has come in a little early for this time to be with us and to be in service, to meet you and to greet you to spend that last couple of days together and I've known brother Ken for quite sometime. It has been 21yrs he's the husband one of Brother Byskal's daughters, we even sing some of

her songs that she has written. We are certainly happy to have him in our midst. Amen.

(Brother Ken comes and greets the congregation and gave his testimony.)

My, you can just worship God and go home you know if a young boy as a believer and an unbelieving dad can stand and witness and reiterate the words of a vindicated prophet and raised a dead man, what should an anointed spirit filled man, Holy Ghost preacher do to a Holy Ghost church reiterating the words of the same prophet. How many know rapturing faith is laying in these messages. Hallelujah! Glory be to God! And the grace of God can cause some of that rapturing faith, that perfect faith that's laying in that message that quicken that man and bring him back to life is God's prejudice. Does God discriminate? Is he the same? Would he respond the same way? That boy in his heart was reading that word and think of the inside of that friend and I have a friend right here who know the power in that word that is not in my pocket but is in my heart amen.

That friend saw the word in the man's pocket and pulled it out because in that word was laying resurrection power amen. Hallelujah! And all it needed is someone to speak it over the man. Hallelujah! And death had to flee. Is that right? Glory be to God! Whether it is in human form, spirit form, word form, whatever form still the resurrection and the life this morning. Hallelujah! And how much more in he that believeth in me shall never die, he who was dead yet shall he live. Blessed be his wonderful name. God bless you.

Came back a little extra crispy been burning up in the sun out there, if you don't make me out you could make out my voice but we are very happy to be here with you. To think my, one service in one service out I was coming up and I'm saying, "I haven't been around the church for a long time." So I'm trusting this morning that I feel good again. I see the smiling faces, such a nice atmosphere we are certainly enjoying ourselves, and I know God have been blessing you.

I would like to invite your attention to the word as we stand. I would like to read out of the word.... How many come in the house of the Lord with a desire to walk a little closer, come for something more, you just don't want to come to service. You

come for something more, you come and say Lord speak to me. Lord I need to hear from you. Lord I need strength in my life; I am faced with things I don't want to just sweep it under the carpet. You don't just want to struggle with it but Lord I want to overcome these things and that they are under my feet.

Lets just sing this little song/chorus just before we preach. It's a chorus I'd like to sing at the end.

I want to live the way he wants me to live Amen.

You know sometimes, you don't know what living is or to what extent you can live until you see Jesus revealed to you then when you begin to see Jesus revealed to you, you see how you should walk. You see how you should talk. You see how you should be obedient. You see how you should be willing. You begin to see God unveiled and when you see that you become affected and you want to go a little further. Sometime sub-consciously you settle down on where you are and because of self estimation you say I'm okay and canal comparison you say I'm better than a lot of people, I don't do what they do and you feel a sense of self justification but then sometime you see somebody go a little further.

It happened to David one time he thought he had known Saul and Jonathan and shown them love and respect even though he suffered persecution but that time when he saw Mizpeh, staying out day and night, shoing them buzzards out of the sacrifice, risking a life to warn of all them wild animals determined that the land was going to be cleansed and even though part of her sacrifice was her own children because the Giddeonite required seven sons to die to atone for Saul sins and the covenant that Saul broke, Joshua had made with the Giddeonites. And when David saw that, David went and dug up the bones of Saul and Jonathan who had died so long to give them a better burial.

Love provokes saints, it drives you a little further, sometimes God knows how to provoke us in places we need to be provoked. Jonathan was loyal to Israel but one day when he saw David in the face of all those great mighty soldiers who was running and hiding put his life on the line instead of thinking of himself and the reputation of Goliath and had recon since he was small, he's thinking of God's name being brought so low and being a reproach.

Sometimes we get taken up with ourselves, our reputations we get so taken up with our own security and how we can protect ourselves we don't realize how selfish we are because it is not to someone else who can tell you, you are selfish and since you are not hearing God's voice saying that. And when Jonathan saw that display of courage and patriotism and self-sacrifice he lift God's name a little higher against the uncircumcised. Jonathan took off his armor and laid it at his feet, the bible says. They were so bonded that the love surpassed even the love of women, the bound that bound them together. If David who was a shadow of a shadow of a shadow of our Lord Jesus Christ the true beloved, David means beloved, how much more should we lay down our all to our Lord Jesus Christ.

I want to live

I want to live the way he wants me to live

I want to give until there is no more to give

I want to love love 'til there just no more love

I could never out love my Lord

We were singing a little while ago have the pre-eminence, we are still expressing that same thing and just lift your hand up and worship as a prayer. Say, "Lord let me see Jesus, Lord open my eyes to see Jesus. Let me see this Christ that I must behold and changed into that I will not ceased until I hear you say this is my beloved son or this my beloved daughter in whom I'm well pleased, in whom I'm please to dwell in. As you sing it with purpose in your heart I don't just want to, with purpose in my heart I will live the way he wants me to live.

Bro. Vin sings with the congregation

I'm going to love, love till there is just no more love

I could never ever out love my lord

I'm going to live the way he wants me. Blessed be your wonderful name. Lord oh how we want to walk close to you Lord to see your very live expressed in us.

Oh praise his mighty name. Genesis chapter 45 verse 1.

In chapter 42 we read how the brothers had come down into Egypt, that was their first visit, he had put their money back in their sacks and send them away. He had recognize them but they

didn't know him, he spoke roughly with them, tell them they come as spies to spy out the land. After the food was used up their father had told them to go back again. Joseph had kept back Simeon after that first visit, tell them make sure and bring their smaller brother otherwise they would not see this one, they were very hard, the father finally let Benjamin go then they came down the second time and he put the cup in Benjamin sack. You know the story and he was taking them through a real hard time, he was grueling them, he was causing them to get conscious of their sin and the evil and bringing up things in their lives that they had tried to suppressed because the hour had come that all these things had to come out of them and he knew how to deal with them and bring it out to get them to see their own sin.

And after they came out and saw this was happening to us after what we did our brother, they thought he was dead but now he was going to reveal himself to them. This is a type of the seven seal, the seven trumpets right here it's a parallel. You know that?

Then Joseph could not refrain himself before all them that stood by him and he cried.

It shook them up to see him cry because this was the Governor who had held their brother at first. This was the Governor who had spoke rough to them and stern. This was the Governor who had them interrogated. This was the man they feared and they thought that we don't want to face this man but it seem every time we come here this man is right in place and we can't seem to escape him and they were terrified by him and now they see this man crying and weeping and they couldn't understand it.

And he cried cause everyman to go out from me and there stood no man with him while Joseph made himself known unto his brethren as he wept aloud

He couldn't hold it back no more, he couldn't refrain within himself any longer.

And he wept aloud and the Egyptians and the house of Pharaoh heard and Joseph said unto his brethren

He had to speak loud, they weren't in no small apartment that we live in and the person behind the board partition in the next apartment could hear somebody talking or crying over here, it was the Governor's house and Pharaoh's house could hear that and all

the Egyptians outside. This was like a place from here to way out by the mango tree on the main road out there, hearing these things. To tell you how much he was sobbing uncontrollably.

*And the Egyptians in the house of Pharaoh
heard and Joseph said unto his brethren I am
Joseph doth my father yet live*

Look at the things his mind is possessed with, my father, he had seen his little brother, he hadn't seen him in the first visit but he had seen him now, Benjamin, but now he hadn't seen his father as yet.

*... doth my father yet live his brethren could not
answer him they were troubled at this presence*

They are still trying to come to terms; what is happening here? How could this be Joseph? This man is dead and how could a... this is the Governor of Egypt. This man is Pharaoh's father, he's in charge, all power is in this man's hand to kill and to set free. This is the man we are afraid of, he's asking for our father and he says, "He's Joseph." What is happening here? And they too were in shock.

*And Joseph said unto his brethren come near to
me I prayer thee.*

I want you to feel the setting; I want you to realize the experience here. Thirteen years he was in Egypt there then he came out of prison, then seven years had past of the plenty and two years the famine had started that was nine years and taken 22 years and now he was making himself known to them. So they are all shocked and terrified, they were young men some of them back there now they are much older. He was a young lad that they tired up and thrown into the pit, who couldn't help himself. Now he stands here with all authority and power over Egypt, it wasn't the same man. You see people over all these years and you say hey, that was my friend who used to be in school. You used to tap up this fella then you go in the office for a job and this fella sits in the seat and is watching you and you say oh God I'm sure I'm not getting this job at all.

I used to tap up this man, he remembered them tap for sure and you are terrified you want this job and the bank is going to take your house cause they already take the motor car and you're depending on this job for your life and you meet the man you used

to tap up in school. You could imagine what is going on there. Think of what it is.

Come near I am Joseph your brother whom you sold into Egypt.

And 22 years flashed like lightening and they all know he was bound and the Midianites had opened his mouth to check his teeth and they was turning him around and they was stripping him of his clothes to see what he looked like and he was humiliated and they was checking the silver to make sure they paid them the exact money.

whom you sold in Egypt

And they're thinking of the dusty roads when the caravans disappeared in the distance and went out of sight but here he is and their life is in his hands and they're terrified.

I'm Joseph your brother whom you have sold into Egypt therefore be not grieved nor be angry with yourselves that you sold me hither.

Jesus!

Therefore be not grieved nor be angry with yourselves that you sold me hither.

What kind of man is this?

