Bro. Vin A. Dayal

FOREWORD

This is a sermon preached by Bro. Vin A. Dayal and is published through the freewill offerings of the members of the Third Exodus Assembly.

It is intended to edify the reader and make clear the Bride-Promises of God, which were revealed through the ministry of God's Prophet-Messenger, Bro William Marrion Branham, for the Elect in this Day. It is not meant to promote any special doctrine or person, save, the Lord Jesus Christ and His Divine Word.

The original video and audio recording can be accessed through our website www.thirdexodus.org

We pray the blessing of God upon each reader and may illumination by the Spirit of God be each one's special portion.

Excerpt:

Now communication systems have always been a great influence and a great power in every form of society because there has always been a desire in man for communication; always been a desire in man for communion. It was one of the three things that man lost in the Fall: Eternal Life, power over the Earth, and fellowship with God. And Adam had a special sense, a super sense – faith, that linked him up to God that he could receive inspiration. He was a channel of communication for inspiration. That was the Prophet's terminology. He said, "Job was a channel of communication for inspiration." There was a link to that theophany. There was a link with omnipotence, with omniscience.

SUNDAY 16TH JULY 1989A.M.

BRO. VIN A. DAYAL

Shall we all stand one more time? Let's just sing: *Welcome, welcome, Holy Ghost we welcome Thee. Come in power this very hour.* How many come expecting to hear from Him today? I believe we have certainly been blessed already. On this resurrection morning, we can feel His Quickening Power here moving amongst us. It has been a real moving time. We all felt His Presence in our hearts and we are certainly happy to be a part of this great dedication. I am glad that the Lord didn't leave me out of this one. Amen. I believe we all feel that way in our hearts because I always say, here is like a second home away from home for me, and I am certainly very thankful.

Let just sing this song as we get ready for His Word.

[#537 - Songs That Live -Ed.]

*Welcome, welcome, welcome,
Holy Ghost we welcome Thee;
Come with power this very hour,
Holy Ghost we welcome Thee.*

Oh, one more time with all of our hearts, everyone in unity.

*Welcome, welcome, welcome,
Holy Ghost we welcome Thee;
Come with power this very hour,
Holy Ghost we welcome Thee.*
Shall we pray one more time?

Our gracious, heavenly Father, how thankful we are, Lord, today for such a great and blessed opportunity to be gathered together in Your house, Lord, to lift up holy hands and to praise and magnify Your precious Name. Truly Thou has done great things for us in our midst, great things in our lives, and we are so thankful, Lord, that Lord, You remembered us and made us part of this great momentous occasion.

Lord, we thank You one more time for all the good things that You have done, Lord, for each and every one of us here, from the greatest to the least. And, Lord, seeing Your great Presence here today. Lord, just thinking of the Scriptures; the brothers were speaking, Lord, of the experiences that they have come through in their former building and then moving over into this building. Lord, You said in Your Word, the glory of the latter will be greater than the glory of the former.

Oh God, may it begin today with a great, glorious, (Lord) manifestation of Your Holy Spirit, Lord. Lord, may You do things that we will long remember this day. May, oh God, when we leave this place, Lord God our hearts, Lord, will be so transformed, even bringing us into a closer walk with You until there is nothing between our soul and our Saviour. Bless us today, Father, in a special way.

And as we open our hearts now to receive of Thee, Lord, may You pour out Your Holy Spirit. May You pour out the revelation of Your Word. May no man be seen. May no flesh be seen but may Jesus Christ, the Lord of Glory, manifest the glory of God here today. Lord, we'll not fail to give You praise and honor and glory. For we ask these mercies and blessings in Jesus' precious Name, amen.

Shall we turn in our Bibles; we would like to turn back to Genesis again, Genesis Chapter 10. I am certainly happy and I feel really good. I feel like I could preach for about ten hours right now. Amen. We are not going to keep you that long, but we just want to be

so in harmony that this great Holy Spirit just overshadows us and gets down to the minutest need in our lives, and touch us in such a way that we will know it is He, Himself in our midst.

We've certainly been rejoicing and being blessed. As the children were singing the song, I just know that Jesus loves me. Amen. We certainly know He cares for us just by the way He has blessed us in these meetings.

Genesis 10 verse 5. In verses 2 to 4, It was speaking about the sons of Japheth. Bro. Branham said, "Ham, Shem and Japheth's people are who populated this Earth." [1961-0318 - Abraham's Covenant Confirmed - Para. 26 -Ed.] And he was giving a breakdown. I think maybe we should just read from verse 1. Genesis 10 verse 1:

¹ Now these are the generations of the sons of Noah, Shem, Ham, and Japheth: and unto them were sons born after the flood.

² The sons of Japheth; Gomer, and Magog, and Madai, and Javan, and Tubal, and Meshech, and Tiras.

³ And the sons of Gomer; Ashkenaz, and Riphath, and Togarmah.

⁴ And the sons of Javan; Elishah, and Tarshish, Kittim, and Dodanim.

⁵ By these were the [borders] of the [nations] divided in their lands; every one after his tongue, after their families, in their nations.

⁶ And the sons of Ham...

Verse 20. Let's just drop down to verse 20.

²⁰ These are the sons of Ham, after their families, after their tongues, in their countries, and in their nations.

Verse 31:

³¹ These are the sons of Shem, after their families, after their tongues, in their lands, after their nations.

32 These are the families of the sons of Noah, after their generations, in their nations: and by these were the nations divided in the earth after the flood.

So each one of those sons had their tongue, had their nations, had their borders and they were all laid out there.

Now Genesis 11 verse 1:

1 And the whole earth was of one language, and of one speech.

2 And it came to pass, as they journeyed from the east, that they found a plain in the land of Shinar; and they dwelt there.

They were looking for a specific location and they found a certain plain.

3 And they said one to another, [Come], let us make brick, and burn them thoroughly. And they had brick for stone, and slime had they for mortar.

4 And they said, [Come], let us build us a city and a tower, whose top may reach unto heaven; and let us make us a name, lest we be scattered abroad upon the face of the whole earth.

5 And the LORD came down...

You know, every time we read 'and', it is a conjunction. It is not just happening instantaneously, it's over a long period of time.

5 And the LORD came down to see the city and the tower, which the children of men builded.

6 And the LORD said, Behold, the people [are] one, and they have all one language; and this they begin to do: and now nothing will be [withheld] from them, which they have imagined to do.

That was a great—a tremendous achievement: each one divided in their own place; each one had their own

tongue. It developed and developed until they became one language, one speech; had a headquarters and was now going to link Earth and Heaven together in a great program. They had one fear: that they were going to be scattered. And then God, the Lord Himself descended from Heaven.

God came down in a time when all this unity was taking place on the Earth, when man was trying to link Earth and Heaven together; when they came in a great ecumenical move and were becoming one people and one language. It is all happening again. And the Lord said, "If they achieved so much, think, what they've purposed to do, now nothing will be withheld from them." They are talking about putting up a space station. They're talking about exploring the galaxies.

⁷ [Come], let us go down, and there confound their language, that they may not understand one another's speech.

Now when the Lord looked at this great unity, this powerful system, all these nations so connected together, He looked for their strength. He looked for the thing that would break their power. Now it was faith versus wisdom; were two intelligences here. And God was looking for the place that was going to bring to naught their project.

And maybe one of the angels said, "What about an earthquake, Lord? Shake the whole thing down."

"No. That won't do it."

"What about a tornado? Tear the thing apart."

"No. That's not the right thing here."

He was looking to strike a fatal blow to cripple the thing. And He found their language, the thing that bound them together, in other words, their communication system. He was going to disrupt their communication system and that would break their power because that was where their strength was. That was what bound them together.

⁸ So the LORD scattered them abroad from thence upon the face of all the earth: and they [ceased building] the city.

They had to disband their whole project.

⁹ Therefore is the name of it called Babel; because the LORD did there confound the language of all the earth:

See what He confounded? The language of all the Earth. They had their communication system, the language that united all the Earth together.

...and from thence did the LORD scatter them abroad upon the face of all the earth.

One more Scripture before we have our seats. Let us go to Revelation because that is where we like to preach. Bro. Branham said, "For us to know it is right; it must be from Genesis to Revelation." Revelation 11.

And from those three sons of Noah, peoples have populated the Earth today. God divided them by mountains, divided them by oceans, divided them by deserts, divided them by seas but that doesn't keep them apart anymore. They have come back to what they call The Global Village. The world has become so small.

Bro. Byskal was speaking this morning—the brothers from Singapore, the brothers from South Africa, and the brothers from here, just called this morning. He was talking to them maybe downstairs and we were upstairs just a few feet away and couldn't even hear a word. And millions of miles away, he was speaking to them like that. As they would speak, he would hear their voices right there in his room.

Revelation 11:7. This is at the end of the seventieth week when the ministry of Moses and Elijah has come to an end.

⁷ And when they shall have finished their testimony, the beast that ascendeth out of the bottomless pit shall make war against them, and shall overcome them, and kill them.

It didn't say how, whether it was snipers, high powered rifles, infrared lens in the night; whether it was a SWAT team, whether it was some assassins or somebody got a contract to do the killing. It didn't say how. It just said he shall overcome them, and kill them.

⁸ And their dead bodies shall lie in the street of the great city, which spiritually is called Sodom and Egypt, where also our Lord was crucified.

So right away It gives us the location. Geographically, it will be in Jerusalem and it will be on a street, and two men's bodies will lie on a street. We have a little place here where hundreds of people gather right here. Think of how much space it is going to take just for two men's bodies to lay in a little place, on a certain street, in a certain city. And this is the interesting part now.