...for God did send me before you to preserve life.

Where their heart is and their mind is they can't even understand what that means because they live all their life in selfishness, in persecuting other people that they don't like, in lying against their parents, in deceiving, in carniving this is where they lived.

When you live there you can't understand these kind of revelations God send you before and your life had a purpose. You can't understand it, you can't think on that level because you walk by sight, you don't walk by faith; you're influenced by the temporal things. You are seeing in the humanistic realm, he's talking about the realm of revelation; they're in the humanistic realm.

...for these two years had the famine been in the land.

Seven years of plenty had past two years of famine had been in the land.

*... yet there shall be five years there shall neither
be earring nor harvest and God send me before you
to preserve you a posterity in the earth.*

He's saying you and all your children are already saved standing here right now because I've come, I've made provision. Everything is secure and now I'm going to give you the best place here. They came to buy a little corn. I'm going to bring you and all your family and give you the richest part of the land to dwell. Could you imagine that?

*and to save lives by a great deliverance So now it
was not you that sent me here but God.*

That is what kept him from revenge. That is what kept him from bitterness, that was the inoculation, that was the repellent that God had to reveal and settle in his heart. They could do him what they wanted, he can't absorb that, he can't absorb that. He repels that, he's going to overcome evil with good.

So now it was not you that sent me hither.

Though you get the money and spent it, though you went and make a big splash, though each of you did something with your portion that maybe you still have; this one still wearing the gold chain; this one still wearing the gold ring, you know all these kind of things does make people give up Jesus because they want these little shiny things of the world.

And they sell Joseph so they can have these nice things, they sell their savior, they make merchandise, they play politics with him, they manipulate him and exploit him. They got rich off him, but watch;

*...it is not you that send me here but God and
made me a father to pharaoh and lord of all his
house and a ruler throughout all the land of Egypt.*

You sell the man for a slave, the man is ruler of all Egypt, he's pharaoh's father, lord of all his substance and we only get thirty pieces of silver of this, brother. That callous mind can sometimes even say, "Had we known he had all this worth we would have bargain and negotiated for a higher price." Sometimes when your heart is callous and dark you can't see the value of what you have in your hand. People put aside the spoken word: you heard a little testimony this morning in that man's pocket.

Let me tell you if that man didn't receive that word and say I don't want you all religious thing and didn't take it and put it in his pocket, he would have stayed dead in that parlor. There had been nothing to speak over him. You get what I'm saying? But because God wanted to even show the word.... How many know they drop a dead man on the bones of Elijah and he came back to life? The last thing I was teaching is on the bones for you, the bones of Joseph, now watch;

... and made me a father to pharaoh and lord of all his house and a ruler throughout all the land of Egypt...

May the Lord bless the reading of the word you may have your seats.

I would like you to turn a little more to chapter 50 and read a little further. I would like to take a title this morning **Joseph's Hidden Power**

When a man can react so to that kind of persecution and trial he has a secret. When you can look at a man and discard him for next for nothing like that, you miss seeing something that that man had. You get what I'm saying? He had this, he didn't get this in Egypt, he took this into Egypt to save Egypt. He was born with it, deposited inside of him but these experience developed and cultivated that which God put in him because unto that end was he born. God did send me to accomplish this. Oh! How beautiful! A little subject I would like to speak on Love, Faith and Forgiveness. We were speaking **By Faith, Joseph** want to speak on Love together with Faith and Forgiveness.

All these lessons we have been learning things these last couple of months here on Joseph and looking at these things

Genesis 50 verse 15

And this is after now the father had come down in Egypt, he spent 17 years so this is 22 plus 17 that is 39 years now. We are reading Genesis chapter 50 and when Jacob came down he was 130 years and he died at 147 years the bible tells you he spent 17 years in Egypt he died and they take him and buried him, verse 15;

...and when Joseph's brethren saw that their father was dead

So catch this 22 years after they had thrown him in the pit and he has forgiven them 17 years after now that the father had died

and buried, they still (17 years) have that guilt. You catching that, they still 17 years have that guilt, that 39 years since they put him in the pit and what they did that injustice 39 years ago it is haunting them again, still here in verse 15.

What does that tells you? Sin is not so easily removed or the memory of it and even though you are released from the bondage and condemnation of it, yet the terror. Satan rage havoc with your memory, you are still oppressed by it. I want you to think in them places. That's the place I'm trying to preach. I'm trying to preach in an invisible place, I'm trusting him to give me words to define these invisible things because it is a place in our lives where we need to be free from. When God release us we need to know we are released. When God release us we can't go back to him in fear. When God say I've forgiven you, we can't take his word to mean less. They didn't believe his words that he expressed and in doing that... *it is Joseph*. You are just saying that to make us feel good but you don't really mean that.

Look how you would see here 17 years after they were forgiven and he reveal himself to them 39 years after they had put him in the pit he is still mis-understood and still mis-trusted because they could not believe in the sincerity and the genuineness of his forgiveness.

...and when Joseph's brethren saw that their father was dead they said Joseph peradventure hate us and certainly requite us avenge us and make us pay retribution for all the evil we did unto him.

In other words he only doing that while daddy was alive, he didn't want to hurt daddy, he will deal with us now because daddy gone we're in trouble. All ten of them had this thought. Why?

He wept aloud.

He had all power in his hand. He went to the throne from the pit. He was sold for silver and he was put into prison. The baker died and the butler was spared, he had ascended to the throne of all authority. Everybody had to bow when he past. He took the gentile bride yet they can't be released. When you see the cruelty of that sin, when you see the power of that evil and what it does to the mind, you can understand why it took the blood of God to get rid of it. Nothing else can pay the price to get a hold of it. What

shall make me whole again, nothing but the blood of Jesus. Oh how precious is the flow that makes me white as snow, no other fount I know. There's a fountain opened in the house of David that cleanse us from all sins and righteousness.

Zechariah 13 that's the very prophecy of Joseph making himself known to his brothers the real Joseph. Is that right? Under their seven trumpets under our seven seals. Have you recognized him? Remember we were part of that church that went away, that fell like Eve fell. Remember we came back in the last days, we were blind, wretched and naked in the world and don't know it. Remember when he opened the seven seals he justified us, he took the charges in this day when he came as the supreme judge.

How do you relate to the message if you miss these things? You would be trying each day to wrestle in your mind but if you recognize these as divine acts of God to his church, the same way he came in flesh and went up to Golgotha the same way he ascended on high. Can you see the same way he came back and took the book and loose the seven seals? Amen. Hallelujah! He put everything that was against you in the sea of forgetfulness in this day and say you are the sinless, spotless, virtuous bride of the son of the living God. Amen. And the Son of Man himself set you free. He dropped every charge against you in this hour, go and sin no more. Oh my! Loose from everything, if we recognize that was God in the administration of his office of the Son of Man as a prophet. The God-prophet, the kinsman coming down just like he did to Abraham and coming to Sarah with all her unbelief but he was going to loose her from that bondage of unbelief.

For 24 years she couldn't live free. I will not believe, I can't fulfill this and God is saying. I know you can do it, I'll give you power to do it. Amen. And God lift her up to a place where she can judge him faithful. Is that right? And that woman that was barren produced. Think of it. These things in the bible were hidden secrets of redemption spoken for a people who would be living at the end of the age. And he came the Lord himself descended with a shout, rip the seals of, expose himself and say, "You, (that's you) are that one!" You are this one over here, you are that church coming into perfection, that's why you are being called out. Amen! This is what we are awaken to, that's why we call ourselves bride, that's why we say we are different, that's why

we say we are elect. Why? How could we make a claim if we didn't see God come down in this generation, if we were certain that was almighty God speaking that? That's why he vindicated the word so you would know it was not the word of a man. Amen.

The Lion can but roar who can but fear, the Lord God had spoken who can but prophesy. Then God vindicated it in the skies and on the earth. Is that right? Everywhere God show it in nature but this was him by infallible proofs proving what we have is the supreme authority of the infallible word.

...and when Joseph's brethren saw that their father was dead they said and he would requite of us all the evil we had bestowed onto him and they send a messenger unto Joseph

They wouldn't come for themselves they sent a messenger. 17 years they living there when they get in a corner talking they say, "You think he forgive us boy? Simeon what you think?" Simeon says, "Boy that man, though he's nice, that man ain't talk to me. Think of it, I was... that man brother when you all went up to see my father that man didn't come and visit me one day. They had me under a kind of house arrest. They restrict my boundary. I see the man past he ain't even waving self saying hi Simeon."

Think of it, when people many times live on that low level, brother God have to provide salvation for them. God have made a way for them but their mind so small and their world so small they can't see the bigger picture, so they only counting injustice or what appear to be injustices to them and they are not seeing the big evil that they did, and they are not seeing that don't deserve no attention and no favour and they should be glad just to be speared that he dealt in kindness by not killing them.

And I could imagine Naphtali and Asher Bilhah's children they say hear nah man when man get that kind of power he's not easy you know because if that was me and I have that kind of power and a man do me that brother his life in my hand I would make him pay every cent. I would make him pay the uttermost fathom. Now when people's heart is hard and callous, your eyes does see through your heart. So you does view the world and other people the way you are. So because you wouldn't do that, you can't even conceive somebody not doing that.

Brother Branham tells a story about this young man, the way he comes in there and he's on the pulpit preaching and blasting them bob hair and paint face women and all them young women in that sexy clothes and what they doing and how they are going to be charged with committing adultery because of how they present themselves and the young man comes out behind the church and says "Preacher you could say that because you're an old man but I don't find that does look bad as you says I find that does looks nice." The prophet says, "he looked him in the eye and say what is your age son, he was about 20 something years, he say when I was about 15 I believed these things. I've been preaching this from a young boy he says.

Your eyes see through your heart. It looks nice to you because in your heart you desire that kind of thing.

So as a man thinketh in his heart so is he. Well according to what thoughts a man have in his heart will determine the kind of heart he has. How many knows the bible say the heart is exceedingly wicked? That's why he comes to turn the hearts of the children back to the faith of the fathers. He comes to give you a new heart and a new spirit and give you a heart transplant. Take out the stony heart and give you a heart of flesh because until you get a new heart you don't have a new thought.

The new heart speaks of a new thoughts, new spirit speaks of a new desire. Is that right? Then the Holy Spirit comes down in that new thought and that new desire to bring forth the very word.

So in that condition they say he will peradventure hate us and certainly they seem so sure he was going to do that. Now think, what did he ever do to them? They kick him around, they ridicule him, they throw him in the pit, they slander him, and they sell him for money all these different things. He came down there and they had him in charge of all the corn in Egypt and he still... he put their money back in their sacks and send them away. He was dealing with them in love and places where he needed to be stern he was being stern with them because he wanted them to get conscious of their condition. Yet with enough love to let them know they have favor. You get that? But people like to be pampered. You see chastisement is not a punishment because the child's amendment is in mind. Is to cultivate and develop that person to bear something. That's why the husbandman prunes the

vine, he bust up that big cluster of fruit and thin it down because he wants quality fruits on that vine.

He didn't hate the tree and when he bust up some of them little relationships, sometimes they get in that cluster and they too close to this one and too close to this one and this one getting squeeze and come out deform.

You ever see a bunch of grapes and it have some in that bunch get squeeze up because of where it is and that cluster resting on a branch and one getting so much of pressure inside of there. You ever see peer pressure in school and you is the innocent one in that group and you're not suppose to be in that group at all, and they squeezing you and pushing you this way and that way. After a while you start to become their shape and when God have to bust up that thing and thin it out and get rid of some of them from around you. You find that you can't accept God dealing with that situation in that manner because you can't see it is for your own assistance.

These men were called for a great calling, they were patriarchs, and they were the heads of the tribes of Israel. Levi standing there who was with Simeon, with instruments of cruelty in the tent was suppose to come into the priesthood. Judah who was there with them and though he tried to save him, yet he went and supported the lie they told their father after they sell him. Yet he was going to have the kingship and they didn't realize the great thing they were called unto because Israel in God site was to be a holy nation of priest and was to be the standard in the earth. Out of Egypt have I called my son that was planted in Canaan to bring forth good fruit that Christ himself was going to come into that nation as the son of David and come out of Judah.

And so they were living in a level where they could not understand the real calling that they were called unto and many of us live the same way because we have not looked deep enough and we have not examined many times the influence that influences us and we don't see ourselves in the light of the word to see in what manner we are handling influences that try to manipulate us and control us and deform us into a hideous condition. To keep us away and paralyze us from coming into the fulfillment of what God ordained us for us and sometimes we get seduced by the things of the world and we like friends and support and false

encouragement and not realizing that's Satan scheme many times to hold you back and make you live on the surface and make you don't look enough and make you forget you're chosen before the foundation of the world.

You are predestinated unto the adoption, a placing in God's economy that you have been gifted even before you come into your mother's womb. God foreordain you to be certain things that gift and calling is without repenting. You drop from your mother's womb what you are and God is dealing with you and God is fellowshiping with you was to bring you into this understanding and this realization that he can be your friend and companion through life's journey, walking with you down through life's journey. Telling you, you know what you are, you are going to be this in my kingdom and that's why I'm letting you go through that here. You need to go through that, I couldn't tell you last week what you was going through because it wasn't time yet because I wanted to see how you respond to this, I want you to discover it in your own life because when you discover it in your own life you begin to have more faith of what is inside of you.

When you see it automatic in you there is something inside of you and you learn to relate and be sensitive to that because I design you different, that's why many of us miss this in life. Years past and we miss this, wrong teaching veil you from it many times put you away and put you in a church and join a church and put you in a ritual of a church service, give you a false concept and your life is powerless but this God who says, "Know you not you're the temple of the living God. What house will you build me?" He has been building his house for seven church ages, upon this rock I'll build my church, he's not building a house not to live in it, he's didn't get a wise master builder to lay the foundation, he didn't get one like Zerubbabel to bring back the headstone with shouting of grace not to live in it. He build the house to live in it. You are lively stones a habitation for the spirit, I will dwell in you and walk in you. I'll be your God and you shall be my people. Is that what he promised?

Other than that you're looking for denominational power. Denominational power is religious political power, that kind you get by vote and politicking in the church but God's power come by a new birth and the training of the Holy Spirit that brings you to a

surrendered life before God, make you prisoner bound in the chains of the word oh my!

Joseph had hidden power and he understood how the vine dresser was cultivating the vine and how that power was growing in his life to come into a place, amen, where that power can be displayed and demonstrated and to show the kind of character, amen, that he had to use that power to the glory of God that he became the type and representation of Christ. He close up the book of Genesis, the seed chapter of the bible, his life from chapter 37 to 50 shows the pathway of suffering, to come into glorification. How every son is going to come through that pathway would come into a place where he's placed positionally with authority, has the character because Joseph represented perfection. The fruitful bough that was planted by the well who abode strong and when the archers shot at him, amen, how the God of Israel made him strong. How he bore that persecution we know its not Jewish history, we are convinced of that because the book is opened. We see it is harvest time, he's the ripened sheave the church is the ripen sheave in the last days. We oft hear the rainbow coat a type of Holy Spirit filled church that's the church in the last days, the one that is hated and rejected. That's the spirit filled church he suffered persecution for his revelation, his revelation was revealing future glory.

What is the seven thunders? Wait until the seven thunders uttered there voices to a little group, it will show them how to do what? Prepare for translation faith, these vile old marred bodies will be changed. Is there such a promise in the last days that the bride will be changed? This mortal will put on immortality; this corruption will put on incorruption. Is there suppose to be a message shouting grace, grace? Will the church get a double portion in the last days? Did Paul say it would be a glorious church without spot without wrinkle in the last days? Are we in the last days? Has the last message come? Didn't the last messenger sound is the mystery finished? Is the hearts of the children turned back to the faith of the fathers? Is a church being ripened and coming into the ripened faith lying in the presence of the son? That's the secret of Joseph's life, became a prisoner before he come into power. Is that right?

Carry this great revelation that the mystery of Abraham Isaac Jacob was unfolding in his own life. Is that right? Do you know what started Paul and Martin, Ireneus, Columba? What grounded Luther Wesley and Pentecost and Malachi 4 is continuing in you. You know that? You know it's going on inside of you this morning that the continuation of that eternal life is inside of you then friends.

In that hour there was forgiveness, he stood there with perfect love, he stood there with perfect love and could forgive. That's the man whose bones, that's the man who carried the revelation of the resurrection inside of him that's the adopted son that was placed. Think of it friends, that's the one who was tried and proven tested before the promise, that's the one who saw the vision under expectation for the fulfillment of the vision and then saw himself in the vision. The things God was teaching him he came to the stage where it was no longer teaching, it was actual in his experience.

When he was telling them the vision nobody was bowing down before him in Egypt. He was no longer looking for the vision to come, the appointed time had come and he was in the vision and they were bowing and they didn't know they was bowing fulfilling the vision. Is that right? Where is that elected church in that hour walking? Where are these sons of God in the last days? Where is this bride that has been called out from organization that God couldn't send a theologian he had a foreordain prophet the angel of the Lord standing there the pillar of fire to vindicate that word to separate them? Why? Because the calling is to important. Is that right? By and through the member of the bride he will finish the work.

This is the secret; the word is in the bride as it was in Mary, something in their life a hidden power. David says the word have I hidden in my heart, I will not sin against thee. Did Joseph hide that word in his heart? Did he hold that word and water that word? Did he try that word? Did he wait until the appointed time that word come? Did he see that word coming to past? Was he standing speaking out of that vision, anointed the influence of that revelation and for years? He held it, now it was materialize he had to preach it was him though it was in symbol form. Even before it happened remember he was interpreting that he didn't see the

eleven brothers, he saw sheaves. He saw stars. You reading that bible? You reading Rebecca you know that's you? You reading that bible, you read about Ruth you know that's you?

That's a symbol form of the bride brother that's a vision opened up to you when you see a bride, they represented not the bondwoman church but the free woman church. The elected church, the one that was chosen at evening time by Eliezer. Is that right? The one that Elohim came and identified with his back turned, who was outside Sodom like Sarah. Is that right? Like Rahab with the token in the window when the iniquity of the Amorites was full in the land. Are you living in that time? Are you living at evening time when Rebecca got married? Are you living at harvest time when Ruth got married? Are you living in the time when the Jews went back in their homeland? Amen, between Nehemiah and Job the resurrection, when Esther was married. Are you living in that time then? Are you catching and do you believe?

Are you fellowshiping deeply enough to become convinced and fully persuaded and it is not you no longer learning, not you rattle off but it's a substance on the inside. Faith is the substance, the word become spirit and life. The drama is real. Do you know that's you? If not, you are trying the word with a power that can't bring the word to past. You are trying to win with an outside power.