⁹ And they of the people and kindreds and tongues and nations...

All these people who were scattered throughout the whole planet in Babel in the beginning.

...shall see... [That is the optic nerve – seeing.] ...their dead bodies three days and an half, and shall not [permit] their dead bodies to be put in graves.

Whether they are in China, whether they are in Russia, whether they are in the Caribbean, whether they are in Argentina, whether they are in New Zealand, whether they are in Australia, they shall see their dead bodies – television. They are going to stay where they are and see straight in that city and see those two men lying there dead. It gets more dramatic as you read. Listen.

¹⁰ And they that dwell upon the earth shall rejoice over them, and make merry...

Two holy prophets of God killed and the whole world, the nations will be rejoicing and be happy? What kind of appetite is that? One that is being fed with all kinds

of killings and murders through the fourth dimension. It is the kind of thing that excites them: "Zap them out."

Oh, they began to make merry because these men were like saboteurs. They disrupted their water systems. They disrupted the communication systems. They caused chaos on the Earth. They caused heat waves to take them. They brought diseases upon them. And they were so mad and that nature for revenge, that appetite to strike back, brother, the reward was going up higher and higher for who will get these two men and put them out of action. Now they were looking at their dead bodies. Oh, they began to rejoice, they won the battle over them. You see?

...and shall send gifts one to another...

And Bro. Branham said, "That's the Roman power that always does that." Now remember at the end of the seventieth week, it's a world state now we are talking about. We are looking at a world state here. We are looking at the Beast, the Gentile world leader, Nimrod, Satan's superman on the planet. That is what we are looking at. All the money is tied up, everything, already. He is in total control. The Bride is in Glory. And that is not too long from now because it is not too far for us to go. We are already being taken up.

...because these two prophets tormented them that dwelt on the earth.

¹¹ And after three days and an half the Spirit of life from God entered into them, and they stood upon their feet; and great fear fell upon them which saw them.

They don't believe in miracles. They are going to see a real, live miracle on TV. Sure! They are going to see a resurrection taking place. But do you know what is going to happen? Brother, they may have an interrogation. They may say, "Find out if it was some invisible cords. If we have people in the department who are responsible for guarding these things; maybe it's a double agent or something and they had an invisible

helicopter up there, flying at a certain height that pulled them up or something.”

They won't believe that maybe those two men just got up and are breaking the law of gravity; no backpack, no special anything, just going up like that. They'll say, "I thought that was way back when Jesus died and rose. I thought that was some historical thing." They are going to see it live on TV. It won't be a science fiction, it will be real.

...and great fear fell upon them which saw them.

¹² And they heard a great voice from heaven [these are the two prophets now] saying unto them, Come up hither. And they ascended up to heaven in a cloud; and their enemies beheld them.

Their joy was short-lived. May God add His blessings to the reading of His Word! You may have your seat.

I want to continue speaking, but I want to take for a title this morning, "**BEHOLD THE PEOPLE ARE ONE AND THEY HAVE ALL ONE LANGUAGE**". That is a perversion but there is a real to that. I believe in these meetings we see the people are one, and I believe we have heard one Language through these services. Amen. And I want to take for a subject, "**The Evolution Of The Communication System And The Opening Up Of The Fourth Dimension For The Mind Age**". Amen.

You see, Bro. Branham said the fourth dimension was here when Adam was here. He said it was here when Moses brought them out in the exodus; when Elijah sat on Mount Carmel but they are only now discovering it. They are now beginning to locate it. My!

You know, we used to read the Bible, we never understood anything about how those prophets saw those visions, what was taking place and these things until the Prophet came. Then our whole religious concept and understanding of the Word of God had to change because he wasn't religious. He was a spiritual

man, a Spirit-filled man. Amen. Here was a Prophet now, began to take away this whole religious veil of traditions and these things away from us and brought us into the Presence of God now, by a real understanding. You see?

And here it is as we look at this, if you remember in the Bible in 2nd Samuel 18 when Absalom had died, remember how after Joab had killed him, then they wanted to send a message to the king. And the priest's son, Ahimaaz I think his name was, rose up and said, "Let me go and bear tidings."

And Joab said, "No. You stand aside." And then a Cushite came up and he said, "Okay, go and bear tidings to the king."

And they were runners because that was the communication system in that day. And the runners would take the message and they would begin to run. They would run. They would stop for no man; salute no man along the way. And they were running with the message. And Bro. Branham preached that beautiful message about running with the Message, and that was their communication system.

Also in the Book of Esther, we were reading here, I think when Bro. Harold preached for us. When they got the king's decree in writing, they said, "Publish it. Send it out by post to all the peoples in the kingdom, to every nation and language, and people." And they would get on their horses and ride with it maybe and go to far lands, carrying a translated message to a particular language, to a particular people. It was their communication system.

Also in 2nd Chronicles 30 and in the Book of Daniel also, when they were going to worship the image and they got all the people gathered together, different languages, different nations, different kindred and what happened was: A herald, It said, stood up and began to speak. Now he was like a Minister of Media and Information. It was their communication system to

make known to this great, vast kingdom of so many different nations and peoples, what was now state law because they were subjects of that kingdom. But as we look at that, that is a very primitive form of the communication system in operation as compared to today.

If they wanted a message that the king's son had died, they didn't have to send a runner. He didn't have to run whole night and run over hills and valleys and do all of this, and finally almost collapse at the king's feet, and then have to go and get refreshed and then tell his message. No. The king could stay right there; they'll say, "We are transmitting live from here." And the king will see the action. He will see how they are hunting him down, and a live news flash saying: "The king's son has been killed this morning. Here is a picture of it." And if you want an instant replay in slow motion, you'll get it back in slow motion too. If they want to hold it still right there, they'll hold it still right there.

So we realize there has been a development, an evolution of the communication system. Until today, we are seeing a very highly developed communication network system operating on a global level. Now a lot of these things, we come into it because of the way the society brings it in. It becomes normal, everyday life for us and we fail to see and understand what is happening in the world, how the world is being reshaped, and we fail to understand that right there is evidence of a truth. Because science only brings these things out in a perverted form when it strikes the natural realm, but it is speaking of a true spiritual representation in another Realm.

The Prophet said, "The angels are here just like television." Another dimension. He could sit like that and...

I heard Bro. Blair tell this testimony of when he was sick and his wife was there, I think in a telephone booth, and she was trying to get the Prophet. And finally, she

was able to speak to him and he was in another state thousands of miles away, and he said, “Sis. Blair, that bandana you have in your purse there, take it and go and lay it on your husband.”

He didn’t need CBS to get their camera and transmit that there but if CBS was there, they would transmit it and you could have seen it, and he could see it without CBS. And what the camera would have transmitted to us would be nothing different to what he was seeing. But because with our sight, we are limited, we are subject and we didn’t come here with that gift, we need an extension of our senses. And science has given us an extension of our senses of seeing and hearing.

So they say *tele-vision*, *tele-phone*. *Tele* means *far*, *at a distance*. Elisha used to sit there and hear things in the king’s chamber in Syria; see what they were doing. And television was there. They didn’t have it in the scientific form but those prophets used to go into that dimension and get those things because they were God’s newsmen. They were bringing the Gospel, the Good News. Hallelujah. Brother, they brought weather reports, everything. Noah said rain was going to fall. Elijah said rain was going to fall in abundance. Amen. They operated in another realm. Amen.

So when we look, we see in this Day, this Prophet who was sent to bring that Message that was going to gather the Bride together and show Her how to enter into Rapturing Faith that She could even come and be linked up with Her theophany, that he was linked up with omniscience, he was linked up with the power of infallibility.

While America here with the CIA and the Pentagon were trying to understand what was going on in the KGB and the Kremlin and all these things; on *Spiritual Food In Due Season* [1965-0718e - Ed.], Bro. Branham, speaking there about Elisha knowing about the plans of the Syrians; he said, “If only that nation knew the power that laid in that prophet.” They would not have been

trying to send double agents and spies and all these different things. They could have come sincerely and ask the counsel of God from the Prophet. He would have stayed right here and looked straight over into the KGB and said, "This and that is happening."

It's an Age of information. They began to talk about global telecommunication systems and are boasting now: the world is becoming smaller each day, until it is called The Global Village. Because, back there, they had A Global Village too. Everything came right down and concentrated like that, but God enlarged the world when He disrupted their communication system. And He didn't mean it to be permanent, otherwise, His purpose would be defeated because they are united back today. But God Himself told us, they were going to come back to a World State. All ten kings would have one mind and give their power to the Beast.

Then we see the whole world connected, seeing that event. And all were rejoicing, whether they were Germans, whether they were Spanish, whatever tongue they were, they were rejoicing when those two prophets died because those are the same Gentile nations who have rejected this Gentile Prophet. And the reason the world is in that hideous condition is because they rejected the Holy Spirit that was bringing that call through that Prophet: "Come out of her My people and be not partakers of her sins. Come out of Babylon." And they failed to see what that was, there.

And that is why, in rejecting the Holy Spirit, they have taken the mark of the Beast. And here now, Moses and Elijah (all that they learnt in Bible school, all that they have all their churches there talking about was actually right there), the two men were walking around doing the same things. But their minds were in an insane condition; they rejoiced over the destruction of them.

We could look back at the days and see how communication developed. I didn't live in that time, but through those Western movies, we used to see how

those smoke signals... The Indians used to send smoke signals. Sure. And brother, they had their trap set. And sometimes somebody who couldn't read the signals, they would think, "Hmm, it's a big cook going on here. Maybe it is a bushfire." But they were transmitting certain signals maybe saying, "Troops coming, about five hundred. Enemy; prepare for an attack."