Somewhere that's a hidden power, it's a transforming power on the inside of the seed to become the specie it is ordain to become. That whole oak tree was in the acorn. Is that right? The book of Acts was inside of you; all that Jesus was that gene was inside of you.

That little spoonful of the ocean has all the chemical that the whole ocean have inside of it. Do you know that? That's why the devil does be in your battle ground so much, dropping bombs left and right trying to bombard you like what the Americans do Iraq day and night, day and night, day and night, just dropping them bombs in the battle ground. They targeted, they know what the battleground was, they weren't bombing Syria, they were bombing Iran, they knew the battleground. Is that right? They know where to drop the bombs they had it targeted. You know where the battleground is, the mind.

The mind, you wouldn't know that had it not God send a prophet to reveal that to you but I tell you that's the battle ground the mind. Why? Decisions are made in the mind.

You have to choose or reject. Is that right? The tree of life and the tree of knowledge confronts you, Michael and Lucifer on the battleground of your mind. You're going to worship one or the other. You are going to make you legion with one or the other. Satan has no power but how could he be so strong in the battle.

He had no power he lost all power. You see you are wise for a lot of things but the spirit is moving, he has no power all his wires is being pulled out. What he has is knowledge, what he has is scheme, what he has is guile and deceit, so he gets into your house and he use your system to get what he wants done. You could sing he gets into your house and he use all the wiring God put in you for singing, brother you have some talent that God give you he get in there and use that. Anything you have he comes in, the enemy creeps in, creeps in unawares penetrates your defenses throw your alarm off. You are no longer sensitive that the enemy has come within the house oh my!

You have good athletic skills that God give you, you are built up a certain way he comes in there and he begin to manipulate that. You ever see he gets a man with two left foot and cross eyed to become a big football star, no sir you ever see he get a girl with one teeth in her mouth and one eye to go in a beauty contest. He comes and use what you have, he tries to divert it in his channel. He has no power friend he uses what you have. You become his power source, you become the potentials that he gets in his hands, you become his chemistry lab he rearrange the molecules of your life, he gives you a new image a new identity, he give you a new future he shows you the one you have is dull he show you one that's exciting, he shows you one that is more acceptable by the world and the public but you have to have revelation to say I'm not sent to be part of that world, Amen. I'm born for another calling I have another future, amen, when this world is no more because which ever world you conform to is the world you will reflect and which ever world you are reflecting if that world is going to past away you will past away with it.

How many knows in the days of Noah when that world past away all the daughters of men past away? How many knows when

Sodom past away Lot's wife past away with that world because she was reflecting that world? How many knows that all them young woman reflecting this Satan's Eden when the atomic bomb turn this thing to ashes ...but how many know Sarah couldn't past away when Sodom past away amen. Brother her old age past away, barrenness past away because holy fire came down and raised her up into another place and she continues on long after Sodom was over. Is that right?

That's why Noah could look and see that world was pasting away, it was ear mark for judgment and he saw the mystery open up to take him above the old world and into the new world that he wasn't going to be caught in that science civilization when it blows. Can't you see you're sitting here this morning life and death is before you, you are sitting there and staring into that word and that light from heaven that angel brought from eternity to reveal Jesus and his programme for this hour the end of time sealing a total secret, like when Moses came to Israel and they was just whispering it in soft tones death is going to past here at midnight follow the instructions; no body don't come out; eat your bread with haste; have your loins gird with you staff in hand. In the time of Sodom, that angels coming to Abraham according to the time of life, I'll return. In the days of Noah he says, "next seven days the rain is going to come." And God shut the door. You get what was happening? When Jesus rose from the grave he came to them and said not many days from now I shall be with you, from power on high and you shall be witness of me not in the old world, the five thousand or seven thousand all that time had past. That big time for protractive meetings was gone, he was dealing with the elected ones. He was opening the secret to them. Do you understand friends? You are in that same hour, history is repeating itself.

That's why when you look here you don't see Third Exodus Assembly, you don't see Longdenville, you see the word that's opening and an entrance being ministered to you and taking your soul up into a plain. You begin to see who your brother and your sister is, they are separated, they are called out, they are chosen. Why? Because that heavenly angel descended to that earthly angel and the earthly angel sounded that mystery and that heavenly angel say time shall be no more.

He that is filthy shall be filthy still and God is telling you there is hidden power. You're looking for the change, when the change comes I understand something great is to take place in this hour. God is saying it's already in you. It was always in you and the God of foreknowledge and you have to come in afterwards and put it in there but I let you discover it, when you have reason to see it. And if you understand how I have been dealing with you, you will understand how I bring you into it. Don't get mix up with me and denomination, that's a man-made system, they have religious plan.

That's Satan bringing you how he wants to bring you in heaven, that's why I have to kick him out but my thing is to be individual; upon this rock I'll build my church. It's a rock confession. The revelation is only for the Father's spiritual genes. Hallelujah! The one shall be taken and the other shall remain, the one, the elected one, the predestinated one, the one with the oil shall be taken, the one with the his name in the lamb's book of life, the one that's redeemable, the one that can be born again, like Abraham had separated from Lot, like Israel had separated from Egypt, like Noah separated from the world, so I am separating you. You are different. I'm trying to get you to say what he's saying. I'm trying to take you places, that's why I put Joseph in prison. He had to discover it is not outside power to get him out of here, it's inside power. He's looking for the butler to put in a good word for him in pharaoh's court, see, but God did send him before and God is the author and the finisher, and God had his own way to bring him out but before he waited to understand God's way being revealed, he's trying to anticipate the plan and get ahead of the plan and start to work with a manmade connection to bring that part to past. You get what I'm saying?

So it would be pharaoh saying, "I bring you out. I will put you back in you know just behave yourself." No, no he says when you came looking for me all Egypt was on death's door and you know I was laying here in this prison with this gift and this is the only thing that could save your nation. So you were asking me if I could oblige you and you and all your senators. God let me teach you wisdom and bring you to your knee that's why God worked in that way. To tell the brothers... in other words, he's saying, "Can't you see you try to kill me, the woman try to throw me in

prison, Satan make the butler forget me, so I could rotten inside of here.” But can’t you see none of these things move me.

God have a boundary on everyone. Can’t you see every segment of my life was onto the end of him revealing the vision? In other words all these things can’t bring you to a glorified body, that’s your glorification not a chain around your neck and a second chariot. Your chariot is faster than the speed of thought, your chariot is the chariot of fire. Amen. Theophany - your robe is not a nice robe to dress you up in, you’re shaving to come in the presence of the king. It is not some Gillette track you know ‘the power to shave’ and these things. It’s not that. God shave in Hebrews 4:12 he shave you shave off your self will, shave you inside and outside.

Let’s go a little deeper, let’s get our hearts, and let’s get our thoughts a little deeper in our lives. Let’s not get our lives as a Trinidadian life. When God’s talking about life God have book of life and Lamb’s book of Life. Two sections of the same life: old birth and new birth. Man does talk a next kind of life. “Boy this life, I living my life.” God only have two section for life: redeemable and not redeemable, relationship and ownership. You get what I’m saying? So when you think about life, now that your thinking have been filtered you can’t say, “Well I want to live my life.” Your life, you got it by your first birth. You want to live that? You’re born in sin shaped in iniquity come into this world speaking lies, you’re born trapped in the lust of the flesh, the lust of the eyes, the pride of life and you can’t come out there. It’s a new birth that takes a man out of there and that new birth is God’s own life.

That’s God’s own life that’s not your life now. So to live your life at the end of that is death and the grave and judgment, to live God’s life this is the thing. You will not come into condemnation but you’re past from death unto life. He that heareth my may word and believe on him that sent me will not come into condemnation but have passed from death unto life. You bypassed that, there is now no condemnation to them that are in Christ Jesus. Who walk not after the flesh, after the course of this world and the vanity of the mind, after the pride of life and the lust of the flesh but walk before God and is perfect. Who walk and have fellowship with God, who see the cleansing power of the blood, who know what it

is to say Abba Father. Abba Father, papa I love you, papa God I love you. Papa God my soul rejoice I know I belong to you, I know I was in your loins Amen, I have your very DNA I have your character, you open to me the divine heredity in this book of life here, and show me my pedigree all the way back to where you wasn't even God you were El Ella Elohim back there. Oh my!

You decode my genetic script for me and you introduce me to myself. I was trying to be conformed after this cosmos but now I'm transformed by the renewing power because you open up to me the mystery of my life in this bible and for the past couple months you have been speaking to me, **Prisoner First, Vindicated And Placed Sons; Behold The Dreamer Cometh; amen! The Age Of Adoption; An Example Of Suffering, Affliction And Patience; Tested And Tried Before The Promise; but Joseph The Over Comer Joseph; A Fruitful Bough Planted By The Well; By Faith Joseph** who could look beyond this life and **Joseph's Hidden Power** that moves him that, make him master of every circumstance, that he can't hold grudges that he have a repellant to fear. He has no malice and no bitterness amen, he don't behave himself unseemingly, he thinketh no evil, he don't exploit and manipulate he know God send him before, he knows God send him in the second fold he knows God send him 'as the father send me so send I you.' How did God send him? God went in them have not I sent you, oh my, hidden power.

He discover like that woman Zarephath's hidden resources, his divine potential his untapped resource. God did made him dig deep into his own life and see the potter had designed him, he was designed by the skillful hands of the potter prepared unto every good work in this hour, chosen vessel to bear his name. You carry it in you this morning. He has you licked if he can blind you from that. If he only makes you feel that is a teaching you're finished. You maybe a theological student in the seminary if it is just something to learn and rehearse, brother he changed you from an eagle to a parrot amen. Oh my! He don't care how small you are because it not your age, or the body you're in because your body on the body level we young and old on the soul level all of us are the same age because your soul is eternal life and there is only one form of eternal life, God's own life and that's the only way. You're part of the bride if you have that gene of eternal life in you,

so on the soul level we all have divine potential and God didn't put something that it is going to take your young mind can't understand it because he was catching this when he was young.

He was the eleventh son, he had ten before him who couldn't catch what he was catching and the father put that little eleventh one over the ten. Is that right? You are not this body this is not you. That's to deceive the devil that's a mask, God masked eternal life in you. You see the same way Jesus come a baby, God come a baby and grow up well the same way. God come as seed inside of you but that God seed inside of you is a big oak tree that he put down inside of you in this dirt. This is only dirt that God plant that seed in, this can't bear no witness for God but that's dirt. That seed needs to grow in this life because the witness it must give is the world that this comes from in that sphere and that's how he contacts this world and he give his witness through you.

So you start to realize that God is inside of you this is a secret. This is a secret. You know you have blood, you know blood is inside of you, you see it, you feel it, you smell it, you does feel it, you get cut it exposes it. Is that right? So you accept by faith you have blood inside of you though some of you never bleed yet.

That's the carrier of life and that have all the potential and a record of all the way back to Adam, you know that because the first human body come from the earth and this is it and this could trace six thousand years back there. Think of it. Well that blood under a microscope have a genetic code to decipher, to reveal an heredity, to show you all who was connected to that life and what you inherit by birth then that soul inside of there, that's the spiritual seed because this blood comes from a seed. You know that? The blood cell the hemoglobin is in the blood cell, that's in the male sperm, that's a natural father seed. Well in the spiritual father that spiritual life that comes down through the patriarchs and the prophets and the apostles and the reformers back into Malachi 4 and back here in the last days in a super race on the earth and the same way natural scientist... but that under a vision is a powerful a thing. That amplifies vision it gives power to sight, microscopic power so a man could see. When the eye receive that kind of power to have that kind of vision through the aide of a microscope, what if that prophetic vision come upon the bride, that anointing come upon the bride to give us prophetic insight to see all the way

back, to amplify that sight and they begin to tell you, you had a father who was a great general in battle.

We could even look in the book of the family album and find his name because of the kind of characteristics in you, this fella he could stop the sun, this fella could place people positionally, this fella could think on a certain level he knows you're born for a purpose and your birth is tied to a position. He does think in that kind of way. You say, "I was reading that the other day about Joshua, could he be my family." He says, "You used to be a young girl you think you are a nobody, you think the first part of your life you're poor and you're a kind of bond child and now they're calling you queen and queen." But you start to discover a kind of faith in you you're willing to die for your own people you're willing to put your life in jeopardy you say if I perish I perish and it comes out of you spontaneous. They say you have family who used to behave so, they say according to this DNA we could trace that and we could decode this and we could go back in the book of life and see if there is representation of that kind of life in this lineage, they say we are finding something, it is between Nehemiah and Job, it between the Jews going back in their homeland and before the resurrection we are something inside of there and in 1946 the Jews went back in their homeland and the resurrection is to happen and now it is 2004.

So between 1946 and 2004 there are some people on the earth who have that genetic script inside of them, they say you have hidden resources, you have hidden potential, you have hidden power inside of you. You are trying to learn to live through education and you're getting out of your provided way. You're getting into man's way, a way that seem right and you're trying to live through education and science but the world you was born for is not that kind of world. They are trying to make you an amphibian and take you out of the water and put you on land but really you're born to live in the water. You are designed to live in a world of perfect faith not in Satan's Eden. Hallelujah! Glory be the God in the highest! They say that kind of potential you have amen, you're born different, something inside of you he says, "We see something inside of you, a little selfishness but we need that selfishness, it have potential and the only way we can get to that potential we have to cut through that selfishness." You see that

selfishness is a kind of weak life that you inherit through hybridization, that didn't get cut away but we see Elijah come and cut that away from a woman in the days when Ahab and Jezebel come together before the third woe amen.

There is something like that in the genetic record we could go back there and trace that pedigree and find something inside of there instead we realize when we look at you under this vision of this microscope beyond what denominational sight could see, what theology could see, we get down there and we realize that you might be looking like an ordinary Trinidadian on top. A poor little widow Zarephath but Zarephath in the place of refining metals, that's where the gold does go through the fire and get purified. The fire does only get rid of the drust but the fire does bring the gold pure.

You get that? The fire can't destroy the gold it only purify the gold. You have something inside of you to stand the trial but that that's covering you down and telling you you can't stand it. You will break under pressure and be selfish and don't take in them people they want to control your life but because of who you are and where that man speaking from his gene and your gene come from the came source and he already discovered his potential but he's sent to awaken you like mama eagle come to awaken the other eagle, who was an eagle but didn't know they were an eagle, who wanted to fly but saying me and my son he says, "Lady you and that boy could fly." Come out from among them chickens you could fly. You better fly or die amen.

Brother she begins to move up into a realm he says, "Bake me a cake first." Brother she says, "I know how to mix meal and oil I do that for years it have to be brought to the fire and I know how to light a good fire, I know how to get two sticks together and bring a mystery of the cross and take my meal and my oil and bring it to self-sacrifice." Then you watch famine and death flee from you because you get your hand on hidden resources. You have something inside of you that was locked up all the time but God in this hour ordained that and cultivated it to bring it out.

Don't see your life no other way. The day you see your life another way you are in trouble. You'll try to be like somebody else, the fashions of the world, the trends of the modern age will keep your head spinning, you'll be going from pillar to post with

no rest but, you know, what God wants to do God wants to bring you down to a place, tie you and let you see where you are at.

These fellows, they couldn't understand that kind of love in that hour, this man had that kind of love in him, that love was cultivated, this man lived in God's provided way. He lives in a certain channel that God brings him into perfection. How many know the bride will come into perfection? How many know the church must come into perfection before the resurrection? She must come into that full maturity, perfect as the father in heaven is perfect. He had to grow up in the statue of a perfect man statue of the measure of Christ. Is that right? Then if that's so, it must be cultivated. The one who plants you is going to cultivate you, he's going to bring you because your fruit must remain and the bible says Luke 8 the parable of the sower and the seed. These did not bring forth fruit unto perfection see, with patience see, there it is God called you to bring forth that fruit in this hour.

You believe you have it inside of you? Then if you know you have it and you begin to know how to come in the discovery of it, what laws it is worked by, you know, a man drilling for oil must understand the laws to get to the oil. You know if a man wants to build them big hydroelectric things to get power from a river, to dam up the water you know he have to get the laws of that to get that working. How many know a law governs everything? Then to discover that and to work with it it's a law to come into it and God can speak your soul and your mind into that place and that's what teaching does. Teaching is placing the believer positionally, revealing to him what God has made him and then teach him how to rely on that that he remained tied, though the ship is tossed, through trials something anchors him; something keeps holding me everyday I see guiding me constantly giving me victory he's a reality something keeps holding me.

Quickly before we get cooked here well done. Lets try to move quickly. Joseph had this word hidden in his heart, he had a hidden power, there is a secret that word is in the bride too. A word that reveal to him the plan for this age, a word that he was to fulfill part of the word for his age, a vision that thought him his place and how to come into that place. Is that right? And he grew in that channel without hate, God knew from stage to stage how to keep that spirit humble, how to break that self-will, how to teach him

confinement, how to bring discipline into the life but he was coming a fruitful bough because the important thing is where he was planted by the well. He had a source, he had a source, he had a hidden power, he had a hidden power that energizes him.

Do you have a hidden power in your life? What moves you my brother my sister? What drives you? Where do you get your passion from? A passion to know the word, a cry for reaching out in the spirit, a fervent desire to please God. What powers that? What intensifies that passion in your life? Or, is there nothing or you don't have no passion. Let me tell you if you have a passion for something in the world, you have passion for some young man, you have passion for some young woman, you have passion for some position in the world, you have passion for some earthly glory it takes something to stimulate that. It takes something to communicate that to you. It takes something to hold you under the control of that thing. It takes something to bind you to that and make you sacrifice for it to see it becomes a reality. You just can't walk in that natural thing the same way, brother the same way if you can't sacrifice for that.

A man can get up and run three o'clock in the morning day and night preparing for an Olympics next four years. Why does a man who make five runs and get bowl the first time he make one the next time he make duck? Why does he go and one o'clock in the morning in bright lights he have a machine bowling to him, he's batting about two hundred of them same balls? Why? He has a gold in mind, he doesn't want to be sitting on the bench, he wants to be in the field. He wants to walk with that flannels he wants to stand there and bat he don't want to go out with the tray of water day after day just hanging around the players and can't make the team. No! You want to be part of the team, you don't want to be settled until you see you're in the team. Is that right? When they put the team on the board they don't put twelve man and fifteen man in the touring party, they never appear on the board no 4 or no 5 opening the innings. You never stand up in the middle and raise your bat and see they give you a standing ovation when you reach a hundred, they don't have 'you carry the water a hundred times last fifteen matches' you don't want that kind of place especially when you believe you have the potential. Is that right?