And if you couldn't read the signal, if you had nothing to interpret the signal, you were in trouble and they had military power over you because of their communication system. So they could manifest a superiority because of the technology that they developed. Because the man who was traveling there on the horse, he was bound in five senses and he couldn't see maybe beyond the corner. But that smoke signal was traveling and the people at the different outposts knew that that was their signal being transmitted to them, and they were receiving it and preparing for an invasion – in a primitive world.

Then you had message sent by drums. That was a technology in sound, through the sound waves. They beat the drums and maybe the people were in a big safari or something out there and they were going through the jungles and they began to hear the drums being beaten. And they didn't know what it was saying. It was a strange sound. They couldn't relate to that type of sound. It was a certain type of beat. It was a certain type of rhythm but it was a message being communicated.

Now the signals are not smoke signals today, it is satellite signals. Look how far it has come and look, it is being used for the same purposes on a higher level. Then we see, as things began to increase, came in the era of the Pony Express. And they called it 'express' because these were special men without much load just carrying this mail because they saw the need to have

communication, and with speed because the world was changing.

Then there were the carrier pigeons, your airmail. And they would tie messages and send airmail. Today it is fax machines. Sure. No, it may sound humorous, but it is something very serious when we see the Hour; when we see this great hunter who has hunted, who has trapped the whole world; who is coming to take complete control. It's souls in prison now. They have been blinded by the god of this evil Age! But the Seven Seals were opened to uncover the scheme, to pull a Bride out, to reveal the deception, (amen!) to gather a people and bring them into oneness under the plan of God, real oneness! Super sign – God and man uniting together.

Then from there came in the telegraph, then the telephone, then the television. It was a constant development in the communication system. Then today, we see now, land and sea and deserts and mountains and all these things are no more barriers because now, there is no distance and there is no time that's a problem for the communication system of this present world.

The last time I came up here, we moved around. Normally, we would drive around in the car and Bro. [name inaudible -Ed.] would call from home and say, "Look, I have to go down in the office, this and that. Let me go back and check in the office." Now, this time, he has a little phone right there in the car and he can call; because the science is progressing to a higher level. See?

Now communication systems have always been a great influence and a great power in every form of society because there has always been a desire in man for communication; always been a desire in man for communion. It was one of the three things that man lost in the Fall: Eternal Life, power over the Earth, and fellowship with God. And Adam had a special sense, a

super sense – faith, that linked him up to God that he could receive inspiration. He was a channel of communication for inspiration. That was the Prophet's terminology. He said, "Job was a channel of communication for inspiration." There was a link to that theophany. There was a link with omnipotence, with omniscience.

And sometimes people want to intercept your program (see?) and distort your program. Like when he was sitting there for *The Seals* and Satan was trying to intercept. You see? He said, "Well, I am going to go there and say Dr. Scofield said this and this and that; Dr. Larkin said this and that." But all of a sudden, brother, here comes the transmission from Heaven. And he said, "As certain as I stand on this platform, the Holy Spirit today came down in that room and revealed the Seal." He said, "I know it is THUS SAITH THE LORD."

Now, what was it? He was linked up with omniscience. And here it is, the whole religious world in its development had probed and probed and tried to break in there. But you see, God had it descrambled. They couldn't get it (amen), they weren't built to go in There and get it. But here was one, brother, who could slip in There and come back out with these Things. But look at something.

Adam now, he lost his channel of communication. It was disrupted in the Garden of Eden. He was thrown into chaos and darkness because he could no longer receive inspiration from God. He no longer had Divine leadership because he went out to try to cover himself and what he used, God had to tear it up. You know Adam and Eve were the first tailor and seamstress. They had the first set of designer clothing; Adam and Eve. Sure. And then God just tore it up and clothed them in something that would cover them, that He will see them the way He wanted to see them. Amen!

And then we notice also, that that union with God and man was broken: he lost his communion; he lost

his fellowship. And what do you think caused that? He listened to his wife. She had gotten under the influence of another channel of communication, another image; another voice (you see?) that was being transmitted into her set began to have influence and control her mind and then her behavior changed. And then she came now, with this new image and with this different behavior, influenced by what she received there and began to reflect that image and that voice to him. Do you understand what I am saying? Because Adam was made in the image of God. The Serpent wasn't made in the image of God. That was another image. That was another voice.

What do you think comes through that fourth dimension? Images and voices. When you have a dream, what do you think you see? Images and voices. When you look at a TV set, what do you think you see? Images and voices. What is influencing the whole world and producing a different behavior in the lives of people today? Images and voices. Amen.

So when he listened to her, that linked him up with his wife and his wife was linked up with the Serpent who was linked up with Satan. And Satan was in total opposition to God. And then once they were linked up with that type of thing, they were in another channel so they couldn't really communicate with God; couldn't really have that fellowship. But isn't it tremendous how the Blood made a way back? Amen! Hallelujah!

Now watch here in Genesis 11 as we took it. Right here in this one Scripture, we see so many things. Because as I was saying yesterday, Genesis is seed form; genes, seed, the Book of beginnings. So when you read Genesis, you have to take the microscope because everything is in potential form. It is in the form of seed. Revelation is Harvest Time. It is the full manifestation of what was planted in Genesis. It only developed through a law of reproduction.

So here in Genesis 11, we see communications: one language, one speech that bound them together, that they became such a powerful force that the entire Earth was subdued under them and had to come and pay tribute to that city, which was where satanic religion had its origin. It was a perversion of the Heavenly Jerusalem. The tower was a perversion of Jacob's ladder and Jacob's ladder was only a symbol of the Son of Man Himself. Is that right? Sure!

Jesus told Nathanael, "Because you see these things and you believe," when he saw the discernments; He said, "you shall see greater things. You shall see angels ascending and descending upon the Son of Man." Then Bro. Branham drew that thing there, the Stature of a Perfect Man: God at the top (amen); man on the Earth coming right up through a spiritual evolution to link back up with God! Seven Angels on that ladder bringing messages to man on the Earth, that he could come up into an evolution as he feeds on that Word, that sevenfold plan of Redemption, those Seven Seals! He could grow and be formed in the very image. That is the gate to Heaven, (hallelujah!) not Babylon! That was the gate to Heaven! But they were trying to get through a scientific way to Heaven.

We see industry. They had to find material to build a city that size. To build a tower that would link Earth and Heaven together; that's a vast set of resources. That is highly skilled men you're talking about. But as Nimrod was conquering, he was building up a great band of scientists, getting out the best in every nation.

We took it yesterday, how they selected Daniel, different ones with wisdom, different abilities. Then he got the best set of mathematicians. Then he got the best set of architects, screened them out, find out their abilities, and he was making himself the most powerful force that there was. If he had to buy them, he was going to pay them and buy them. If he was going to offer them things, he was going to offer them things, but

he wanted them under his control because his ambition was to be a superpower on the Earth. If he was going to divide and conquer, if he was going to blackmail them, extort them and put pressure on the other nations, create scandals and so on, he was going to do it because he was going to become a force on the Earth.

And he said, Look at that Nimrod back there, you will see that Nimrod back here. Look at that Babylon back there, you'll see Babylon here. Look at that very system because Revelation is only Genesis reproduced.

Now I know in the Reformer Age, they drew all kinds of pictures. They drew a little pile of stones going up in the air and they had a man who said, "Pass me the bucket" and the man started to talk in Chinese, and one in Russian handed him the hammer. Now, Bro. Branham never preached that. So if we have those little images in our mind through those reformers pictures and these things, let us blow that out, amen, because that sure isn't a type of the Babylon today. Amen.

Now what is actually happening, you see the reformers they could have never even imagined the fourth dimension was going to be discovered. They couldn't even think of things like television and telephone. It wasn't back there. How could they see the whole planet would be linked up in this Hour? They couldn't see it. That wasn't discovered in their time, so they didn't know what those things represented.

Then we see also science, because to build something that would link Earth and Heaven, it would take a lot of science. It would take a certain type of technology, how to get that brick... They had to have transport systems where the mines were, where they located the mines. Sometimes the mines might be in nations that don't want to have any trade with them; they might have to go and take over that nation. And Nimrod was conquering because he needed that material to build his city. It had to be something very highly organized.

This is the picture I want to present to you, so we could realize it wasn't a bunch of primitive men in caves and clubs back there, but it was a highly, sophisticated organization taking place that by the time of Nebuchadnezzar, it was the head of gold. And the kingdoms have deteriorated. It has come from gold to silver, to brass, to iron. It had not been like Babylon. Babylon was considered one of the Seven Wonders of the World by the ancient Greeks. Amen.

Now watch. We see politics because it meant labor, trade, industry. It takes organizing people, transport systems, communication systems to transport that material to build a city. We were talking about building this church. The brothers here could tell you how much went through in building this building. We're talking about a city here. We're not talking about a couple of hotels; we're not talking about a housing development. And then we're talking about a tower, not to reach high as a tree in your yard; that was going to link Heaven and Earth together. Think of it.

Then we also see religion. The purpose was for religion. Then we also see government in seed form. We see Heaven and Earth represented also. We see ecumenism because the Bible says, "The whole Earth." Now the terms 'ecumenical' and 'ecumenism' are derived from the Greek word, I'll spell it for you because I can't pronounce it, *O-I-K-O-U-M-E-N-E*. Maybe it sounds like *oikoumene* or something like that, which its root meaning denotes *the inhabited earth* and is translated as *all the world* in the King James New Testament. *It's applied to one large religious body whose influence embraces the entire inhabited earth.*

And in Genesis 11:6, It says 'the people'. God said, "Behold, the people are one." And that word 'people' in the Hebrew is A-M. It means, 'a congregated unit'. And A-M, am is *a group which has certain unified, sustained relationships within itself. It may be characterized by religious fellowship.*

I'm going to give you just now what the Prophet said on all these things. So here in Genesis 11 then, it's very interesting to see the inhabited Earth unified and characterized by religious fellowship. One people, one language, one speech – Isn't that what Pope John the XXIII, when he came there after World War II, he rose up – God was sending a Prophet out, and he came up 1948 when Israel was back in their homeland, the sign that we're in the last generation. And God sent a Prophet out when Israel was in the homeland also. And that Pope came and said, "That we all may be one." That was what Jesus prayed. And he began to speak that.

And Bro. Branham on the message *Tower Of Babel*, he took this very Scripture here where: Behold, the people was one; because he knew God had sent him out there. He knew there was a Message that was going to come from what was spoken in the river. He knew he was going out to get the people to believe him, showing them, signs to attract their attention to get them ready for that Message that was spoken. And when he went out there, he began to see that other spirit moving. He began to see man desiring fellowship.

The world had just come through a second war. The atomic bomb leveled Hiroshima and Nagasaki. It was so destructive, brother, it caused such panic and that is joke to what they have today. And when they saw those things, they were so shaken up by war, they wanted peace; they wanted love. Then all the movements started: what the world needs now is peace; what we need is love and all these different things. And here came the pope now saying, "That we all may be one; separated brethren," all these different things.

And Bro. Branham was watching that and he said, "Not that kind of one!" He said, "God didn't say that kind of one at all," because he saw it and he preached this message *The Tower Of Babel*. [1958-0128 - Para. 2 -Ed.]

He said: *I want to speak tonight on the "Oneness of Unity."*

... It's very amazing to think that how that the people that they saw here was one. And you know, that's God's plan. God wants people to be one. And it's strange to think, but the devil tries to put his plan into existence and make the people one under his plan.

So he was watching in the beginning of the Bible, then he was watching in the middle of the Bible, and he saw in the end of the Bible, it was going to come right back. And he saw how in the middle of the Bible there when Jesus spoke that and showed the oneness, the pope picked that up and began to use that.

He said: *Now, God has a plan and the devil has a plan. And then the devil is trying to get all people under his plan, while God's trying to get people to be one under His plan. So there's two great spirits in the world. One of them is the devil; the other is God.*

Amen. And then also on *Why We Are Not A Denomination* [1958-0927 - Paras. 44-47 -Ed.], he was speaking there about...

He said: *I was preaching here on a subject, "Handwriting On The Wall,"...*

You see, he had started with *Babel* and then he went to *Handwriting On The Wall*. And on *Handwriting On The Wall* is *Babylon* again: Here is where it started; here is when it was the world power. And the Prophet was watching it because he knew there's a mystery *Babylon*, and he's that Messenger sent to call them out of *Babylon*. So he was watching it, how it was coming and he saw the spirit moving there on the Earth, and he saw it was taking place right around him.

So he came at the end in September there and he was preaching this message, 1958, *Why We Are Not A Denomination*, which also originally was called "The Great Harlot". And now he was still dealing with *Babylon* but he was at the end of the Bible showing them more of the *Babylon* today in the mystery form that existed on the Earth; that the people were looking back at historical *Babylon* and was in mystery *Babylon*

and didn't know they were in the same thing because they were conquered so deceitfully. They were so unsuspecting that they walked into the trap and the trap sprung shut and they didn't even know it.

He said: ...*Now, every "ism" that [is going to] come up, every religion and every "ism" that there is in the world today, [began] in Genesis. Now, if you'll get Hislop's "Two Babylons," if you want to chase it in history, or some of those fine books, you can even find every "ism" that you want to find. ... "Genesis" means "the beginning."*

And he goes right on and said: ... *Now, Babylon, watch how Babylon appeared. It appears in the first of the Bible. It appears in the middle of the Bible. And it appears in the last of the Bible. Now, there's something... Now, it begin with Nimrod. Nimrod founded Babylon in the Shinar valley... [See?] ...between the Tigris River and the Euphrates, and the Euphrates passed through. ...and how that every road, through all that country led straight to Babylon. And each one of those gates were about two hundred feet across, those gates made out of brass. And when you got inside of the city of Babylon, every street led [right] straight to the throne.*

He said: *Now, you can go to Rome today, and every road will lead to Rome. And there's a little virgin Mary setting on every corner, in the turn of the road, with a Christ child in her hand, pointing that way towards Rome.*

Which were Nimrod and Semiramis, see? So hear that Prophet now. That spiritual mind of a Prophet was catching that in the Book there and began to bring that up. And then he preached *The Unity Of One God In The One Church* the same year. [1958-1221e - Paras. 17-19 -Ed.] All this was 1958. He was catching that thing there. The Seven Seals hadn't been opened yet, but he had seen those visions way back in 1933. He had known Israel's history was repeating in the last days. He had known

all these things. See? And he knew those visions came from God; they could never fail.

And he said: [Now] *God has made man ... to achieve; that's what man was made for. And all down through life he has tried to achieve something. And his achievements, the reason he tries that, is because he was so designed to do so. God made him that way. But the trouble of it is, in his achievement he tries to do something within himself. And there's where he makes his mistake and he gets in trouble.*

And then he goes on there, you know, to speak a little more in *The Unity Of One God In The One Church*, and then on page 5, he said: ... *He begin to have selfish motives. ... and when he did that, he begin to think of something for himself. And we find that it isn't long until he had corrupted the very planet that God had put him on.*

Today it is hell created on the Earth. You talk about corruption!

He had got it in such a condition till even His Creator, grieved Him at His heart, that He'd ever made a man. And you can imagine how God felt when He seen the very creature that He made in His image, and give him dominion, and how that He made him to do something for Him, and yet he turned all of his strengths and his power over to [his] selfish desires and [his] achievements.

So he went on there and he began to speak on those things. And then I want to give you a little part of it too, because it gives you some of the history of Babylon, and some of the younger ones here, you know, could get it in a real way.

On *Handwriting On The Wall* [1958-0108 - Paras. 7-10 -Ed.], he said: *Now, Babylon was founded by a man named Nimrod, who was the son of Ham, a very evil man.*

And Babylon was once the capital of the world. When this great city was built there, all the little cities, all

around it, paid tribute, taxes, and so forth, to this great city Babylon.

... So, Babylon set just in that great fertile valley there, and it was surrounded and irrigated by the Euphrates River, and the Tigris. And it was a great agricultural center. And Babylon was a great city.

You see, they looked for a place. They knew they will have to have a strong economy. They had to find a place where they could have enough food to feed the people. Then they also decided to make it the capital of the world. It was all a great plan. And every move was well orchestrated until it was going to come to be the superpower in the world.

He said: ...And through the center of the city came the great river Euphrates. If you'll notice it, it's the city of the devil, for it's designed after the City of God, as the River of Life before the throne [of God].

...And it was such a great, mighty nation at the time, until it had whipped the [then] known world, and all the world was paying tribute. It had progressed further in science, and it had the latest things that science could produce. It had the latest chariots, the latest designs, the most powerful armors, and best of metals. It was ... outstanding to the rest of the world.

Why was he saying all of that about Babylon? He was not looking back there, he was bringing a picture of this last Day.

To give you a little something on language as we build a... You just bear with me. *Language is the most common system of communication. The word 'language' may be loosely used to mean any system of communication.*

Scientists have their own language. Doctors have their own language. Mathematicians have their own language. It depends on what you want to call language. It's communication.

It comes from the Latin word lingua meaning tongue, and language, still, is often called a tongue.

And we know all of them had their tongue but then they became one language. Because we found out, in Babylon, (when Daniel and they were captured,) they began to teach the subdued nation their language and passed on their religion to the nation they subdued, expanding and extending their kingdom. And then they selected who they could use to build up their own nation to become a stronger power out of the captives that they took.

That's why I say, war always changes the world. Economic war; fashion war has changed the world. Media war has changed the world's thinking. See? Trade wars have changed the world and economies and caused inflation and all kinds of things, recession; unemployment in the world. Countries are left devastated economically by trade wars. There are all kinds of wars. Because we found out, how the Beast fought on another battleground.

While the communist world was trying to beat plowshares into swords and fight a military war, they were causing craft to prosper because they had gotten a hold of the fourth dimension and they could send their message worldwide, even into communist countries. And what is causing all the internal instability in the communist countries, they said, it's because of the images of wealth and freedom and these things in the western world. They realized like they were in a prison, they were in chains, and they began to rebel and called for democracy because they realized they were being enslaved mentally.

Because of that fourth dimension, they could stay from their country and invade your country with an ideology, and enslave your people mentally because we're in the Mind Age, you see. The opening of the fourth dimension; God never let them discover it in any Age until this Age. And he said, "What is going to bring the people into insanity? All these things they're seeing. What is bringing hell on the Earth? All these things that

are coming up.” He knew what he was talking about because he saw those things in the Bible coming back. Amen.

Now, look here as we dig in a little deeper. They say: *A common language enables human beings to work together in an infinite variety of ways. [A common language] Language has made possible the development of advanced technological civilization. Without language or communication, there will be little or no science, religion, commerce, government, art, literature, or philosophy.*

They had one language, one speech. Why does the Bible first speak of tongue? They had their own tongue, then It says they had one language, then It says they had one speech. It's not playing with words. It's something lying in seed form that sometimes we have to get the antitype to understand the type. What we don't see in the type, we look at the antitype because this is the positive to the negative here. And what is not shown over here, we can look at the type and know what is going to happen here too because there are two halves of one whole. Alright.