Well if they could keep their eyes fixed on the prize and they could set goals and standards and they could focus on something and they could strive lawfully to achieve that and they could bring the body into discipline and their mind into focus because they put a value on that, then if that law works in the negative then wouldn't that law work in the positive. You think the man who is doing it spiritually he don't see something coming into it, he don't put a value upon it, it mean more than life to him and he must have that he rather die trying to get that than live without that. That's right, sometime you see that life and you say that word hard. How I could live that? No! It don't come from outside you have that inside of you but there is something trying to make you doubt what you have.

There is something trying to tell you, you don't have that inside of you, that's why I tell you, you have blood inside of you but you don't smell it unless you bleed. He cuts you open and when he takes the sword and the word and cut your heart open and take your gene out and start to identify bible experience; I does go through that.... I does go through that... you're seeing your spiritual blood. You're bleeding and God showing you your life, you're connected. God proving to you you have that potential inside of you. Joseph had that hidden power in his life. My! Let me finish read this.

What time we have there? Time to close I'll finish reading;
so shall

Verse 17:

*I prayer thee now you trespass thy brethren and
their faint.*

He had settled that seventeen years ago and he never even carried it for 22 years but they are living in a world, now this is what you have to bear when you do people evil, now get me I want to bring a thought here and close because I felt I didn't strike that hidden power good enough, if you have some life you can see that, now watch.

I want you to know this morning and recognize what your real enemy is. What is the thing that really paralyses your faith. There is a value and a prize to keep malice inside of you, that your faith won't operate if you want to live with malice and without faith it is impossible to please God.

Prepare if you can't forgive people and you rather have somebody in your condemnation than in your forgiveness and you have them lock up in your prison that you can never come into the love of God and you can never come into faith because faith works by love and if you have faith to move mountains and don't have love you are nothing. Look at Joseph here, look where their mind was and there mind was only in that condition because it was not an accident they had planned this.

When people sit down and premeditate something and they deliberate over it and they plan a course of action to execute it and they are doing it that way to get certain results like how those brothers plan to hold him in that pit by the time, "What is going to be the story? We have to get a story to tell daddy. What will be the story?" One say "Kill a kid and put the coat in the blood tell him a lion and tear it up a little bit." They say that sound good that sound convincing no witnesses around check see if anybody hiding behind no hill or no tree check we ain't see nobody around here okay we kind of free and they're planning this now.

To get there, that kind of seed can't make up so, you know, that is not through a circumstance and you react, you know, that is sitting down there and deliberating and taking counsel. You get what I'm saying? This is now another life this is a life that is conceiving because a man is not made up to hate. A man is not made up to lie, when God made a man he was not suppose to tell a lie that's why a lie disrupts the whole human body and a lie detector will prove that man is lying because it is coming from his subconscious and though he try to tell it innocent. It's not adultery that caused the fall in the Garden of Eden, you know, adultery was a result of the lie; you shall not surely die, that broke the unity.

What cause the fall in heaven the tale he told. You getting me now? Watch them, what they are doing here and that's why to get rid of that and for people who carry grudges for long I want to show you but when I watch at the time how could I show you that these things brings cancers and tumors and growth in people because you are fearfully and wonderfully made. That's why the acts of adultery and going into false union and going with the beast into bestiality and strange flesh in the beginning it brought polygamy, polygamy is not a law or covenant. Polygamy was a condition that come as a result of the fall, it exploded in nature and

throw everything in chaos, it went out of control and that's why today man have wife and deputy and second deputy and third deputy and woman is a smart duck: one man buying she groceries, one paying rent on the apartment, one paying for the car, one doing this and that's what going on and the world is in that condition because that was the beginning; the sowing time, now this is the harvest time.

That's why the whole world gone out of control that's why God have to come, that's why them churches them denomination look at the kind of church it is today because a church is a woman and that's why they went away from their husband's seed and they took the seed of man from seminary and look at the kind of children come of the church's womb; rebellious to the word in the spiritual form of it. You getting that?

Why they took life and put it in the wrong channel and when you take life out of it original channel it becomes death. Life was made and meant to live in a certain line, it don't have I live my life and you live your life it don't have that. There is only one way provided by God there is only one way for a man to live his life. This is the result of sin, lie these are the things that paralyse people faith. The power of God they're looking for, they're looking for outside power and they want outside power to come down on sin, un-confessed sin sometimes, weakness, grudges and malice and even though forgiveness is preached and to show them the great Joseph who come down in this day, the mighty Joseph unveil before us, the unveiling of Joseph takes the seal of himself.

He says, "I am Joseph." The Pentecostal, Methodist, Baptist, Jehovah Witness realize oh my goodness and we rejected you and these things and we couldn't receive this vision that you was telling me. See, and now what they do uniting the Roman Catholic power and when they reject this message, Jesus Christ the real Joseph being revealed they had to take the man of sin Satan incarnate. It have no middle ground they have to take that; what shall we do with this Jesus called Christ? Have no way to get it off your hands and that the age and that's the individual and that the church same principle.

Its a way to live your life where there is power and there is victory and there is joy and there is peace and there is union and there is leadership and there is fellowship and there is relationship,

outside of that they are trying to grow this hidden power locked up in that seed of that spiritual gene in a swamp. It can't grow in that swamp, a swamp is not the bedding ground for that kind of seed this have to fall in the bedding ground of faith. Oh my! You're catching you're understanding? Praise God.

Who is Joseph? All these series I've been preaching over these last few months. Who you all think Joseph is? You, the last day bride I'm talking about **Joseph's Hidden Power** Joseph the over comer, Joseph tried and tested before the promise, Joseph in the adoption age, Joseph an example of suffering affliction and patience that you saw the end of Joseph, you saw the suffering of Joseph and you saw the end of the Lord. Joseph the dreamer, Joseph the prisoner who come into power I'm talking about something in your life I'm trying to cultivate this, I'm trying to get that nourishment there and say have you fellowship with this part of yourself.

I've been thinking about this year, now you think of it close, has anybody done you some mischief and hurt your feelings real bad? Have you found anybody lying to you and trying to convince you that they are truthful to you and then you find out it is really lying? What they are trying to do is deceive you after they had done so much of injustice to you before and then after you see the reason and the motive sometimes for it and it is so carnal that you kind of realize the kind of value they put on your friendship and the relationship that would influence them to do such a thing. And then sometimes you get to a place and you say I can't deal with that person no more, I don't want nothing to do with them.

Them you look at Joseph here and they lie on him, they beat him up, humiliate him, they ridicule him, they persecute him they conspire against him, they throw him in a pit, they treat him evil all with intent unprovoked and this man now have them there, everyone of them in his hand and all power, he's standing there under the influence of a revelation that's telling him Joseph that was the way you have to past to get this and when he sees that he can't see what they did to him. He sees that was only to fulfill God's purpose and he realize as long as you let God's purpose govern this, that grounds of and destroys the power that malice and enmity and revenge and all these things. When people can't free their own self you have to go and try to free the criminals and say,

“its okay I don't have nothing against you man, don't bother with that that's okay.

And they still believe but you is flesh and blood life. What is going on here? How you could take that smile and say its God? We don't see God so? Where you get your revelation of God that you could accept all things work together for good?

Now how much of us does quote all things work together for good but as them things come the buck stops right there, but he had something. Do you believe the bible is telling a lie? How many believe that's God's word? How many believe God can't lie? That's the inspired word of God. How many believe that's a mystery of you? When you don't live there you're robbing yourself short, when you fail to live there you're making yourself one of the brothers. You could put people in the pit, you could shut them up in the pit, you could look for your revenge, you could lie and deceive to others concerning them but if you see that's me when I wave my forgiveness, Joseph start to wave back. When I wave with my revelation knowing that people do me evil I could see God's intended purpose and I needed that and they was just the knife inflicting some cutting on me but that knife was held in the hands of the vine dresser because they couldn't do me anything if God didn't want me. They have to get me in a certain place so my branch can't become fruitful and go over the wall and even take care of others outside this economy and though the archers shot at me, God didn't leave me in a place to take shots, he brought me in a place where I could abode strong.

And if that's the perfect church in this hour and he begin to come in the mystery, no man take my life I lay down my life because as the Ishmaelite come you could say when they come and look at this boy, fine and well cultured, he is so educated well learned, gifted, personality atmosphere because remember you could be in a piece of bag not, a three piece suit and you have that atmosphere that spirit in your life from the time you open your mouth and your mannerism and how you carry yourself they does see prince right away. Why didn't they want to buy the African king's son they seeing something standing out in their mind, that slave but in that boy's mind he's no slave, no no I'm in a strange country. Maybe they don't treat people good in this country, maybe in my country I have to be walked and be honored in my

father land but in this land here they have me chained and I'm getting whipped because that's how they treat people in this country here he say they could try to rob me of my health but they can't take my dignity from me.

David says "They could rob me of my coat but they can't rob me of my character." They can't rob me of my dignity I refuse I would not abase myself I would not carry on and get on bad I wouldn't plan revenge. He's so studying the father's name. They say, "But this boy is like no slave you all look like more slave than this boy." Because he was their overseer he say but this boy know languages but this boy is an inspired boy but this boy look well protected cared and well groomed he say what is going on here you all sure you didn't kidnapped this feller he say no I am a slave.