Also language, how does it change? We know war changes it and the subdued, many times, take up the language of the captor. You'll find that in *The Church Ages* book, page 181 and 182.

He said: *No one knows all the reason why language changes. [I'm reading this out of an encyclopedia here.] But they continue to do so as long as people speak them. In a few cases, the changes can be explained. For example words are added to a vocabulary to refer to new ideas or objects. Contacts between speakers of different languages may cause words from one language to enter another language.*

We heard them singing this morning in Zulu, right here. See? And that came through a contact of people from another language. Exactly.

In modern industrial societies language changes take place even more slowly. Educational systems, centralize communication systems as radio and television promote the use of a standard form of language. Under these conditions, a language is likely to remain more stable.

In a little while, I'm going to tell you something that will help you see the power of the network systems today. These last couple of months that went by in the world here, they had problems in Poland, had problems in Beirut, had problems in China; had problems in Russia; had problems out in the Middle East. And every time they protested, their placards were in English because they knew they were enacting a planetary drama, they said. They knew the power of the networks to take the image from here and send it around the world. They may not have any influence in their country, but the whole world is going to start to rally behind them when they begin to contact through seeing and hearing.

Communication, you look at it. If it's not audio; it's video. 'Audio' is the Latin for *hearing*. 'Video' is the Latin for *seeing*. And seeing and hearing govern our communication. And we contact with these senses and it brings things we contact from the conscious realm to the subconscious realm. For it to get there, you have to see it or hear it. And then you are controlled by the man in the engine room, not the man on the deck.

Let me tell you, the Prophet preached *The Greatest Battle Ever Fought* [1963-0311 -Ed.] and in these last times, it has meant so much more to me to see the reality of what he was bringing there and showed where the real battle is in this Hour. Because the mind is the gate to the soul and to bring a soul in prison, you must capture the mind first, and they pull death into their soul through a church filter or a political filter, or some pleasure filter. He told us about a thinking man's filter and a holy man's taste because he knew the hour that

was coming. When those Seals opened, he saw it and he was bringing it there to place us in the channel.

You watch it. He preached *The Contest* [1962-1231 -Ed.]; *Greatest Battle Ever Fought* [1962-0311 -Ed.]; *How Can I Overcome?* [1963-0825m -Ed.]; *Wisdom Versus Faith* [1962-0401 -Ed.]; all these things. What was he telling us? It's a war on. He said, "The Hour of charge is here, put on the whole armor; God versus Satan continually – Victory Day! Amen! He knew it was on. But he had overcome and he unfolded the way for us, through the Word that he was bringing to us.

And here, as we walk in it in this Hour, it will bring the same victory for us. Amen. Because he saw that Bride marching, going up, onward Christian soldiers. They were going to come back to fight the last battle in Armageddon. See? Because the first battle was in Heaven, then the second battle is in the human mind and it's going on right now until the Bride goes up. One day, Satan will be cast out of the mind, the same way he was cast out of Heaven. Amen! Hallelujah! The Bride will stand and say, "Satan has no place in me." – tempted in all points but yet without sin; sinless, spotless, virtuous Bride. Amen.

And then She will come back with Him in Armageddon. And that's where the battle that started in Heaven ends up on the Earth in the form of Armageddon. Oh, but in the Mind Age is where the battle is on. And the whole world is being linked up by the power of the communication networks because what God disrupted was the communication system. And in the last Day, we see all ten kings, these have one mind and then all the nations, kindreds, tongues, and tribes are also linked up too. And they're all under the Beast from around the world, looking right there and seeing what is happening. And all have the same feeling and attitude to what was taking place because of the spirit that they were under in that system. Because

rejection of the Word makes a way for the devils to become incarnate.

Satan is bringing his kingdom from spirit to flesh because he himself will be incarnated in the man of sin. That's why the Prophet said, "Hell is coming here." In every Age, we had to die to go to Heaven. In every Age, a man had to die to go to hell, but in this Age, there are some people who wouldn't die and go to Heaven. In this Age, you reject the Word and you'll slip right into hell. He said, "That fifth dimension is like a nightmare." [1962-1125e - The Countdown - Para. 20 -Ed.] And the nightmare has come here now.

Living here is a nightmare now. Sure! The fear in the world is gripping the people; the murders, the killings, the drugs are like a nightmare. You're scared for your children because of the schools they're in; the things they're being educated into; the things that are being preached in the churches. It's a nightmare. It has come here in this dimension!

But watch something. They had worked, and through conquest, he began to spread his borders; overcome, overcome, overcome; subdue the nations and he brought them under one ideology, one goal, one purpose. They were all channeling their efforts and their energy: scientists, mathematicians, schools, churches, everything, to build this great city and link Earth and Heaven together. It was like a great space program they had, that they could go up into Heaven and come back down to Earth, and go up into Heaven and come back down to Earth. Don't we see it today?

And God came down in that Hour when Babylon – when Nimrod was building a world state where he was going to be Satan's superman, the world's leader, and where he held them bound by his power of communication. Right now, they say, there has never been an interest in media industries like now. Right now, they have what they call, the biggest mega-mergers on, between *Warner Brothers* and *Times* trying

to incorporate them. They said going into the 1990's, they will have just a handful of media industries controlling the whole world. And there is one on *Paramount*. [American film studio based in Hollywood, California -Ed.]

I was preaching back home on Nimrod and these things and then I came across an article. I said: My! What is this? Let me read this. Because I was speaking about communication systems and all these things. And, they said this man from *Paramount* came in and tried to take over the whole thing and get it under his control, and he was laying out his battle under the code name of Cronus. And while I was preaching on Babel here, I was reading *Hislop's Two Babylons*, and Cronus is just another name for Nimrod, the Greek name for Nimrod. And they said this mega-merger will be like a Tower of Babel. That's what they were saying in the *TIME Magazine!*

Well, the same time, my little nine-year-old boy came from school. Brother, I sat down there and preached the whole message to him and he was so charged up. He said, "Daddy, why don't you tell the people? Why don't you carry it and show it to them in church?"

I said, "Son, this is what I'm preaching."

Amen. He was so anointed. He sat down there afterward, picked out his little Bible and began to read too like he just got under the Spirit. I knew he wasn't understanding half of it, but what he was catching there, it was doing something to him. You see?

And here we see then, how after he began to conquer these things... And by the way, *Paramount*... I said if Cronus was Nimrod and he wanted communications... Because you see, in any nation, you need four strong things: strong economy and military. That is economy – food for your people; military – defense. That's for the body. See? Then you have communication – the mind; keep them influenced under a certain ideology. And then religion which is the soul of every nation. So he

was conquering them body, spirit, and soul. He held them there in that system.

And look at Satan destroys our bodies today with hybrid food, rots it, makes us a weak race of people, rotting our bodies. Bro. Branham talked about the women being past menopause at twenty-five and these things; man gets lashed with a baseball falls down dead – sick and soft. “A bunch of muck and filth,” he said.

Then the next thing was, “Look at through the fourth dimension” he said “radio and television are producing these images that are bringing the people in a hideous condition. It’s going to send them to insanity.” See? The mind. And then the soul: false religion kills that soul, blinds them from the Truth. And the soul that sinneth or disbelieves the revealed Word, shall surely die. See?

So back there, Nimrod had it. He had such control. And today the Beast has caused craft to prosper: economy. All the kings will give their power and strength to the Beast: military power. She’s going to control the communication system because they were all rejoicing and began to send in their thanks and praise when the Beast overcomes Moses and Elijah. And then the religion: the Catholic Church, the whole world is going to bow down to. Exactly, same thing.

He is using the same techniques. Can’t you see? God scattered them and after all these thousands of years, they’re united together and have come back to The Global Village with the very same objective, same purpose, using the same techniques! And God had to send a Prophet there to pull the Seals off the Book and show it to us! He said, “Otherwise, the whole world will be deceived!” Amen!

It’s very interesting as we look at it; this great thing that is happening. Quickly, let me try and move on.

Now you see, they built the best team of scientists. They built the best team of archaeologists, geologists, mathematicians, engineers, until you had many people defecting from other smaller nations because history

said it was Shem who had killed Nimrod. Shem had buried five generations of his own family and he was still alive on the Earth because God said, "I will dwell in the tents of Shem."

Satan always wanted to be like God and build a kingdom. He tried it in Heaven and he failed. When he came down on the earth through Cain, he introduced his perverted religion to the world through Cain. Then we see it coming up in Nimrod again right here. And right there, he almost had the entire world under his control, but God would not let it happen at that time. But the Scripture says Rome will rule the world in this Hour for one hour. And Revelation 19, when He comes down in that Babylon this time, He's not just going to scatter them; He's going to turn them into atomic fodder and the righteous will walk out on the ashes of the wicked.

But this is the time here, when the final call of that Message that has come to the Gentiles is sweeping the earth, looking for that last one before it goes to the Jews. And the Gentiles will never have another day of grace. He said, "The foolish virgins is saved now, but they have to go through for purification." Amen. So it's a tremendous time.

Now because of the one language and the one speech they were making rapid strides you see because they were working with one objective, because speech in the Hebrews is a word called D-A-B-A-R which it means word, matter or thing. It also means news. It means what is done and sometimes it is a report of what is done, an account of actions. [That's what speech was.] It was one speech, the communication system that united the world together through which one language was being communicated.

They had one objective, one ideology. They had one goal and when God disrupted it, every one of them drifted back into their own tongue. Look at the English language. They said over the years how the English

language has even changed. We can't go back and speak like how they had the King James Version way back there. No. It's changing continually. And then more and more other words, Latin words, Greek words, different words are coming in the English language all the time. It's changing now. Language keeps on changing.

They all had their tongue. But when God saw, He said, "My! This is a unity. If they're so united and begin to link Earth and Heaven, what is going to stop them now?" Recently, right here they had passed everything to build the space station. The parts are being manufactured right now, "We will put it up out there." They're not interested to go to the moon anymore; the moon has no interest. The moon holds no mystery to them anymore. And it's not anything strange, you know.

Where their minds are, they said: "When Columbus sat there in Italy and he looked at the big ocean, something in his heart told him, man doesn't sail out there and fall off a cliff. And he began to get a vision, and he began to act on his inspiration. And he began to get a ship, and get a crew, and began an expedition to explore a world that they didn't know. Then they called here the New World through his exploration and his expedition, and were like the Pilgrim Fathers when they left Europe and they came there to America. They colonized the world. Look what America is today. Look what it was some hundreds of years ago when the first ship landed on that soil."

So they are seeing to colonize Mars is nothing; to colonize here is nothing. And they said, "We have more information of the universe and outer space than Columbus had (when he sailed the seas) of the seas. And we are in a ship, a spaceship, sailing the ocean of space and there are lands out there that we know about, and we're going to use the same pattern, and we're going to go out there and colonize it and set it up."

And they see it feasible and they begin to pour billions of dollars into it, while millions are dying of starvation on the earth because they are certain it is going to work for them. And they are building that space station because they said, "It's going to take us too much of time to stay from here and launch off there. We have a better chance to launch off from out there."

They want to link Earth and Heaven together. He said, "They're trying to get up in Heaven without coming through the Blood, without coming through the God-ordained way to come." Amen!

They knew their power, their success, their progress, their achievements were because of the communication system; that the one language and the one speech that they had, had everybody so unified that that was their strength. It made them a force to be reckoned with. It gave them a security which they enjoyed.

Because you think, today if any one nation or any one company controls all the communication systems of the world, they're going to be the major power in war, in religion, in politics. Exactly right. In economics, they will be the major power. Because if you're not really linked up, you don't know when to buy, you don't know what the markets are, you don't know what is available. In war: you think of a nation that has no communication system. In economics: the best way to sell the products; cause craft to prosper through advertisement and these things. Religion: Oh, they could keep them right in their home there. They don't even have to come to church anymore; beam it right inside to them there.

Bro. Branham said, "That was the curse. That crippled the Pentecostal church." Is that right? Sure. He saw it!

But they had one fear: "If ever our communication system is taken away; if it's broken up, what is going to happen: our world would get back so large."

Let me tell you; in the old time days, communication never traveled faster than the form of transportation they had. A man wanted to send a message, he said, "Okay, next week, I'll be taking a trip down there." They used to go to the store once a month or once every six months and get their supplies. Sometimes somebody gets some news, maybe a ship came in or some caravans came in, then they knew what was happening in the outside world. It's the form of communication that they had.

But then you notice something: Over the years, what had happened was, as transportation systems also were developing—because they came from the horse and buggy to the motor car, to the aeroplane, to the astronaut; and they reached to a place now, they didn't know where to go any further. But they had something they called science fiction, which were their imaginations. Because through the discovery of the fourth dimension, they knew, "We could stay right here and send this man's image and voice around the world, thousands of miles away; pass it through that fourth dimension where it is not bound by time." Because in some countries today is Saturday; in some countries, today is Monday. And they could send your image back into yesterday or over in tomorrow and you're right here today. And you're right here today in Canada, and in a next country you may be in the past, and a next country in the future, and your body stands here in the present.

And they send it out at the speed of light: one hundred and eighty-six thousand miles per second! You know like when you watch sports and these things: something happens in one part of the world; another part of the world; from the time the man swings the baseball bat like that (*whap!*) and hit the home run; it's happening in America and somebody way down in China may turn the set on and sees it.

They're watching world news, you sit right there and they say, "Okay, in Paris this and that is happening. In

London, this and that is happening. In Japan, this and that is happening. In Russia this and that is happening,” and in three minutes you were around the world. And you come back with a super knowledge. And somebody who is not linked up in that realm, they don’t even know what is going on in their neighborhood and you’re seeing what is going on in Japan, what is going on in China, what is going on in Russia, what is going on in Australia.

Satan has given his people a kind of super-sense through science in this Age of Information, in his evolution bringing his kingdom to a climax, that they could sit down here and talk and...

Like my wife called me yesterday and I was talking to her on the phone. And we were just kind of talking and having a nice little time and I was talking really easy. [Quietly -Ed.] I didn’t want anybody to hear me while I was talking to her on the phone. You know how it is when you haven’t seen your wife for a few days and you are in another country. So I was just kind of talking there to her and she was hearing me. I was hearing her like that and somebody in the next room couldn’t hear me, and she is thousands of miles away.

Now watch. Now they know, “If we can send the image and we can send the voice at the speed of light, there must be some way to send the body.” They are probing into a theory that there could be a final frontier of transportation that we haven’t broken into yet. So right now, they call it science fiction. They beam them into outer space, *pick!* [Bro. Vin makes a sound to indicate in a flash -Ed.] and they land there, and they beam them back here, and they are just beaming them everywhere.

But when Enoch went up, that wasn’t science fiction. Amen. When Elijah went up, that wasn’t science fiction. When Jesus went up; wasn’t science fiction. They had an availability of a Divine transportation system unknown to the scientific world! And because they were God’s representatives on the Earth and you know, if

they are part of God's economy, then what God has is available for them because they are the ones carrying out the Father's business on the Earth! And He is to take care of His own business.

You see it in the natural. You work for a company, they give you some incentives. They give you a car to travel with. They give you this here and help you here, and do this because you are seeking the company's business. You're an asset to the company and you are on company time and they want the things done quickly and efficiently because it is important to them. So what they do: they give you these things.

And it is the same way with God. He needed to get Philip there to preach in a hurry. Amen. Brother, Bro. Branham said, "Elijah was tired. Oh, he was coming to Jordan. He was tired, coming down (amen!) at the end of his journey." He said, "And all of a sudden, here comes some Divine transportation. He knew of the service; it was a courtesy service, special priority route, no traffic jams, nothing (amen! Hallelujah! Glory!), to take them where they were going! But the story doesn't end there.

We see in the Bible, Moses and Elijah will have the privilege of using that courtesy service! But we will like to use it too and it's promised for us also! Hallelujah! "This Bride," the Prophet said, "will be traveling at the speed of thought."

God—that Rapture is a revelation to take us there. And science in the perverted form is breaking in and bringing out the perversion; only telling us as believers, that what they are trying to probe into and get a hold of is a reality already.

Oh my! I am finding a place to close. Let me close. Amen. I think that is the right place to close; put that right in there and close. Amen.

On *Countdown* [1964-0209 - Para. 31 -Ed.] Bakersfield, page 5, he said: *All these natural happenings now, they forerun spiritual happenings.*

You see, while they are uniting the people under one; under the plan of the devil is another union. It started off invisible. He preached *Oneness* [1962-0211 -Ed.], *Invisible Union* [1965-1125 -Ed.], *Super Sign: God and man*. As our brother preached the other night, *The Marriage Of The Lamb Is Come*. Marriage is a union. Amen. Hallelujah! Oh, it's a great link up (you see?) controlled by another power. And here, the Prophet is breaking into it and seeing how science is bringing it out because in that fourth vision he had seen science was going to do all kinds of things.

They were going to break into God's laboratory. See? But he told us, "Don't be bothered, God is the Creator of science anyhow." Amen. The devil uses the perverted form because they don't understand what God puts it there for, so they rearrange the molecules and blow up themselves; breed a monstrosity. But God put it there for a purpose. And when he came, he began to show us, visions, all these things, there was something to it. Dreams; he showed us that God made you up a certain way to dream a dream.

He began to explain to us all these things to show us, how there are three parts of us, that we can understand even the battle in the mind to know what real overcoming is, what real faith is. Because God was pulling us away from this world, taking us up that golden staircase into Another Place. And that's where the Word is carrying us. Oh, and that chariot, that theophany could swing low right by you. Your faith (amen) could link you up with that.

He said, "You heard from your theophany." He said, "Little children it's Evening Time. Don't you feel the travail? Isn't there a crave inside of you?" He said, "Do you know what that is? You have the experience." He said, "I'll tell you what it is." He said, "It's a perfection calling you to that perfect Place." Amen.

He had gone There. He understood it. He knew his hair was waiting There for him. He knew everything was

There. He came back. And when he came back, he went to the Bible and he began to say, "Look at Moses and Elijah hundreds of years after. Look at Samuel came back out there." He said, "Look at those souls under the altar had all their senses." Amen! He was bringing it so close to us. He said, "And that Angel, all those things are here just like television; it's only in another dimension. But this body you are in is subject to these five senses, but when I went There," he says, "they have a sight, they have a hearing, but it's far greater than this one."

He left you here to believe and walk by faith and believe the things you don't see, but in that theophany, it's all sight. In that theophany, it's all hearing. And when that theophany comes into this body when it's changed, do you know what is going to happen? You wouldn't need telephone. You wouldn't need television to see around the world. You won't need transportation. And the Message opens the way to take us into that Place. That is where we are walking this morning. We are marching through Immanuel's ground to fairer homes on High. Amen!

He said: *All these natural happenings now, they forerun spiritual happenings.*

I'm going to leave some of that.