He didn't want to expose them because if they take him back to his father they are in trouble brother they led him dumb: he was dumb before his shearers he opened not his mouth. How many know it's a mystery of Christ? How many know when Moses... and the Lord was going to kill them Moses trembled and say Lord take me instead? It was their bad behavior to the Lord but Moses say Lord take me instead the same spirit in this boy. They say the same think about me that I ain't easy, they put me on website and all, they try to ridicule me in front of the whole world but I don't care I don't have to tell nobody about them because they're losers to begin with, corrupt tree can't bring forth good fruit neither could a good tree bring forth corrupt fruit and by their fruit they will know them.

You're seeing your life friends? What does make you turn the check? Jesus was teaching them that prayer for them who despitefully use you speak all manner of evil against you. Why is he teaching that? You know they walk away from that teaching, the crowd get small when you have to teach them kind of things. This man crazy or what. What you think people is a bunch of mucks he say this is the kind of life you have to live, the Romans oppressing we, denomination oppressing we, soldiers oppressing we and now he come talking this kind of thing. What kind of teacher is this? Is this man right in his head? Where you learn this kind of teaching from? You know what he teaching? Not to let certain kind of things get in your sub conscious mind because you're controlled from the engine room.

I'm sorry we have to close but brother you see where I want to go he's teaching that because why? In life these offences is going to come, when offenses come your anger and your flesh does rise, you get humiliated you want to defend yourself, you want to attack back and lash back somebody know something about you and you know twice time about them, your mouth want to open and go down in them things and Satan is pushing you to fight the battle that way but you know what, God wants to keep it out your sub conscious mind. It is not a flesh and blood affair, it's not a flesh and blood affair, angels taking report back to your father. You're on your way to glorification, the test is designed that way but you are conscious that is part of life. The path of life the light that shines onto a perfect day, oh my, that's why he come from the father's house to Potiphar's house, from Potiphar's house to the prison house, from the prison house over pharaoh's he was coming from one stage to the next. A spiritual evolution he was created up in the mystery, he was growing up in the mystery, it was being cultivated and every place was designed to discover the potential a little more. To learn to harness the power and learn how to let loose the power and how to work with the power because he was born to use that power. Do you know you're born with power in your life to use that power? Do you know seven thunders give you faith and that faith is to use the power? Faith to operate the word. Why is God giving you perfect faith? I prayer thee tell me because there is going to be a people in this age going to live by every word and it takes faith to live by every word. He called you from walking from the course of this world where you are walking by sight, to walk by faith he called you from looking from the things that are seen to looking to things that are not seen.

You who were dead in sins and trespasses you who were born in the humanistic realm he came down and drop down in that humanistic realm and raise you up in the realm of revelation and now you live in another sphere you live by another influence.

and when they start to tell him this look what he did then Joseph wept when they speak to him.

He begin to weep they make him cry again. Why can't you believe me? This is a picture our sins put Jesus on the cross you know that then he come back and forgive us and we still can't feel he really forgive us. We believe the voice inside of us saying he

ain't really forgive you and he says pardon I've dropped the charges I forgive you, you are free. There is no condemnation I put it in the sea of forgetfulness. You're justified, there is no condemnation out of you and God did that so we come into faith because we was born for a purpose like them brothers was born for a purpose.

Levi has to come into the priesthood, Judah has to come into the throne of authority but look at us, look at us, we can't receive. We have to believe he say it and we can't accept it. They had no bedding ground for that word, they couldn't receive the vision of him coming to power and now they can't received the word coming out of his mouth saying they're forgive.

Isn't that strange? Yet they are born in the right family, yet they have a great inheritance in Israel, yet they have a land mark out in Canaan for every tribe. Is that right? Yet all of them in birth get their name and that name is connected to a place in the Holy Ghost in Canaan land but in their experience coming to it it's difficult. Is it to difficult for you? Can you say this morning Lord I'm going to believe it? Lord I'm receiving it I'm going to take you at your word this morning Jesus. Lord write it in my heart. Lord although I don't fully understand it teach me further on it and Lord that which you're holding me and have me focus into don't let me loose sight of it, don't let me walk away from it and forget it but Lord God keep me in a place that when I go back to it and could bring it back to remembrance you could teach me further upon it. Ask him for that right now and he will give it to you I guarantee you.

Let the musicians come and play for me I'm going to have you there for about five minutes, as I say that it really get me down and bring me in closing mode. I learned that the other day let the musician come and play and it get me down in closing mode.

Now listen to this now I'm reading something here I'm closing, I'm finished, I'm going to stop here today praise his mighty name.

Your hidden power, Joseph's hidden power anytime you hear me say that it is your code name Joseph; end time Daniel; end time Esther's, Joseph perfection we are in the perfection, the mature church, the rapturing church, the church that is coming to its placing and authority, the church that have love and forgiveness, the persecuted church hold no malice and no grudges. Is that

right? A church that could look by faith by vision beyond this life even while you're living in this life you can give commandment concerning your bones because you know your destiny already. You know back in foreknowledge and you know predestination.

Perfect Faith he's reading Mark 11; Jesus said unto them that whosoever say unto this mountain be though removed and be though cast in the sea and don't doubt in his heart but shall believe in those things which he said shall come to past he shall have whatsoever he said.

The man who could believe and don't doubt in his heart your sub conscious a man saying it here he believe here but he's doubting in his heart here, here he has a word of knowledge here he reads the bible, here he reads the message and he retains and rehearse and he learns but here is where he has to operate it and make it happen. It is in conflict with what he knows and teaches God had to teach Joseph about that.

Look at Moses forty years after they say who do you think you are? You want to rule over us? You want charge over us? You want to kill us like you killed the Egyptian yesterday. Moses get scarce Moses love was trying to unite them, brother we are one be united. No! You come as some Lord or some ruler over us? You what to kill me kill me nah? You think I is that Egyptian you kill yesterday? Moses takes off forty years after, eighty years old now, God come and say Moses I'm sending you to deliver the people down in Egypt. He says, "Lord they ain't going to believe me." Forty years did not erase that he still had the complex of being rejected, humiliated, ridicule because he was trying to help people, until God come and say "what is that you have in your hand he say they will believe you now with this."

Remember also David, David and Saul, Saul persecuting him, persecute him, persecute him because the people was singing David killed ten thousand Saul killed one thousand brother that get Saul crazy. Jealousy and envy is powerful poisons, it is spiritual cyanide people take in their system. What look harmless and is powerful in an industrial age, carbon monoxide going up in the atmosphere and out of site out of mind now that little thing that disappear after a little while warm up the planet, melt the glaciers, destroy the ozone layer, change the weather pattern and man can't even predict the seasons no more and storms get more violent the

hurricane get more explosive because sometimes people trying to work along one line seeing advancement seeing progress but that's not God's provided way. When you watch the destruction that comes now they realize we have to get cleaner air. You know what they trying to do? Clean up the air now they are trying to clean up the ocean now, they are trying to plant back more trees as they could. Man again all he's trying to is save himself and save the world and God already send his son to die to save man and save the world and they are trying to do by science what God done do already.

Friends you don't have to try to reform yourself, you don't have to try to educate yourself in religion, you don't have to try to compete in religious zeal God want you to take that word in your heart. I'm reading the word of the prophet in the morgue you might be in your morgue on your slab this morning, God send brother Ken to tell us that little story and he put himself in it and say I was on that slab and I see that crimson stream, he saw it in a young virtuous woman, type of the church undefiled church, separated church from the world this plague in human form, a written epistle read of all men, the results of the power of the blood that God put on display in a university full of beatniks and punks everything else. Couldn't God do that again? Put a church now undefiled, separated, spirit filled isn't that God's plan for the age and that get a beatnik who used to be on drugs drunk out in the world carousing, that had enough power to pull him all the way and what pull him he come in union with. Think of it. Isn't the one that he pull is going to come in union with him?

Isn't that what Joseph was doing? I'm Joseph you thought you kill me you meant it for evil but God meant it for good. You didn't send me, you didn't do me nothing, that which they thought they do was already planned before the foundation of the world. He got up into the sovereignty of God where he was living because to live there he have no enemies to live down here you have to compete with, fight for, put up with, fuss with, sin everyday, shut out attack, defend but up here he walks in God's presence.

Like I say a couple years ago well boy you get beat up take some beat up for the Lord, praise the Lord, laugh at it and just go on. I tell people that I say ask people in my church, I come and ignore that thing. I say is this me that's nothing and I just preach.

You look at me funny that's what you do and these people still trying to find... Years ago I preached a message **Death The Bride's Victory And God's Anointed Yet To Die** brother Sammy and brother Rienzi was coming down the coffee and just so we cross the road and walked into Belgroves funeral home and there was a person in a coffin we all stood up there and I make a statement and say, "I say you could tell that person what you want, tell them you're a dog, a rat, an old stinking critter, a pole cat the worst of names. You could spit on them and kick them and you could spit in their eye that person can't respond because they're dead. They have nothing to respond and fight you back." I say, "That's the way we have to be in this hour." That's way they say prophecy who hit you, look at him come down and save yourself. You can't save yourself look at you humiliated. They wasn't right he say "No man can take my life I lay down my life I have power to lay down my life, I have hidden power to lay down my life, Jesus' hidden power to lay down your life.