What Shall I Do With Jesus Called Christ, page 18 [1963-1124m -Paras. 68-69 -Ed.]. He said: *...last week, I was listening at a message quoted ... by Einstein the great scientist, what is called the brain of the time. ... Then I went to hear Norman Vincent Peale on his psychology, [you know] how that people should do or walk, and project themselves into psychology.*

Sigmund Freud was the one who started with the psychology thing: about the conscious and the subconscious and all these things. Then it developed into Norman Vincent Peale who was not the reformer of the thing, but who was like the prophet of the thing in that Age. The Prophet said he went in his places. It

was just quiet. The people were coming in meditating, positive thinking, all the different things because they were approaching it through the natural realm. He was going to bring us through the faith realm. You see? But he was watching how they were striking on the perversion out there.

Einstein, the brain at the time, the intelligence who could split the atom and released a power that all of them back there never had. Luther read the same Bible we read. Wesley read the same Bible we read, but they couldn't produce St. Mark 11:23. They didn't know the Power to create squirrels and to change this body, but he found it! He rightly divided the Word and so that Power was released and produced these things.

And he came back and said, "Natural scientists work by natural laws and achieve natural things. Spiritual scientists work by spiritual laws to achieve spiritual things," he said, "and all these things are governed by a law." And he told us, he said, "There is a way to make the Word work. Jesus had faith in the knowledge that He was the Word." It put Him into another World, a spiritual Astronaut. Amen. How did he know that? He had evolved up into that World too. Amen! And then he brought It back down for us because we must enter There also. Amen.

And here he was listening to them. He said: ... *Einstein, he was speaking of a galaxy [about a] system [out] there... If a person could travel at the speed, of light. [He says he would break, one] eighty-six thousand miles per second that light travels. And I break that down in five minutes, how many millions and billions of miles... And a hundred and twenty million years of light-time it would take you to get to that galaxy.*

He said: ...*And they hit something that stumped them. ... You'd actually, take you three million years to make the trip--three hundred million years to make the trip. And when you come back to the earth, actually you only been gone fifty years.* [He said, "It stumped them." Now

he comes and says:] *You break into eternity. There is no end of it.*

Page 16, *Christ Is Revealed In His Own Word* [1965-0822m - Para. 63-68 -Ed.] [I'm closing out.] *And they're going to find out someday that they're not seeing a hundred and fifty million years of light space either; they're going right around in a circle. That's exactly. You're going to find out one of these days that when you go to heaven, you don't fly off somewhere...*

Because he had gone. The billions of dollars science was sending out there, and all they were trying to contact, and you hear those voices they send out in the universe ever so often, beam it out there: "Is there anybody out on the planet? We are on Planet Earth here, this and that." A deep in them; there's got to be another civilization, another planet with people somewhere, you know, something up there somewhere.

And the Prophet laid down on his bed and slipped into that World like that, and met the people that science is trying to find, every time they would leave Cape Canaveral or Cape Kennedy. [Space Centers -Ed.] He found them right there! And he said, "It isn't twenty feet; it's a breath away." And they in all their big suits and everything else, he said, "But you're going by faith (amen); Rapturing Faith." Hallelujah!

He said: *...you're [just] here too, just in another dimension faster than this. Right through this room's coming color. Every color shirt, dress, whatever you got on is eternal, laying right on records, going around and around the world. Every time you bat your eyes, it's right on record. Watch, television will prove that.*

The world wanted to see television, but he was trying for us to understand the dimension that television is working and perverting the world by, that it has something for us. That dimension has something for us because your image is not bound by time zones. But here we're trapped in time; we age. Some of us are tired already. We get hungry; time for us to go and get

something to eat. What happened? We are trapped in time.

We were not supposed to be trapped in time. When God made Adam, He put him with five senses to contact this world, not to be trapped in it; was to contact these three dimensions, not to be trapped in it. Adam had dominion over the whole Earth.

You take a map and look at it; where the Garden of Eden was right where the Euphrates River had passed through there, he could have walked for hundreds and hundreds of miles, but he didn't have to walk. Adam could have traveled at the speed of thought like that. [Bro. Vin snaps his fingers three times -Ed.] He could contact light, matter and time, but he wasn't trapped in it. But something happened in this mortal body that we got locked in it and for us to move around here, we have to use horse and buggy, motor car, aeroplane, to move around in here. And while we stay here, we are aging; we are aging. We are being broken down.

But I'm bringing you something here on the Rapture (you see); how we are going to go There without dying; what has happened to us; how this Word that we're watering is packing us to meet the unseen Bridegroom. Oh, it's a type, but it is saying something! How are you going to meet Melchisedec after the battle of life to get the communion in the Wedding Supper, (the greatest battle ever fought right now, the battles of life to slip in that Dimension) where King Theophany Jesus reigns and rules; where there is no yesterday or tomorrow, no sickness or death, no sorrow or pain? It doesn't exist There!

He said, "Something happened in the beginning, the timeline was broken, the lifeline was broken, the continuity was broken when man lost the battle in the mind right here." When they lost the battle, then man fell from mortal to immortality—from immortality rather to mortality. He fell from Life to death. He fell from Eternity to time and he became bound here in these

dimensions. But, through the shedding of the Blood of Jesus Christ and that Quickening Power that Bro. Billy was preaching about, is being released unto us, that Spirit of Truth taking us through the Word, bringing us from faith unto faith, changing us from glory unto glory. What is actually happening?

He said, "This body will materialize when that image is being formed inside of you. As you crave those Vitamins, as you feed upon the Word, something is happening. As you keep watering It with faith, that Word (amen!), something is taking place, is pushing us up. He said, "If the same Spirit that raised Christ from the dead dwells in you, It will do what? Quicken your mortal body." He said, "And the body that used to smoke and drink and curse and carry on is quickened, is already turned heavenly!" He said, "It is already becoming in a Raptured condition, right now." Because the same hands are praising God; the same lips, speaking and praising His Name; (hallelujah!) the same feet walking in His pathway; same ears listening to His Word; same spirit is subject to Him; same soul believes every Word – being quickened, changed! Something had happened.

He said, That is the earnest of your change, of your new body because the change already started. The body has already turned heavenly. Your soul is in Heavenly Places." You know your position in Christ. Your mind breaks into eternal Things. There is a spiritual atmosphere that you live in, recognizing your position in the Word for the Hour.

He said: *If Einstein had only had the spiritual application, as he had ... the physical application, as he studied the laws of light... he could've told us something. When I heard his message on that great center somewhere into the skies, that ever contacted with that center, you could create earths, do anything ... the power would be unlimited. ...He had seen that.*

Bro. Branham contacted that center and saw squirrels created. He said, "Einstein only had it in the natural. He studied the laws of light." And the Prophet had the revelation of the Light. The Light Himself was in him. He was the Light of this world. Amen!

He said: *You see these little pockets going through the air they call "saucers," so forth. [He said] ...Well, we better leave that alone. "Hear how these people come up missing?" you say. Don't hear from them; they're standing there, and they're not there. That's the way the rapture's going to be.*

He said, "You see those things; you think they are UFOs, extra-terrestrial, aliens or something like that, you know, it is some invasion from outer space."

You tell me when they see Revelation 19, what is going to be in their mind; when they see Christ and the armies coming? "It's an invasion from outer space." Yes, it is. Amen. It's World War III. Amen! It's Armageddon. But they are having it as entertainment and science fiction and these things. And he said, "That's the way the Rapture is going to be: those things, those theophanies are going to come to get you." He said, "And don't you fear. The One you've been hearing from..." He said, "Don't you hear that call? It's calling you to perfection. You have heard from your theophany."

Well, if it is calling you, you have to hear from it. It's a call and you are hearing. And he said, "It comes right in the service and gives you a charge. Some of you, your theophany is there and revelation is breaking forth; (my!) you want to read this book now; you are seeing that already; you now understand that; you read it last week; this thing is breaking over here. Whoo! Your faith is being anointed; you feel something.

"That's your theophany," he said, "giving you a charge like a battery (amen), lifting you up into a—your faith into a higher bracket because we are coming to that perfection for that Third Pull," he said, "the thing

that will start the Rapturing Faith to the going away; people who will know how to make the Word work.” He’s rubbing the make-belief out and bringing us into something real. Amen.

He said: *That’s the way the rapture’s going to be. One of [these days] this terrestrial body will take on a celestial body. And they’ll be hide, hair, or bones left. It’ll be transformed in a moment of time, dropping right out of space and taking home ... We see all this going on [right] now, ... the Pentagon wondering about these lights, and mystic lights, and everything they’re seeing in the sky. You seen they had one here in the paper at Jeffersonville this week and so forth, a mystic light saw. Oh, they don’t know what that is. But listen, little children...*

We look at the Cloud. They don’t know what it is. We know it’s Seven Angels from Eternity. We know they brought a Message. We know all these things. We know the Rapture started. They don’t know what it is; it is a phenomenon to them. Then saw these things; they don’t know what it is.

Oh, I love the Truth. Religion could never satisfy me; a religious way of the Message, no. When I see the Prophet there, he was no religious man. He was a real son of God with a revelation in his heart. Amen! Amen.

I was listening to a tape recently and he was speaking there about a vision and different instructions he was getting from the Angel, in the vision, to do certain things. He said, “Now, Mr. Clergyman...” He had maybe some Ministers there. He said, “Now, I can’t explain this to you and you better not say anything against it. Just believe.” Because they learnt it in theology school that way. But here was God of the Bible, moving, and it seemed so strange to the religious mind who has everything patterned a certain way of how religious services go. But it’s an unfolding of revelation: the just shall live by faith; walk in the Spirit. Amen! And he spoke about Enoch and how they are picking us up and these things.

I want you to turn with me to one Scripture as we close, this morning. I want to get St. John 20. I'm sorry to keep you this long, but I just had these things in my heart, and I thought I will share them with you that they will help. I am trying to know what to leave out and just what to say that the whole picture might break in. I know you know many of these things already and all these quotes, but when you hear things from different angles, they just come so fresh by inspiration to you and really encourage your faith.

St. John 20. I really appreciate your patience and understanding. Verse 1. Here we are this morning; first day of the week. Amen.

¹ The first day of the week cometh Mary Magdalene early, when it was yet dark, unto the sepulchre, and seeth the stone taken away from the sepulchre.

That stone was a seal that had the Word sealed up. And on that first day of the week, the morrow after the Sabbath, a mighty Angel from Heaven descended and broke that seal and the Word was quickened and came to life. Amen.

² Then she runneth, and cometh to Simon Peter, and to the other disciple, whom Jesus loved, and saith unto them, They have taken away the Lord out of the sepulchre, and we know not where they have laid him.

³ Peter therefore went forth, and that other disciple, and came to the sepulchre.

⁴ So they ran both together: and the other disciple did outrun Peter, and came first to the sepulchre.

⁵ And he stooping down, and looking in, saw the linen clothes lying; yet went he not in.

⁶ Then cometh Simon Peter following him, and went into the sepulchre, and seeth the linen clothes [lying there],

7 And the [cloth], that was about his head, not lying with the linen clothes, but wrapped together in a place by itself.

Now, what it was, when they buried the body, they used to wrap it like a mummy. See? And they saw the part for the head by itself in a place and the rest of the linen clothes stayed wrapped like that, just in the shape of a mummy. So they said, "My! This is a strange thing. How did they say the disciples stole the body? Then who could wrap back that linen clothes like that?" See? So they were startled, "What do you think about this linen clothes here now?"

8 Then went in also that other disciple, which came first to the sepulchre, and he saw, and believed.

9 For as yet they knew not the scripture, that he must rise again from the dead.

Verse 19:

19 Then the same day at evening, being the first day of the week, when the doors were shut where the disciples were assembled for fear of the Jews...

In order to leave no room for imagination, the Holy Spirit tells you the door was shut and tells you the reason why the door was shut, in case you think they had another open door or an open window. It said, "It was shut because for fear of the Jews." They wanted to be in a place, secured; nobody will see them. In other words, they went into hiding.

...[then] came Jesus and stood in the midst, and saith unto them, Peace be unto you.

20 And when he had so said, he shewed unto them his hands and his side. Then were the disciples glad, when they saw the Lord.

At first, in Luke it tells you, they thought it was a spirit. "Maybe it is just an image we are seeing because they could transmit the image; they could transmit the

voice.” See? To break that what was in their mind, whether it was an image or a spirit, He said, “Come and handle Me.” In another place, He took something and ate it. He wanted them to see there was another realm of transportation that they hadn’t known about, and in the Resurrection what kind of transportation we will be using.

Now let me give you that in *The True Easter Seal* [1961-0402 - Para. 135-148 -Ed.], and hear how the Prophet brings it out so beautifully. He said: *Now, we just happen to think, just watch this a minute. Now, Einstein proved by scientific, that if two objects was coming to each other, like two cars coming down across the road, and if [they] were coming fast enough (now they’d really have to be going fast, like a billion miles per second) but they could pass right through one another and never disturb a thing. The speed would do it. Pass them right through one another without disturbing anything.*

He said: Einstein proved about the law of light to create worlds. Einstein proved about breaking into Eternity; you are going around in a cycle. Einstein proved about traveling at a certain speed, you are going through matter. All those things, science, that mind of this Age, Einstein, was catching and bringing out.

We had a spiritual Einstein. A greater than Einstein was here. Hallelujah! What that ought to do to us, spiritual scientists, who have the books of Einstein (amen. Hallelujah!) to work by these same spiritual laws and achieve these spiritual things to bring our people into Rapturing Faith. When he saw those Angels, he said, “Could this be a Mystery coming that these vile, old, marred bodies could be changed? Could it be, my brethren?” It was. It was! This will be the thing (amen) that would bring that faith in the people. He said, “We are coming to that perfection.” Oh my, we are coming to that place (amen) when the End-time Message meets the End-time conditions. Amen.

He said, "Einstein proved by scientific that it could happen." *The speed would do it. Pass them right through one another without disturbing anything.*

He said: ... *Jesus, after He was resurrected, came right through the walls, right through the doors, and stood, and eat boiled fish and honeycomb. Hallelujah. Speed. No sooner than life has gone out of this body [he said] we're in the Presence of God yonder. We only know as feet and inches, and yards and miles, and so forth; we're in this earthbound system. But when we leave here, brother, oh, my, what a time.*

And then he keeps on speaking. He said: ...[Now] *I want to ask you. If the disciples came by night and took Him away, why didn't they take the robe that was on Him? If they were thieves and stealing, why didn't they take the robe too? But the linen was laying right there, with the napkin over His face, the linen laying where it was over His body. He just moved right through it all, and went up to the resurrection. Not a thing was disturbed; just the way He was laid, He was laying the same way, but He had went out from the linen.*

He saw what they were proving by science was laying in the Word in a spiritual representation, a true spiritual representation of today's scientific achievements; opening up a way and then he came and he found that Eternity. When he went to that world; had no yesterday or tomorrow, they weren't trapped in time. Then he found that Eternity. Then he looked there, he saw things created. Is that right? He saw it all!

And here, he is telling us how, page 16, *Question And Answers Book 1* [1964-0823m - Para. 934 -Ed.]: ...*But those who are sleeping...*

They asked him the question about the gathering of the Bride and these things in the resurrection.

...those who are sleeping in the dust will be awakened first...these corruptible bodies will put on incorruption in the rapturing grace of the Lord. And then we'll all get

together. And when they begin to get together, then we which are alive and remain shall be changed. These mortal bodies will not see death, but just of a sudden, there'll be like a sweep go over us...

That celestial body will come and pick you up. It will come to you. Amen! And that's why you are hearing from it now. It is calling you up to that perfection. And you are feeling the travail inside of you. And the light is breaking between mortality and immortality; between a dying world of corruption and a bright, new, shining day. Amen. It's the joy that we have looked forward to all these years; the pressing coming of this great Seventh Seal Light (amen!) and the Voice saying, "Shalom, good morning, the breaking of a new day." Amen! A Sunday, an Easter, a resurrection, (amen!) something real that he was moving into – Quickening Power.

We've been hearing all these things about the union, about the Quickening Power, about the worship. Amen! It's been spoken to us. Amen. We've been given the testimonies of how God was working right in the Supernatural, all these things – Vitamins of the Word. Amen.

...What's this sudden change? And after while you--you're traveling... Not with horse and buggy, not with aeroplane, not with motor car, but like the speed of a thought. You don't need them to send your image and your voice through the fourth dimension at the speed of light. You will think it for yourself and go at the speed of thought.

Science will reach their last frontier of transportation; they will not go beyond that. The rest for them will remain science fiction. But we are breaking into something through this great revelation of the Rapture, that Seventh Seal Message coming to this great uniting time that, behold, the people will be one. We will have one Language. Amen. We will go up Jacob's ladder. We will go into the New Jerusalem, the real to this perverted

Eden. We will go back to the real Eden, not what science is trying to produce here.

The Global Village will come to ashes (amen), but the righteous will walk out on the ashes of the wicked. And before He burns the Earth with fire: “Behold, I will send you a spiritual astronaut, Elijah the prophet, a flying Eagle, (amen) who will come with a Message to bring you out of that barnyard, take you off the barnyard post, and bring you to link up with your theophany; link up with Mama Eagle up there.” Amen. What a great thing is happening in this Hour. Amen.

I think enough has been said already for you to see the picture. What is left out, the Holy Spirit has already, no doubt, quickened it to your hearts because we go beyond explaining and speaking. When our souls get in the Presence of God, we can know more about God in five minutes than we can study all our lives (amen), where we can find the place and the grace to surrender ourselves unto Him.

It’s coming back to one language, one people, one great state, one great everything. After all these years, they found a way to evolve the communication system and link back up together. When the Prophet came, he was linking us back up with the Head Himself, the Intelligence; a channel of communication for inspiration, bring back real leadership back in the Church; bring back real Rapturing Faith. And all these modern events are being made so clear (amen) – Things that are to be; theophanies here with us. And with the eyes of faith, you see unseen realities have become real before the eye even sees them.

It wasn’t a reality when the servant’s eyes opened and saw the angels. It was an unseen reality before that because the prophet knew it was there and that had the prophet living in a certain atmosphere. But the boy wasn’t seeing what the prophet was seeing so he couldn’t behave the way the prophet behaved. So what he was seeing through the eye gate and ear gate, all

those Syrians, he became scared. But when the prophet prayed, “Lord, open the boy’s eyes” and the boy broke into the same realm the prophet was in, he began to see what the prophet was seeing. He began to behave the way the prophet was behaving. Amen. And may God through Divine revelation take our soul into such a place.

Let us all stand to our feet. Let the musicians come. Let’s just sing maybe a verse of this song: *Swing low sweet chariot, coming forth to carry me Home; a band of angels coming after me.* Amen. Your theophany coming after you, coming to get you. Amen.

[#673 - Songs That Live -Ed.]

*Swing low, sweet Chariot,
Coming forth to carry me Home,
Swing low, sweet Chariot,
Coming for to carry me Home.*

Oh, one more time.

...sweet Chariot,

Let your theophany draw by. God bless you.