Jesus stand on earth a message called **He Knew Who He Was** he says, "I have power to lay down my life I have power to take it up again." No one can take it, I now have the power to lay it down and I have the power to lay it down again this is the real Joseph. Any man or woman that is born of God knows exactly where they stand regardless of what takes place or how many says yes or no. They know where they stands there is no uncertain sound, the man who possess it, the woman who possess it, oh what a blessed person they are. No wonder David said they were blessed, a blessed person lay him on the operating table they tried to cut the blessing out of him, no it's a hidden power, it's a hidden something but it is there every man or woman that ever had it, know they got it. No uncertainty about it every man that had it had something different, the world knew it, every woman who had it had something different the world knew it.

The world can see it, your actions prove what you are, you can say you got it but your actions speaks so loud they can't hear your voice. Your life speaks what you are. They throw Daniel in the lion's den no uncertainty he stood there he had hidden power, not a rabbit foot in his pocket or a charm to wear around his neck, they throw him in the lion's den he had hidden power.

He says, “they make me sick with all them charms and different things, them Catholics and Protestants and them with no virtue in them. You ever see people with big long cross on their necks, cross in their car and everything else hear. Its all right to have it but to worship it the way you do, hang it in your car, you think it would keep you from having a wreck. It won't, it won't do it only the hand of God can do that and he give bible illustration; the brass serpent was alright there was no condemnation in the brass serpent but when they begin to get away from God and worship the serpent the prophet tore it up there.

You are Daniel went in without any uncertainty God was able to deliver him from them lions but they threw him in the fiery furnace and I believe when them lions stood there and looked at him there stood a halo of fire around Daniel. Any animal is scared of fire you know that those lions backed off. What was it? The hidden power that was in Daniel come out and clothed him all over.

I have to show you that in those pictures you know. Standing in Siparia one day, they thought was something on the inside come down when they took it out with a camera something on the inside come out.

In San Salvador that hidden power that we are talking about here it come out and shroud around him like a cloud all over and he stood there, hidden power, something in you, you shake somebody hand right there you know you love them. You walk in a room and like you put on a light in a dark room with your atmosphere. You are the light of the world, a city on a hill that can't be hid, a lamp that's put on a lamp stand to give light. It is what you are and they get in contact with you, they get thirsty, it is a salt, something salty create a thirst, just contact does create a desire. Check your life sometimes that's what he made you, you're living far below what he made you sitting down there with some kind of outside power and sitting down there with your malice and envy and competition and strife and confusion in your mind and uncertainty and waiting on an outside power to come on that. No! You don't add to a seed.

That beautiful lily was in that seed and that lily was in that muck and miry but that risen sun pull it up where it ought to be and when it came forth he don't have to advertise, I have virtue I have nectar all you bees past by here, they could smell it from a mile

away. Them birds fly and drop down right there and coming to get their portion, the passerby comes and gets their portion, the whole environment is beautify, why? That risen son wanted a testimony there so he pull that out and bring it a separation, a total separation from that dark world from that muck and miry to put you on display to the rest of his creatures and give you something to give out to them that hidden power was locked up in him all the time.

Sometime to get it out you have to crush it like the lily to get the opium out like the Rose of Sharon. You know what that crushing does? It makes a priest go into the presence of God. That opium you know what it does it make a man all fluster and under pain and intense suffering get calm and peaceful but that's how it is extracted, a little crushing in Joseph look what it brought to all the world.

A little crushing in you, look what is coming out to the world friends. Lets stand to our feet and sing this little song

I want to live

I'm going to live - my, with purpose in my heart today

Jesus on that cross even to the very end after they put him there, he was so determined to guard that subconscious.

Now that's the wrong thing you're doing, you don't move around at the end of the service. You sat in that seat that's the time you wait. Trained believers that's the time you wait when you're hearing the word the right way. You can't get up and walk up from that seat, that's the kind of persons who comes back in prayer line over and over, well that's the kind of people that come in with a church mentality most of the times because some of these things you have to sweat it out friends. Some of these things you are pulling on the breast of El Shaddai for it, some of this thing you want to get down in them places because service to you is not attendance service to you; you come with a purpose in your heart don't you want to lift your hands and say I going to live the way you want me to live. Look how many want to run out their seat and they don't want to sing that song.

I'm going to live the way you want me to live

I'm going to give until there is just no more to give

I'm going to love until there is just no more love

I have purpose in my heart to love anyone that I may have under guilt and condemnation for some offense committed against me

I could never ever outlive my lord

There was time when giving and loving brought pain

Stephen with his head being bashed in say I forgive lay not the sin against their charge. Jesus died he say Father forgive them for they know not what they do.

I didn't understand I would never let it happen again

Oh but as God begin to lift me up from that humanistic realm to the realm of revelation I believe in his sovereignty I found out that loving was well worth the risk

And that even in loosing I win You mean that as a prayer, you lift your hand to him a sign of surrender is a lift your hand to him, submit your heart and your will to him and make a confession to him.

I'm going to live the way you want me to live

I'm going to give until there is just no more to give

I'm going to love until there is just no more love

Not by might or by power but by my spirit the hidden power in your life. Through Christ you can do all things that strengtheneth you I show you a more excellent way, God's provided way.

A way that your faith will not be paralyzed your spirit will never get bitter, your power will never be ground off and you can stay in union under his influence under his power to live and walk in his presence.

I could never ever out live my Lord

Oh Jesus showed us and Joseph was the Jesus of the Old Testament

Only through dying we live isn't that true

And he gave when it seem there was no more to give

Jesus loved when loving brought heartache and lost and he forgave on the old rugged cross

I'm going to live the way you want me to live

I'm going to give until there is just no more to give

I'm going to love until there is just no more love

I'm going to give - my! my way and take God's way today even while I stand here in his presence and I take inventory of my life and I find them places where I differed and disagreed and became contentious and come in strife and get enmity out of a root of bitterness, I'm going to pull it out I'm going to root it out today.

I'm going to say God permitted that I'm going to say God had a purpose in that and I'm not going to be flesh and blood, I'm going to climb up into God's purpose.

That his life, his power is going to be let loose in my life

Oh you're a believer take a believers' hand right next to you and sing it.

Jesus showed us that only through dying we live and he gave

By this love shall all men know you are my disciples as I have love you so you should love one another. Bear one another burdens and fulfill the Lord's... think on the things of others, forgive seventy times seven they cried Lord increase our faith.

Just like Stephen that same life of Jesus came back in the church and Stephen did the same thing, the God who was with us is in us and manifested the same life.

Oh God we stand united in your divine presence today looking unto you the author and finisher of our faith desiring to grow in the knowledge of this hidden power and the laws by which we can cultivate it and see it grow and developed until we are so filled with it that we can live by this law of faith and love and see real forgiveness. Lord where we can speak and don't have to doubt because we have within our hearts we can believe within our hearts and receive what we have asked for because that subconscious is clear said from the uttermost could come forth.

Oh make me more like...

Brother Vin leads the congregation in singing. Talk to the potter he's the great potter maybe that's the places where you are marred, maybe that's the crack in your vessel may be because on insecurity you compete and you fight and you're always so defensive maybe because you are so insecure and you have no contentment and peace you become so self-centered and selfish but you realize that's when you walk by sight. To live in this humanistic realm seeing each other but there is a greater way to come in the realm of God's purpose.

Every head bow and every eye closed.

I would like to invite brother Samuel Johnson to come and prayer. Ever since I know brother Sam as a young boy when we came to the Lord together how he love to prayer, how God put the grace in his life. Way in the night and very early in the morning he would rise up in the morning and get out and prayer many times.

We were out there in the bushes sometimes I was sleeping there I would hear him already up praying. All these years he just walked so close to God still a man of prayer and have confidence that when he prays he prays from his heart. Pray with the understanding of the spirit, he's a man with an understanding of the word I believe today as we prayer we would join in faith all throughout this building looking for deliverance looking for these poison acids of malice and these things that kept men who was born in the house of a prophet father, ordained for the purpose of God yet they couldn't get away from the condemnation to walk in faith.

They couldn't accept their forgiveness yet they live so low they couldn't climb up where the possibility existed to climb up where Joseph was, to live there with no grudges, to view life from God's perspective to know it was pre-planned even before the foundation of the world and God put the equipment even before he sent you to deal with everything that you will be confronted with in life's journey and the Holy Spirit giving access. A gift, a deposit in Joseph's life he could have drawn from God inspiration he know how to handled every situation in his journey, in his sufferings in his rejections even when power came into his hands he was merciful he was loving and forgiving having power in his hands to do whatever he wanted. Revenge couldn't even come close to him because of where he lived and where he grew he was planted by the well he was a fruitful bough.

Be that my brother my sister because these things are demon power you let into your life in germ form it get you sick in your body and death in your soul.

Don't view these things God's word is spirit and life Satan word is spirit and death, one is a seed of faith, one is a seed of unbelief. Life and death friends, let go be loosed today move up into the realm you can revive this word I believe God is here to make that promise good to everyone today if you hear his voice and you mix it with faith, it will profit you much.

Stranger visitor whoever you are lets just believe, lets have respect, let every heart and mind be centered upon him if two shall agree upon touching it shall be done. Its no secret what God can do if you ask for a bread you will not get a stone believe for your deliverance on these things, purpose in your heart to lay these

things aside this weigh and this sin that has beset so many. Let faith come in instead of unbelief let love come in instead of hate, let peace come in instead of confusion, let joy come in instead of frustration, let victory come in instead of living in fear and defeat have faith in God believe as our brother would prayer.
